Through the united efforts of Game Wardens Thomas Mosler, Centre county, Gustin and Ross, of Clinton county, a clean-up was made of game violators who came from Mifflin and Clinton counties to practice in Centre. One of the violations was the killing of two deer in Little Sugar Valley on Saturday night.

The wardens cast their net a few days ago and early Tuesday morning closed it, finding in the meshes eight men—L. C. Emert, Ernest Emert, Rudolph Emert, of Mill Hall; W. K. McClellan, R. W. Brown, W. Ernest Emert and Rudolph Emert were sentenced to jail for 207 days; W. K. McClellan R. W. Brown, W. H. Peters, C. D. Confer, were each given a jail sentence of 102 days.

The six were taken to jail immediately after hearing on Tuesday morning.

He was popular as a banker and has a large circle of friends who will be attracted to him in his new line of work.

13,160 DOE LICENSES FOR CENTRE.

The State Game Commission allotted to Centre county 13,160 doe licenses. The allotment is based on the number of bucks killed in the county last year, the ratio being eight to one. Centre county has claimed the largest number of licenses of any county in the State. Clearfield comes close to it with 12,928.

Inasmuch as the application blanks and license tags for the special doe licenses will not be available for several weeks, the State Game Commission on Saturday announced application for the permits may be made to the county treasurers on plain paper providing the information required on the regular application is given. The game commission expects a "run" on the special licenses and in this connection it is known that licenses will be issued in the order in which the applications are received.

In some counties, including Centre, the county treasurers were questioning whether or not the applications for these licenses made in the manner indicated above could be complied with. County Treasurer Smith received an application for a block of one hundred licenses, the proper information accompanying it from one person in a county in the western part of the State. This decision of the commission will permit him to issue them, and others in the rotation to applications when received.

Under the doe exterminating rule of the Game Commission, it appears a hunter is not limited as to the number of licenses he may obtain for himself. He may obtain a license for each of the fifty-four counties open, but is restricted to killing but one deer.

She is on her annual vacation from U. S. hospital work in which service she enlisted during the World War.

At last—the traffic light. It was installed on the diamond on Friday and put into service at once. It is a standard light, consequently a familiar one to the traveler by auto. On the main thoroughfare green in on approximately 35 seconds and the red ten seconds less. This gives the cross street the reverse. By actual count on Sunday for a period of time the traffic on the main thoroughfare was ten to one on the cross street. This ought to suggest a change in the ratio of the red and green exposure.
