Putting complements together there is more of one color and that is the duller, and in putting colors together which are side by side we form neighboring harmony. Same color but different shades is similar harmony. Light colors as yellow and red are warm colors. Blue, purple and green are cool colors.

Mr. Blaney gave us a talk on Extension work and told us how the boys 4H Clubs were organized and how Extension representatives obtained their money. The money is appropriated by the Federal and State Government fund paid in taxes. In each county is a committee known as the Agricultural Extension Association, which makes arrangements to better their community and they work out local projects.

At 12 we had dinner. From 1 to 2 we had rest period and from 2 to 3 recreation which consisted of swimming. From 3:30 to 5:30 we were given a talk by Miss Hutchinson on Health. There are five points of health: first, stand tall; second, regular exercise; third, sleep and rest; fourth, plenty of fresh air, sunlight, water and food; fifth, cleanliness. At 6 we had supper.

In the evening from 7 to 9 the whites held campfire imitation. Mrs. Vonada was taken into the club. We then had taps and the lights out at 9:15.

Wednesday morning we arose at 7, washed, brushed our teeth and hurried to sitting up exercises at 7:30. After breakfast, the breakfast group did the dishes and the house cleaning group their cleaning up. Later we were given instructions from Miss Cross, the Centre County Public Health Nurse, on how to treat a fractured bone. We should have three splints and bandage tightly. For a cut artery to tie something real tight between the wound and the heart for 30 minutes then open for blood circulation and tie again.

We had dinner at 12, then rest hour, after which we had swimming. In class Miss Reynolds gave a talk on personal hygiene. Around 6:00 we had supper. From 7 to 9 we had a masquerade, the "Christmas tree" being the winner. Each person dressed up and ran around the camp fire and as her name was guessed, if they were right, they had to remove the mask. At 9 we had taps and 9:15 lights were out.

Thursday morning we arose at the usual hour, washed, at 7:30 had our usual setting up exercises, and at 8 had breakfast. In class Thursday morning Miss Hutchinson gave a few questions for discussion as: How could we better our club; a list of qualifications of young people in order to be leaders in a 4H Club. We must be respected in our community, be responsible, be honest and be friendly. What type of 4H service is most worthy? One that is cheerful, honest and helpful to the others.

At 12 we had dinner, then rest period and then swimming. In class we had craft and were taught how to make parchment lamp shades. We took our paper, cut it in half lengthwise, measured every half inch and folded so as to make pleats, then the two pieces were fastened together.

Thursday evening we had a picnic and marshmallow toast. We were then given a talk by Grace Snook on National Camp. We had our campfires lighted from the candle from Washington, then taps and lights were out at 9:15.

Friday morning we arose at 7:00, washed, brushed our teeth; 7:30 setting up exercises, and 8, breakfast. After breakfast every one helped to work. The house cleaning group tore up the cots and we packed and cleaned up the cabins. At 12 we had our dinner and all the dishes were then packed. Around 1:30 we left for home. It was a jolly bunch but yet a sad one, for our camping trip, which we all enjoyed so much, was over.

On our way home we sang all the songs we could think of. At Aaronsburg Mrs. Pullington treated us to ice cream cones. When I arrived at Bellefonte I was met by the home folks and was soon home.
