EXPECT MUSCLE SHOALS QUESTION SETTLED SOON

Farm Bureau Expects Congress To Accept Cyanamid Company Offer.

Washington, D. C. — "We expect the Muscle Shoals question to be settled, and settled right, during the coming session of congress," says Chester H. Gray, legislative representative of the American Farm Bureau Federation.

"The situation has reduced itself to one in-escapable conclusion which is becoming perfectly plain to all. Muscle Shoals must be used for the purposes for which the money was appropriated and spent; namely, for the production of explosives in time of war and fertilizers in time of peace. The present huge nitrate plant is valuable and thoroughly usable and it is mere non-

**They Challenge
Comparison with
the Proudest**

Dodge Brothers magnificent Seniors have already achieved a unique and enviable distinction.

By delivering a quality of power unknown to their price class, they are no longer thought of in their price class, but challenge constant comparison with the proudest names in motordom.

Records of Senior brilliance are daily pouring in from all parts of America, and invariably the trend of owner enthusiasm runs the same —

"No car at any price can surpass Senior performance" . . . "I have owned several cars that cost more, but have never so thoroughly enjoyed driving" . . . "I should like to broadcast my impression of your new Senior. It is splendid!"

Once take the Senior wheel and you will understand why business men, unsolicited, are writing letters of this character to Dodge Brothers.

sense and camouflage to talk of scraping it and making nitrates by some other process.

"Farmers' friends in congress now see that they could not secure adequate government operation of these plants, even if they desired it. They haven't the votes. These facts leave but one alternative. If a private company experienced in fertilizer production could be induced to lease and operate the Muscle Shoals properties on a basis that would guarantee cheap fertilizer production and yet pay the Government a reasonable return on its investment—that would be generally recognized as an ideal solution.

"With exactly this kind of offer worked out and embodied in a bill to be introduced by Congressman Martin B. Madden, of Illinois, and with President Coolidge urging early settlement of this question, farmers and many congressional leaders feel that there is no adequate excuse for much more delay on the part of congress in accepting the offer of the American Cyanamid Company as set forth in the Madden bill."
