CONTRIBUTIONS TO HOSPITAL ESTIMATED AT \$8,000.00

Ambulance Fund Nearing \$2200 Goal—County Makes Its First Payment of \$500 On Its \$1000 Contribution—Centre Hall Donated \$250.00.

The drive for membership and contributions to the Centre County Hospital is closed and nearly all districts have turned in their funds through the committees. It is estimated the total will sum up to \$8,000. This does not include the \$1000 donated from the county funds by the commissioners. With the exception of a few districts the contributions reported were in excess of that of a year ago, and a number, among them Centre Hall, turned over three or four times as much.

The ambulance fund on Tuesday evening had reached \$1800, and it is certain the remaining \$400 will be taken care of by some good friends of the institution.

The hospital management received a check for \$500 from the county treasurer a few days ago. This represents one-half of the contribution of \$1000 made by the county commissioners from public funds.

Business men and firms in Bellefonte were a strong factor in boosting the total from that town to from \$3000 to \$4000.

Centre Hall's share in the total fund is \$380. The committee here contributed \$100, and of this amount \$100 was turned over to the ambulance fund. The chairman of the committee came across handsomely with \$50.00.

The sums contributed by individuals here ranged from that named above and \$1.00, the intermediates being \$25.00, \$20.00, \$15.00, \$10.00, \$5.00 and \$3.00.

In this connection it is proper to say that every woman who made a contribution of one dollar or more to this general fund automatically becomes a member of the Woman's Auxiliary of the Centre County Hospital. Fifty cents for each member is transferred to the general treasury of this organization for a working fund. This plan will stimulate local organizations in all portions of the county.

A Carcass that is trouble-proof
A building is no stronger than its foundation. The carcass or body is the foundation of a tire.
SUPERTWIST Cord Carcass explains the astonishing ability of Goodyear's All-Weather Balloon to absorb punishment.
SUPERTWIST S-T-R-E-T-C-H-E-S! It is just as strong as old style cords. But it stretches farther before it breaks—stretches and recovers like a rubber band. Blows that would break a carcass composed of less flexible cord do not affect SUPERTWIST.
And no other tire has SUPERTWIST. It is patented—an exclusive Goodyear achievement.
Here is the culmination of Goodyear's research for more than 25 years—a trouble-proof carcass. Stop in and let us show you a real balloon tire. It costs no more.
