A few weeks ago mention was made in these columns of an orchard owned by Frank Gibbon, near Belleville, which was expected to yield a crop of about 6000 bushels of apples. About half the apples have been picked and it proves that the estimate named above is not too high. One car load of Delicious apples were shipped last week that came up to the standard of United States Standard No. 1, and for these \$3.00 per bushel was received. All of the fruit in the orchard was sold to the American Fruit Growers, Inc., Martinsburg. By all the fruit meant the drop apples and all others except those having rot specks. The lower grade apples will be shipped loose in cars and the better grades in baskets, the top layers of which are selected and laid first. The fruit is being picked on the bushel basis, five cents being paid with a premium of one cent per bushel to men who stay on the job until completed. The record day's work in picking was 135 bushels for one man.

He used a 4-16-4 fertilizer at the rate of 500 pounds per acre in the row. The vines were sprayed 12 times.

Compliments Democratic Candidate.

The Phillipsburg Journal, independent in politics, with inclinations, says this in its issue of Monday: Lyman Smith, Democratic nominee for county treasurer, was in town last week meeting his many friends in this county. Milk Plant Changes Hands.

It is understood that the Sheffield Farms Co. of New York, have closed negotiations with the Breyer Ice Cream Co. for the Spring Mills plant. The people in that vicinity can surely feel grateful to have Sheffield Farms locate with them. The farmers in this locality are proud of our local plant and they have never enjoyed a better market. This company has several thousand retail milk routes in New York City which gives the dairyman a direct market to the consumer, and gives the farmer the advantage of the price that the middleman would get if the milk was marketed through a jobber, and it also assures them the milk will not be left on their hands as has happened with another organization in this vicinity some years ago, but a 365 day market with a company established sixty years ago.

Will Jefferson's Birthday Be New National Holiday?

If a proposal which is expected to be made before the next session of congress is carried out, April 13 may become a new national holiday. For that is the day upon which a great Virginian was born—Thomas Jefferson, author of the Declaration of Independence and third President of the United States.

This proposal has special interest at this time because of several new Jefferson letters which have recently come to light. If you will read the illustrated feature article, "A New National Holiday" in this issue of The Centre Reporter, by Elmo Scott Watson, you will find what these letters contain and you will also learn about the proposal to make Jefferson's birthday a national holiday and Monticello a national patriotic shrine.

LUTHERAN SYNODS PLANNING TO UNITE

Scheme Includes 1,000 Congregations and 268,000 Members—Purpose to Prevent Overlapping of Territory.

An intersynodical committee, representing the Pennsylvania Ministerium, the Synod of East Pennsylvania, and the Susquehanna Synod of Central Pennsylvania, all constituent district synods of the United Lutheran Church in America, met recently in Harrisburg to discuss a proposed merger of the three bodies, which at present overlap on the territory of eastern Pennsylvania and southern New Jersey. The presidents of the three synods, Dr. E. P. Pfattheicher, Dr. Calvin P. Swank, and Dr. John Wagner, attended the conference, which voted to hold five simultaneous regional conferences at strategic centers next January to iron out such difficulties as may arise. Within the territory of the three synods there are approximately 1,000 congregations with a communicant membership of 268,000, of which the Pennsylvania Ministerium includes 588 churches with 190,900 members, the East Pennsylvania Synod 160 churches with 40,900 members, and the Susquehanna Synod, which includes this territory, 165 churches and 38,000 members.

The plan generally urged for the merger of these synods provides for the organization of one general synod with four district synods in definite geographical sections. The plan provides for meetings of the merged synod biennially in the odd years so as not to conflict with the biennial conventions in even years of the United Lutheran Church. Yearly meetings of a district committee are proposed. A special committee will consider these plans and formulate them for later discussion by the synods involved.

RUPTURE EXPERT HERE.

W. B. SESELEY, noted rupture expert, famous for his ability and skill in handling difficult cases, will personally be at the Bush House, Bellefonte, Saturday, Oct. 22nd only, 9 A. M. to 3 P. M., where those desiring to escape a surgical operation may consult him without charge.

Mr. Seesley says the patented rupture retainers he now uses will hold bad ruptures with ease, will strengthen tissues, cause muscles to contract and close opening. Any position of the body—any kind of work can be undertaken with safety.

For two generations we have cared for many thousands in every walk of life, physicians and surgeons as well as financiers and farmers; U. S. Gov't employes in Army Navy, Postoffice and Dept. of State; Men, Women, Children.

CAUTION—Elastic trusses with leg straps should never be used; they squeeze the delicate parts against bone and slowly produce dangerous complications necessitating operation.

Master your rupture now. It will be too late after strangulation sets in, operations that have torn out will be given special attention.
