Those footprints were made not less than ten million years ago when the hard rock upon which the record has been kept was soft and yielding sand.

Almost at the same time another scientist on the other side of the country was looking into the largest reflecting telescope that science has ever known and peering millions of miles farther inte space than human eye had ever before penetrated.

For the first time new worlds were visible, new solar systems were looked upon.

Light which had been traveling for years at the stupendous rate of 186,-330 miles per second flashed upou the observer's retina and told him its story of a world new to human knowledge.

Wife and Husband Equals

a couple of children she is doing fully as much toward making the partner ship a success as her husband. The husband who does not believe

this should take care of a small house for a day or two. At the end of that time he will probably be glad to resume his loafing at the office.

Housekeeping is one of the most wearing forms of labor that can be found. And caring for small children is not exactly a vacation, either. Let us admit that the average hard

working wife keeps up her end of the partnership. Why, then, should she not be treated as an equal? Why should she have to come to her

husband and beg for money to buy a new dress? Does he beg her to cook his supper for him?

It seems to me that the only satisfactory answer to this problem is the family budget. Expenses should be tabulated and provision made for them.

A certain amount of money should be allotted to rent, another amount to food another amount to clothing

. . . .

Some money, of course, should go into

T IS embarrassing for a wife to be | taking care of a house or looking after | hered to. It makes little difference then who has charge of the funds. If the wife has a head for figures she chould be given the task of administering the budget. If the husband is the better accountant he will prohably prefer to handle the finances. Under such a system both husband

and wife will have a certain amount of money to spend. Then if the husband wants a new golf-suit he will have to buy it on his allowance. If the wife desires a new hat she will have to fit it into her clothes money. But she will have a definite, regular sum each week on which she can count. And she can plan her ex-

FOLD YOUR BILLS LENGTHWISE

(Copyright.)

By H. IRVING KING THERE is a superstition wide-A spread through the country that in folding your money you should fold the bills lengthwise if you would prosper financially. If you fold them short across you will always be "hard up." The basis of this superstition is very easy to come at. It is purely sympathetic magic-like producing like, what is associated in thought is associated in fact. When you fold the bills lengthways the money remains at its greatest length-literally the "long green," not curtalled nor stunted. If you fold the bills across you diminish them in length-apparently cut them in two, curtail them. Folded in one way they represent money extending and folded in the other money cut off. There you have clearly the association of ideas and the associa-

No mother in this enlightened age would give her baby something she did not know was perfectly harmless, especially when a few drops of plain Castoria will right a baby's stomach and end almost any little ill. Fretfulness and fever, too; it seems no time until everything is serene.

That's the beauty of Castoria; its gentle influence seems just what is needed. It does all that castor oil might accomplish, without shock to the system. Without the evil taste. It's delicious! Being purely vegetaable, you can give it as often as there's a sign of colic; constipation; diarrhea; or need to aid sound, natural sleep.

Just one warning: it is genuine Fletcher's Castoria that physicians recommend. Other preparations may be just as free from all doubtful drugs, but no child of this writer's is going to test them! Besides, the book on care and feeding of babies that comes with Fletcher's Castoria is worth its weight in gold.

obliged to ask her husband for money. Yet many husbands subject their wives to this humiliation every day.

Husband and wife are partners in life. Yet who ever heard of a business man making his partner ask for money to buy clothes or theater tickets?

"But the husband earns the money," some will say. "He is entitled to disburse it as he sees fit."

This argument may hold good in marringes where the wife does noth ing but look beautiful. But if she is

coughs, croup, hoarseness and similar aliments. Porter's Pain King is made of pure, wholesome ingredients, perfectly harm-less and amazingly effective. By merit alone it holds an honored place in hun-dreds of thousands of American homes the year 'round. Right now is a good time to read the circular wrapped around every bottle. Many familles who have this good old-time liniment in the house suffer need-lessly because they do not know all of its many uses. Porter's Pain King is more than a remedy for colds. It soothes aches and pains, soreness, swollen joints, tired muscles, lame back and rheumatic misery. It heals burns, scalds, cuts, chapped hand's, frost-bitten feet. Why not use it today? Rubber Walls the Latest

Rubber walls in office buildings to decrease vibrations, and streets and sidewalks paved with rubber, are among the recent uses chemists have found for the product, says Pepular Mechanics Magazine. They have also adapted the material to the making of interior decorations and for coating sllk and other fabrics so that scarcely a trace of the resilient substance can be detected. The rubber for use in buildings is in the form of blocks or slabs, which are built up vertically en the wall face.
