An evening of music with C. Walter Wallace, blind concert organist, will be given in Zion Lutheran church, Boalsburg, Thursday, October 20, at 8 o'clock. Everyone is cordially invited. No admission will be charged, but a liberal offering will be received. Prof. Wallace is from Lutheran pastors of that let one of our testimonials. He says: "I count it a privilege to commend the work of Prof. C. Walter Wallace. While I was pastor of St. Peter's Lutheran church, Riegelsville, we had the pleasure of having Prof. Wallace give several recitals. When I came to Philadelphia and took up the work of Bethel Lutheran church, I arranged for a recital. In each case throngs crowded the church. His playing must be classed among those who put spirit and soul into the organ. The instrument seems to change into a living thing."

FARM CALENDAR.

Timely Reminders from The Pennsylvania State College.

WHY MILK MAY BE OFF—Undesirable flavors and odors in milk come from three sources: the air, the body of the cow, and from changes in the milk caused by bacterial action.

KEEP SUN OFF FRUIT—Keep the picked fruit out of the sun and in the coolest place possible. The first 24 hours after picking has more influence upon the keeping quality than any single subsequent week.

CHANGE POULTRY DIET—Many sick poultry flocks at this time of the year may be cured easily by changing the feeding and giving epsom salts. New wheat, or any new grain, fed in large amounts, produces a condition in the flock often described as cholera.

By changing the starch feed to old grains, feeding a clean mash and giving epsom salts at the rate of one pound per 400 pounds of chicken, a flock so affected can be brought into healthy condition in a few days.

MAINTAIN COOL STORAGE—Do not heat up a single storage cellar by putting in a quantity of hot apples in the late afternoon. Leave the fruit outside until the next morning when it is cooled off. It is easier to keep the heat out of the cellar than to get it out after it is once in.

SAVE THE LEAVES—Leaves should never be burned. Rake them up and place them on a compost heap or use for mulch.

THE NEW ERA IN TELEPHONE COMMUNICATION

WERE THEY "GOOD OLD DAYS"?

ONLY a few years ago when you lifted your receiver to make an out-of-town call, the procedure was something like this:

"Number, please?" said the operator.

"Let me have Long Distance."

The Long Distance operator came on the line.

"This is Long Distance."

"I want to get Doeville 1234, etc., etc."

"Thank you, the operator will call you."

A little—perhaps quite a little—later your bell rang.

"Ready with Doeville."

And your conversation started. TODAY—

"Number, please?"

"Let me have Doeville 1234."

And—practically as quickly as on a local call—you are connected. That's the kind of service we are giving on out-of-town calls to the places most frequently called. And the area covered by this new-era service is constantly being expanded.

NASH

Leads the World in Motor Car Value

NEW PRICE
Advanced Six 4 door Sedan
\$1545

It's the **Smoothest** motor a car ever had

Here's the most startling development in the whole history of 6-cylinder engineering—the Nash 7-BEARING motor.

Take the wheel of this Advanced Six 4-Door Sedan for thirty minutes and then you'll realize how much a 4-bearing CAN'T do that a 7-bearing one DOES.

It's the SMOOTHEST motor that ever powered an automobile—full pressure lubricated to prevent noise and wear.

There's not a hint of vibration all through the full range of power and speed.

Nash balances clutch, flywheel, and

crankshaft as a single unit to make that absolutely certain.

Note the rich interior of this model. The luxurious genuine tufted mohair upholstery. The attractive vanity case and smoking set, leather mounted.

Observe that Nash uses genuine walnut for the steering wheel. And the instrument board, as well as the crown panel above, the window moldings and door panels, are done in walnut finish.

Bring your car in when you come to see this Advanced Six Sedan. You'll get the greatest LIBERALITY in terms. DRIVE around today.
