FARM CALENDAR.

Timely Reminders from The Pennsylvania State College.

ATTEND FARMERS' DAY—June 15 is Farmers' Field Day at the Penn'a State College. For those who arrive early a program of entertainment will be offered on Thursday evening, June 14. Plans call for a full day of exhibits, demonstrations, judging, and recreation on Friday. A special program for farm women has been provided.

FERTILIZE STRAWBERRIES—Newly set strawberry plants need proper fertilization as soon as they are firmly established in order to develop into efficient factories for the manufacture of the 1929 short-season supply. Applications of 150 to 200 pounds of nitrate of soda and 400 to 500 pounds of superphosphate should give good results in securing increased growth and greater fruitfulness.

THIN FOR SAVINGS—Thinning will increase the proportion of fancy and high quality tree fruits and will reduce the cost of harvesting, grading and packing.

REPAIR THE BINDER—Spare time used in overhauling the grain binder before harvest is well spent. A few minutes in repair work now may save both time and money when the grain

is ripe. PREVENT SPREADING—If there is quack grass in your fields cut it before it goes to seed or it will infect new areas on the farm.

HEAR RADIO TALKS—Talks on "Dairy Herd Efficiency" and "Pennsylvania's Greatest Soil Robber" will be broadcast from the State College station, WPCS, Tuesday, June 19, at 7 o'clock.

A STATEMENT RELATING TO THE FUTURE OF THE CHRYSLER CORPORATION and DODGE BROTHERS, INC.

The widespread public interest in recent events affecting the Chrysler Corporation and Dodge Brothers, Inc., deserves an authentic and official statement and an assurance regarding the future of these two corporations.

Subject to the approval of stockholders, Dodge Brothers, Inc., will be acquired by the Chrysler Corporation, the plan of amalgamation having been recommended by their respective boards of directors.

Each of these great institutions will retain its identity, and will continue, as heretofore, to produce and market its own product in accordance with the high and progressive standards from which motor car buyers the world over have previously benefited.

Each will benefit from the consummation of a plan which unites such tremendous resources in material, manufacturing facilities, financial power and manufacturing genius.

Dodge Brothers will continue to be Dodge Brothers, and Chrysler will be Chrysler. Their products will be separate and distinct and will be continued in production without interruption. Their sales organizations will be unrelated except as they shall mutually share in the advantages of the consolidation.

Both public and dealers may look forward to the greater benefits which the consolidation of such tremendous resources will produce—and the men identified with these businesses may be assured of a stable and definite future, inspired by the progressiveness which has been responsible for this uniting of two great companies.
