CENTRE HALL, PA., THURSDAY, FEBRUARY 9, 1928.

NO. 6

## LONG AND SNYDER HELD UNDER BAIL FOR COURT.

### Arrest Caused by Jeremiah Zettle, Charged With Theft of Raw Furs Valued at \$400.

Ralph Snyder, of Pleasant Gap, and Ernest Long, of Gregg township, are each held under \$500 bail furnished by John A. Long and John Snyder for their appearance at court, charged by Jeremiah Zettle with the theft of raw furs from his place of business in Spring Mills. Mr. Zettle is an extensive fur dealer and at the time of the theft had a large number of pelts on hand, and it is estimated the young men carried away furs to the value of about \$400.

The furs were taken to Williamsport, where they were offered for sale, but the dealer there noticed some of them were from animals not native here and grew suspicious, finally refusing to deal in any way. This made Long and Snyder fearful of being detected, and decided to take the furs to Avis and store them there, which was done.

Later Mr. Zettle had his suspicions confirmed and swore out a warrant charging Snyder and Long with theft, and the result was that when Long was arrested he told of his part of the crime and implicated Snyder. The latter also acknowledged that he was a partner of Long's.

The pelts were all recovered.

## Bill to Reduce Postage Rates.

A reduction in several classes of postal rates through congressional legislation is being urged by two of the five Pennsylvania Congressmen who are members of the House Postal Committee. Representative W. W. Orest, of Lancaster, Chairman of the Committee, is sponsoring through a bill he introduced a cut by 50 per cent on remailed newspapers, a restoration of the one-cent rate on postcards, and a minimum charge of one cent an ounce on third class matter, such as direct mail or circular advertising. On fourth-class mail, or on parcels post, it provides for a reduction of one cent in therates on packages shipped to the fourth, fifth, sixth, seventh and eighth zones. It is understood the bill has the endorsement of the Post Office Department, and the reductions proposed, if enacted into law, will be regarded as a boon to patrons of the national mail service.

## 50 ARE GRADUATED AT STATE COLLEGE.

One of the largest mid-year graduation classes in the history of the Pennsylvania State College, totaling 50 young men and women, received diplomas from President Ralph D. Hetzel on Tuesday night at the fifteenth annual mid-year commencement. The group included fourteen girls, and advanced degrees were awarded by the graduate school to ten individuals. One of these, James E. Snyder, an instructor in the School of Chemistry and Physics, received the doctor of philosophy degree.

The commencement speaker was Dr. Francis W. Shepardson, president of the National college fraternity Beta Theta Pi, and Judge H. Walton Mitchell, president of the college board of trustees, was the presiding officer.

The School of Engineering had the largest number of graduates, 24, closely followed by Liberal Arts with 23; the School of Education graduated 16; Agriculture, 9; Mines and Metallurgy, 6; and Chemistry and Physics, 2. President and Mrs. Hetzel tendered the graduates a reception at their homes on Tuesday afternoon. The second semester opened on Monday.

## PEACEFUL TOWN TURNED INTO AN ARMED CAMP BY OFFICER'S HOAX.

Belleville Citizens Warned by Licensed Detective That a "Job" Was to Be "Pulled" There. While Citizens Were on Guard Perpetrator of the Hoax Fakes a Scuffle with Supposed Bandits in An Alley.

"Watch Belleville. There will be a job pulled there tonight. A Friend." That was the note that alarmed 500 Belleville and turned the otherwise peaceful Big Valley town into a sleepless armed camp Saturday night a week, as many residents grasped a shotgun, rifle or pistol to await the arrival of whatever was threatened.

The peaceful citizens were warned of the proposed "job" by a licensed detective, who Saturday warned all business men and merchants of that town after purporting to have received that message in a mysterious manner, finding it beneath his door.

At 3 o'clock in the morning Deputy Sheriff James Van Boskir received a phone call from the detective announcing that he had just had a scuffle with three desperadoes at the rear of the Slear residence.

William H. Printz, sheriff, was notified, and the two officers went to Belleville where they were met by thoroughly aroused citizens. Conducted by the detective they were unable to find any trace of the place where the scuffle was reported.

Sunday afternoon before a group of representative citizens of Belleville and the two county officers the private detective is alleged to have admitted it was all a ruse on his part and that he had pulled the whole thing.

And that alleged surprising confession was made just on the eve of the hour when Belleville bankers were about to bestow honors upon the detective for saving their town from the bandits.

According to the officers there will be no action taken against the man. Prominent Belleville citizens said they would bring no action for the hoax.

Nash cars have been reduced in price since the beginning of this month. The cost is now as low as \$1,000 for a Standard Six, Standard Six and the Advanced Six series.

## CHURCH COMPETITION

### One Fully Equipped Church and Pastor to Each 1000 Residents, Thought Sufficient.

Plans for eliminating competition among the churches of the Protestant denominations were discussed at the recent Church Comity Conference, meeting at Cleveland, Ohio. It was concluded that one fully equipped church with resident pastor should be sufficient for each 1,000 of population.

The question, whether correct or otherwise, seems to be that where there are more than one church to each 1,000 people, some of them should unite. In many rural communities there are two to five churches for each 1,000 people. In such places there will not usually be money enough to support these churches in an adequate way.

The people demand more of churches and ministers than they used to. They expect a minister to be intellectually well equipped, a brainy man who can preach sermons comparing favorably with newspaper editorial and magazine articles. Then they expect a social and magnetic nature capable of creating social life and attaching people to the church by friendly ties.

Then they ask him to be a systematic organizer, with somewhat the same gifts that are required of a corporation manager. To obtain such a paragon of excellence usually takes more money than the average rural church can afford to give. Some brassy men will take these pastors from an exceptionally developed sense of self sacrifice, but it is too much to ask of them.

Then the modern church is expected to have a well equipped building which should serve as a social center. It is expected to pay something for good music. The various things call for a little money, which can not be provided if there are too many churches for a town.

While there are three or four churches struggling to exist where one is all that can be supported, unfriendly rivalries may arise. The spirit of Christian faith calls for unity, and the sinking of minor differences in one combined effort.

The modern church is expected to have a well equipped building which should serve as a social center. It is expected to pay something for good music. The various things call for a little money, which can not be provided if there are too many churches for a town.

## WHITNEY-ISHLER.

A pretty wedding took place at the home of Mrs. Mollie Ishler, 208 South Burrows Street, State College, Thursday evening of last week, when her daughter, Verna Ruth, became the wife of Jesse A. Whitney, of Corey. At eight o'clock the wedding march was played by Miss Della Ishler, an aunt of the bride, as the couple entered the parlor. Miss Rozella Ishler, a sister of the bride, was bridesmaid, and Oscar Sherman was best man.

The wedding took place in the presence of a number of invited guests. The ceremony was performed by Rev. W. W. Moyer of Boalsburg, the beautiful ring ceremony having been used. The bride wore a dress of white crepe de chene and carried a bouquet of white roses, and the bridesmaid wore a dress of pink crepe de chene and carried a bouquet of pink roses.

The bride, who is very popular among a circle of friends, received many beautiful and useful presents.

The happy couple left the following morning on a honeymoon trip.

The groom is a Penn State student and will graduate in June, after which time he will enter upon his career as a college professor.

## ILGEN-GRENINGER.

On February 5th, at the parsonage of the Reformed church at Rebersburg, Russell S. Ilgen, of Logan Mills, and Lela Hope Greninger, of Tylersville, were united in marriage by their pastor, Rev. W. A. McClain. These young people have a host of friends in Sugar Valley who wish them a happy life and good fortune.

## FEED BREEDING EWES-Now is a good time for the flockmaster to begin feeding a little grain to the breeding ewes. It is not only necessary for the ewe to maintain her own body weight at this time, but she must take care of the lamb of lambs yet unborn. Just a little more feed and care now means more lambs in the spring and more dollars in the fall.

## FERTILIZER MAKES POTATOES.

Big yields of farm crops cannot be grown without plant food. Ninety-four per cent of the 187 members of the 400 Bushel Potato Club last year used complete fertilizers.

## PREPARE STAKES FOR FLOWERS-A number of perennials and other plants require staking, say landscape specialists of the Pennsylvania State College. Chief among these are dahlias, campanulas, certain phloxes, asters, chrysanthemums, and gypsophylla. The stakes are most inconspicuous when painted green. Prepare them now for use next summer.

## ORDER MATERIALS NOW-Look over your plans for the year. Estimate all fertilizer and spray material needed and place your order. Also be sure to order seeds and planting materials you may need this spring.

## SAVE TOOLS FROM RUST-Rust is the enemy of the garden tools. It not only wears out the tools but interferes with efficient work. Rust spots may be cleaned off with sandpaper or a wire brush, and the surface may be painted with a good quality of heavy oil or paint.

## SPROW HEALTHY CHICKS-Ask your poultry expert about the most efficient method of growing chicks.

## LOCAL CHURCH CELEBRATES ANNIVERSARY OF MISSIONS

A missionary program was given in the Presbyterian church at Centre Hall on Sunday evening. It was a thanksgiving service which is being held all over the U. S. A. This is the year of jubilee for the denomination. They celebrate three in one. It is their 125th anniversary of National Missions, their 50th anniversary of Women's Missions, and their 50th anniversary of Alaskan Missions.

Sunday evening's program consisted of responsive readings made up of certain commands of God and answered by men like John Elliott, David Bradford, Gideon Blackburn, Jeddediah Chapman, etc. The responsive readings were interspersed with missionary hymns.

The Junior Missionary society gave a play representing the different nationalities represented in our nation and what Christianity has done for them.

The latter half of the program was made up of eight tableaux representing the Pilgrims; David Bradford preaching to the Indians; Four Nez Perces on the Trail; Marcus Whitman with his workers; Miss Gaston teaching the dark-skinned children; Mrs. McFarland teaching Alaskan pupils; a group of immigrant mothers, and the last tableau was of all the characters pleading for the advance of God's Kingdom upon earth.

There was a goodly number in attendance, and we were wish to thank our friends for the offering which goes to the mission cause. J. M. K.

## To Ship Milk in Tank Cars.

A large storage tank has been installed in the Sheffield Milk plant here and will be used later in the season when shipment of milk to New York City will be made in tank cars. The storage tank has a capacity of 200 cans, such as are used for hauling milk at present, or approximately 2000 gallons. Milk received at the plant will be emptied into the storage tank, cooled, and from there pumped direct to a tank car. The tank cars are constructed on the principle of the family thermos bottle and it is said milk when placed in it at Centre Hall will retain almost the same temperature upon arrival in New York City.

The adoption of this method of shipping milk will greatly lessen the work at local plants and permit the milk to arrive in the center of distribution in much better condition than when shipped in cans, the method now in use.

Use of the tank cars will begin some time in March.

## Former Teacher Here Retires As College Professor.

Professor William Cyrus Bartol, who has served Bucknell university as a professor longer than any other in her history, will retire at the end of the semester. He has had a large part in the development of the university.

Dr. Bartol graduated from Bucknell in 1872, and was principal of the public schools of Centre Hall and a professor at the Mansfield State Normal school.

He assumed the chair of mathematics at Bucknell in 1881. For a period of 47 years he has been with this department. He has taught every mathematics subject in the curriculum.

## Local Odd Fellows and Rebekahs in Plays.

Local Odd Fellows and their sister organization, the Rebekahs, are preparing to present two plays on the nights of Friday and Saturday, February 17th and 18th, in Grange Arcadia. The gentlemen will put on "The Order of the Boiled Owl," a Negro comedy, while the ladies will present "The Husband Hunters." Both plays are calculated to put facial muscles working in hilarious laughter.

## Grange Supper and Social.

Friday evening of this week Progress Grange will hold a supper and social for its members and their families. Members will bring their own "cats." Supper will be served at 6:30 o'clock.

## Meeting of Members of A. B. A.

The Altoona Booster Association will hold a meeting of its members in the Penn Alto Hotel on Wednesday, February 15th, at 6 o'clock, during which an interesting program of entertainment will be provided members and guests.

The principal speaker of the evening will be E. McE. Radford, of Seattle, Washington, a business man of national reputation, who will give an address on business development that will be of interest and value to every business man. Because of the unusual importance of the speaker and his message the Booster Association extends an invitation to business men of Centre Hall to attend the meeting and profit by the message Mr. Radford will bring. There will be no admission charge other than the price of the luncheon served in connection with the meeting.

The committee on entertainment has provided an interesting program including a sketch by the Penn Central Trio, vocal selections by Miss Evelyn Anspach, contralto; A. W. Weidner, baritone; Howard W. Lindaman, tenor, who will appear in the program as song leader, and Byron R. Miller, pianist.

## Transfer of Real Estate.

Daniel Daup to Daniel S. Daup, tract in Potter twp.; \$1.

Lewis C. Stover, et ux, to Rebecca C. Hazel, tract in Madisonburg; \$200.

Andrew A. Borland, et ux, to R. L. Watt, tract in State College; \$2000.

Edward H. Laughner, et ux, to Joseph H. Wolfe, et ux, tract in Potter twp.; \$5000.

E. E. Weiser, et al, to C. J. McQuirk, tract in State College; \$1.

John L. Holmes, et al, to Martin A. Drebbel's Estate, tract in Ferguson twp.; \$1000.

## DAIRY AND ALFALFA FARM MEETINGS

### Twelve Centre County Communities to Have Similar to Old Farmers Institutes.

The Agricultural Extension Association in co-operation with a local committee in twelve communities of Centre county are holding a series of meetings similar to the old Farmers Institutes. There will be one day each spent in the various communities, starting at 10:30 A. M. Meetings of similar character have been conducted in Centre county for the past few years and much interest has been manifested in the local communities. Competent men from State College will be present to lead in the discussions and answer any questions that might be brought up. Anyone interested is cordially invited to attend.

Following is a schedule of subjects and speakers, and the time and place of meeting in each community:

Profitable Dairy Feeding-R. H. Olmstead-10:30 A. M.

Legumes and Fertilizers-J. B. Dick-1:30 P. M.

Dairy Herd Improvement-R. H. Olmstead-3:00 P. M.

### Schedule of Meetings.

Stormstown-February 13th-Grange Hall.

Bellefonte-February 14th-Court House.

Boalsburg-February 15th-Reformed Sunday School Room.

Port Matilda-February 16th-Old Fellows Hall.

Unionville-February 17th-Grange Hall.

Yarnell-February 18th-School House.

Hubbardsburg-February 19th-Community Building.

Howard-February 21st-In School Building.

Madisonburg-February 22nd-School House.

Spring Mills-February 23rd-School House.

Milford-February 24th-Basement Bank Building.

Centre Hall-February 25th-Grange Arcadia.

### Three-Link Banquet.

The I. O. O. F. No. 695 observed their anniversary of the institution of their lodge with a banquet, last Thursday evening, which was one of the outstanding social events of the season. One hundred and six Odd Fellows, Rebekahs and friends enjoyed the banquet prepared and served by Progress Grange. The menu consisted of roast chicken and side dishes that usually accompany it, and was surely a credit to those who served it.

V. A. Auman acted as toastmaster and filled the position in a very creditable manner. The first person called upon was B. D. Brislin, the only surviving charter member of the lodge, who responded in a few well chosen words. Others called upon were J. E. Carson, C. A. Spyster, L. L. Smith, and Frank Smith. John Knarr was well liked. Songs were led by Curtis Reiber, Charles Smith, Mrs. F. V. Goodhart, and Mrs. C. A. Spyster. The remainder of the evening was spent in games and various other amusements.

Anyone who misses this annual event surely deprives himself of the greatest pleasure in Odd Fellowship of the year.

The committee in charge was W. H. Homan, Charles Smith and T. L. Moore, who deserve much credit for perfecting the arrangements for this delightful affair.

## PROUDLY NEED ICE TO MEET NEW HEALTH REQUIREMENTS

### Regulations Effective July 1st Compel Reduction of Bacterial Count from 1,500,000 to 750,000 When Delivered to New York.

The need for large supplies of ice during the coming summer will be greater among dairymen than ever before. Adoption by the New York City Department of Health of a change in the sanitary code which requires a considerable reduction in the bacterial count in milk shipped into the city will necessitate better cooling and adoption of better production methods by every dairyman.

Under the new regulations the bacterial content must not be more than 750,000 per cubic centimeter on Grade B raw milk shipped to New York. This rule will go into effect July 1. Under the old regulations a count of as high as 1,500,000 is permissible. In order to keep milk within the 750,000 limitation it will be necessary that it be handled with greater care all along the line.

Present indications are that the new ruling will be strictly enforced. Responsibility for equipping themselves and adopting methods for handling milk lies on every producer. As one of the chief factors in retarding bacteria growth in milk is proper cooling, it will be essential for all dairymen to have a sufficient amount of ice to use during the warm weather. Warning is being issued now by the Health Department so that farmers will have ample opportunity to lay in sufficient stocks of ice.

The Dairymen's League, Sheffield Farms Co., and all shippers to New York City will be held responsible by the Health Department for the quantity of milk which it ships into the city. Therefore it will be impossible for these shippers to accept at country plants milk which does not comply with the bacterial requirements. The bacteria unit for milk delivered by producers to the country plants is 300,000 per cubic centimeter. In order that shippers may be able to comply with the regulation of 750,000 on milk when it enters New York it will be necessary to keep a careful check on all milk as it is received at the country plants.

A measure passed by the National House of Representatives provides for a new bridge over the Susquehanna River at Subury.

## POTTER TOWNSHIP HAD SIX DOCTORS IN 1876

In looking over the files of The Centre Reporter for the year 1876, the following item attracted attention, in the issue of March 15th:

"Potter township has six regular physicians, and yet it is in a healthy condition."

This period was before Centre Hall was a borough. From memory the writer recalls Dr. Peter Neff, Dr. J. B. Alexander and Dr. William Runicle as living in town and practicing their profession, and Dr. Peter in the town; Dr. Fred Moyer as living in the town; and the latter at Potter Mills.

Fees at that time ranged from twenty-five cents to \$1.00, and calls, not made on foot were either on horseback, sulkey or buggy. Today Dr. Hugh Morrow is the only physician in this same territory and in a day can make as many calls by automobile as could the six physicians in 1876.

## Former Salesman Advanced.

The Johnstown Daily Tribune recently published a picture of S. M. Goodhart over the following complimentary notice:

Sam. M. Goodhart is now furniture buyer and manager of the furniture department of M. Nathan and Brother, Johnstown. Mr. Goodhart is well known in Johnstown, having lived here for 21 years, starting as a furniture salesman and in the past few years definitely establishing himself among the leaders in the furniture business in this city. He came to Johnstown from the eastern part of the State.

Mr. Goodhart's many friends will be glad to know of his new connection. He started in his new position at the Nathan store this morning.

The gentleman is a brother of F. V. Goodhart, furniture dealer in Centre Hall. Before entering upon his new position he was sales manager of the Rothert Company, Johnstown, also furniture dealers.

## Income Tax.

An income tax return must be filed by every citizen of the United States whether residing at home or abroad, and every person residing in the United States, though not a citizen thereof, having a gross income for the calendar year 1927 of \$2,000, or over, or a net income for the same period of (a) \$1,500, or over, if single, or if married and not living with husband or wife, or (b) \$2,500, or over, if married and living with husband or wife, or (c) regardless of amount if the net income exceeds the personal exemption.

Turner A. Hugz, Deputy Collector, will sit at the following places to assist tax payers in preparing their returns: Phillipsburg, Moshannon Bank Building, February 23 and 24.

Millsburg, Revenue office, February 25th.

Bellefonte, Court House, February 27, 28 and 29.

Town, Haven, Post Office Building, March 1, 2 and 3. Signed, DAVID W. PHILLIPS, Collector of Internal Revenue.

## PENN STATE ANALYSES GUARD PUBLIC HEALTH

As a part of the service of the Pennsylvania Agricultural Experiment Station to the people of the State, 1651 samples were analyzed by the department of agriculture and biological chemistry at Penn State during the past year.

Among the 1563 samples submitted by the Pennsylvania Bureau of Foods and Chemistry were 897 milks and cream, 58 ice cream, 29 candles, 213 non-alcoholic beverages, 101 meats and sausages, 31 oleomargarines and butters, 50 eggs, and 154 miscellaneous food materials. Ninety-seven of them were found to be adulterated and prosecutions were recommended, while 1446 were found to comply with the Federal and State Food laws.

## COMING-MINSTREL SHOW.

Coming-Friday night, March 9th, the biggest thriller of the year. An entire ensemble of negro men, women and children, bubbling with every form of hilarious laughter for every one, young and old. A real minstrel in Municipal Building, Millheim, 8:00 P. M., March 9th, by the Millheim High School Melody Makers. General admission, 15 and 35c; reserved seats, 50c.

## Valentine Day Tradition Represents Curious Mixture.

Traditions which have gathered around the observance of St. Valentine's day on February 14 are like the traditions which have clustered around the celebration of Christmas in that they represent a curious mixture of Christian and pagan customs. The origin of the celebration was an interesting one and there is a world of interest in the story of how the observance of the martyrdom of an early Christian and the ancient Roman lottery of love came to be associated in this celebration.

That story is told in an illustrated feature article by Elmo Scott Watson in this issue of The Reporter. Its title is "St. Valentine Day." Be sure to read it in this issue.

## GET IT DONE

- It isn't the job we intended to do
- Or the labor we've just begun.
- That puts us right on the balance sheet.
- It's the work we have really done.
- Our credit is built upon things we do.
- Our debt on things we shirk.
- The man who totals the biggest plus
- Is the man who completes his work.
- Good intentions do not pay our bills.
- It is not enough to plan.
- To which is the play of an office boy.
- To do is the work of a man.

Waverly Press, Baltimore

## TOWN AND COUNTY NEWS.

### HAPPENINGS OF LOCAL INTEREST FROM ALL PARTS.

Some legal talent is aiming to become attached to the prohibition enforcement crew.

The members of Group Six, Pennsylvania State Bankers' Association, met in Altoona Monday of next week.

Poster W. Frazier, of Spring Mills, publishes letters of administration on the estate of his deceased brother, William Frazier, who died recently at the Centre Hall hotel.

Mrs. Thomas S. Minny, of Lock Haven, well known in Lutheran Missionary circles, recently suffered a stroke of paralysis while visiting friends in Missouri.

The programs in the Richelieu theatre, during all of last week, attracted large and enthusiastic audiences. Centre Hall and adjoining sections contributed its share of patrons.

An item of interest to escape our chronicling in the Reporter was that concerning the arrival of a baby son at the home of Mr. and Mrs. Orville L. Horner, at Colyer, during the latter part of December. He has been named William Nathan Horner.

Last week Mrs. T. L. Moore accompanied her son, Rev. Frederic Moore, to Shippensburg where she spent the week-end with her daughter, Miss Miriam Moore, and later went to Lewisberry, York county, to be with her son for a week or more.

The Tyrone Times is arguing that merchants in that city are losing trade because they are not keeping open their places of business. Altoona, the Times says, will reap the benefit of the half-holidays observed by Tyrone merchants.

State Senator Frederick W. Culbertson, of Lewisston, formally announced his candidacy for renomination and reelection to the State Senate from the 31st Senatorial District, comprising Juniata, Mifflin, Perry and Cumberland counties. Senator Culbertson is completing his second term in office.

George Whippo, after a visit of several weeks with his mother, Mrs. Willbur Bland, at Centre Hall, left for New York City in that city. He was a World War veteran and while on board of ship was very seriously injured, but has since recovered almost completely.

This advice given by a Des Moines, Iowa, newspaper, under the caption of "Small Town Stuff," ought to afford a pleasant duty: "If there is anybody in your place of business who calls a customer 'brother' or 'dearie,' lead the old forty-four to the muzzle and shoot that sorry person at sunrise. Don't put it off another day!"

A daughter was recently born in the Centre County hospital to Mr. and Mrs. W. S. Williams, of Bellefonte, former residents here. Mr. Williams is a contractor, his first work about here having been on the Gregg Township Vocational School building, and later the Centre Hall High school building and several private residences here.

The Penns Valley Ministerium held their monthly meeting at the Evangelical parsonage in Spring Mills. "Apostolic Christianity" was the subject of a well-prepared paper read by Rev. M. W. Dayton. A long and interesting discussion followed. The next meeting will be held at the Reformed parsonage in Centre Hall on February 27th, 1:30 P. M.

In making a remittance to the Reporter on subscription, February 2nd, Mrs. A. R. Burkholder, East Stroudsburg, stated their region had twelve inches of snow, but that the sun was shining in a cloudless sky. And from Berrysburg, John P. Stover, on same date, sent a line saying it is cold with plenty of snow in Dauphin county.

The Lewisburg borough council and school board are petitioning the court to compel the assessor to raise the valuation of properties in that borough. It appears the 1928 assessment is lower than that of 1927. The borough and school expenses are mounting, which necessitates either increased tax rate or a more fair valuation of property.

The vacant section in the Odd Fellows building, one time occupied as the post office under Charles H. Meyer during one of the Cleveland administrations, and later by the Bell Telephone Company exchange, and more recently by D. C. Mitterling, who conducted a pool room there, is being fitted up for living purposes and will become the home of Mr. Krape, the shoemaker, and wife.

Fire was discovered about midnight Saturday in the milk house at Fred Vonada's farm home, several miles east of Aaronsburg. A meat vessel filled with meat was in the milk house and it was destroyed with the building, the meat being saved with some slight damage. The flames spread to a hog pen near by but were extinguished before any serious damage was done. The origin of the fire is not known.

Among others from a distance who attended the funeral of L. Ray Morgan, who died at Homestead Park and was buried here Wednesday afternoon of last week, were his son, Louis B. Morgan, and wife, of Crafton, a Pittsburg suburb; Edward B. Thompson, East Liberty; Mrs. Barnes, wife of James Barnes, Sr., a Phillipsburg coal operator; Mrs. Carton, Lichtenthaler, of Clearfield; and Perrine Faulkner, of Dubois, an ice cream manufacturer. Mrs. Barnes, Mrs. Lichtenthaler and Mr. Faulkner are children of the late Corlis Faulkner and cousins of the deceased. Mrs. Charles Kuhn, also a relative of Boalsburg, was also here. The Woodmen Lodge and I. O. O. F., sede, of State College, were represented by a number of members, some of whom acted as pallbearers.
