CENTRE HALL, PA., THURSDAY, OCTOBER 11, 1928

NO. 40

Community Day at Spring Mills Friday, October 12--Big Program

TWO POULTRY JUDGING CONTESTS--GENERAL MEETING--ATHLETICS--CHICKEN SUPPER--ONE-ACT PLAY, "CABBAGES," ARE A FEW OF THE FEATURES ON THE PROGRAM.

An attractive program has been arranged for Spring Mills Community Day, held under the direction of the Gregg Township Vocational School. Several new features have been added to the program this year which are of interest.

The exhibits will be on display in the Vocational building and will be open to the public at 10 A. M. At the same time the Children's Health program will begin in the Grange hall. This program is printed below, and consists of songs, playlets and recitations pertaining to health. The grade pupils have prepared a most interesting and entertaining program under the direction of the Home Economics Department of the school with the aid of the senior Vocational girls. Parents and children are especially invited to come to this program.

Men and Women Will Judge Poultry.

Two poultry judging contests will take place at 2:30 in the afternoon. Prof. Ennandel of the Penna. State College will act as judge for these contests. A loving cup will be awarded to the winner in each of the poultry contests as well as prizes to the second, third, fourth and fifth place winners. Two classes of birds will be judged.

The Spring Mills band will render a concert in front of the Vocational building beginning at 1:00 P. M. They will also be present at the afternoon meeting held in the Grange hall at 1:30 o'clock. Prof. H. C. Nisley, assistant director of Agricultural Extension, Penna. State College, will address the group on "Agriculture Possibilities."

One-Act Play, "Cabbages."

The evening meeting in the Grange hall at 8 o'clock, to which there will be an admission charge of 15 cents for children and 20 cents for adults, will be featured by a one-act play entitled, "Cabbages," which is played by G. T. V. S. pupils. Prizes will be awarded at the close of this meeting.

Games, races and athletic contests have been scheduled and are given in the program. The Millheim girls' dodge ball team will play the G. T. V. S. girls at 11:30 A. M. and the boys' soccer teams from the above named schools will play at 3:30 P. M.

The day promises to be a full one, and all are invited to come and spend the entire day at Spring Mills with your friends. A noon day lunch may be secured at the booth on the grounds. The chicken supper for 50 cents, served from 5 to 7 P. M., will be one of the worth while events of the program.

Morning Program.

10:00 A. M.--Exhibits open at the Gregg Township Vocational Building.
10:00 A. M.--Children's Health program, Grange hall.
Songs--Exercises.
(a) A Playlet--"The House That Tom Built."
(b) A Playlet--"Mother Goose's Health Children."
(c) Song--"Soldiers for Health."
(d) Recitations--1st. Poor Dolly; 2nd. A Misfortune; 3rd. The Family Doctor; 4th. His Very Own.

Cow and Colt Sale.

The sale of twenty-four cows and thirty-six three month old colts was a brisk affair at the T. E. Jodon sales stables, Pleasant Gap, on Monday. The crowd was not so large, but they appeared to be interested, giving auctioneer E. M. Smith quick signals for a higher bid.

The top cow sold for \$130, and the low \$120.50. The average for the colts was \$47, the top being in the seventies. A similar sale with mules added, will be held about a month, Mr. Jodon announced.

The elimination of the afternoon trains is burdening the train crew making its round trip from Sunbury to Bellefonte. The handling of mail, express and baggage cannot be done in the time allowed on the schedule, resulting in an habitually "late train."

The Buffalo Valley Inn, well known to many automobile travelers through Union county, was purchased by the Millburg Order of Odd Fellows for \$14,000. Improvements will be made to the extent of about \$5,000. There will be a resident janitor, and the place always open to members of the order.

There will be no school next week, during which time the teachers themselves will imbibe a little learning at the annual teachers' institute.

Lowell Hettlinger, who for more than a year was employed in the milk plant of the Sheffield Farms Company, here, will shortly move his family to Lewisburg to where he was recently transferred by his employers and will be engaged in the same class of work as here.

The Huntingdon Monitor makes this interesting comment: Mayor George W. Fisher, Republican County Chairman, was called to State Republican headquarters this week and asked if it were true that hundreds of Republicans in Huntingdon county intended to vote for Smith in November. Our Mayor replied, it is said, that our people are out of work, that the farmers are not getting an adequate price for their crops, and regard the prosperity cry as a joke. So there you are.

(e) An Action Song--Did You Ever Know a Lassie?
(f) A Playlet: David's Dream.
(g) Song--A Healthy Mother Goose
(h) Dialogue--The House That Health Built.
(i) A Playlet--Mother Goose's Health Children.
(j) Song--Carry Me Back to Happy Dreamland.
(k) Health Talk by Miss Ethel J. Jeffries, Nutrition Specialist, Home Economics Extension Service, Pa. State College.
(l) Movies--1. How You See (one reel); 2. Jimmie's Doggone Luck (two reels).

11:00 A. M.--Poultry Judging by Prof. H. C. Nisley, Poultry Husbandry Department, Pa. State College.
11:30 A. M.--Dodge Ball--Vocational School grounds. Millheim High School Girls vs. G. T. V. S. Girls.
12:00 M.--Lunch at booth on the grounds--Sandwiches, coffee, ice cream, etc.

Afternoon Program.

1:00-1:30 P. M.--Band concert by the Spring Mills band on Vocational School grounds.
1:30-2:30 P. M.--Afternoon meeting, Grange hall.

(1) Selection by Spring Mills band.
(2) Address--"Agriculture Possibilities," by Prof. H. C. Nisley, Asst. Director Agr. Ext., State College.
(3) Announcements.
(4) Selection by band.
1:30-3:00 P. M.--Games and races for Grades and Rural Schools; athletic field.

3:30 P. M.--Men's Poultry Judging Contest; Vocational School grounds.
3:30 P. M.--Women's Poultry Judging Contest; Vocational School grounds.
Both contests will be conducted by Prof. Knaedel. Five prizes are offered to the winners in each contest.

3:00-3:30 P. M.--Games and Races for High School pupils and adults.
3:30 P. M.--High School Soccer Game; athletic field. Millheim High vs. G. T. V. S.
5:00-7:00 P. M.--Chicken Supper; Vocational building; 50c per plate.

Evening Program.

8:00 P. M.--Grange hall, admission 20c and 15c.
(1) Selection by Spring Mills band.
(2) One-act Play--"Cabbages," played by G. T. V. S. pupils.
(3) Selection by band.
(4) Awarding of prizes.

Athletic Program.

1. 11:30 A. M.--Dodge Ball--Girls' teams, Millheim High School vs. G. T. V. S.
2. 1:30-3:00 P. M.--Games and races for the Grade and Rural School pupils.
1--Relays, running, boys and girls;
2--Dodge Ball, teams will be from those present.
3--50-yard dash for boys; 4--25-yard dash for girls; 5--3-legged race;
6--Bag race; 7--Tug of War, teams selected from those present.

3. 3:00-3:30 P. M.--Contest for High School pupils and adults: 1--3-legged race; 2--50-yard dash for boys; 3--25-yard dash for girls; 4--Nail Driving contest for women; 5--Peanut contest, men.
4. 3:30--High School Soccer Game; athletic field; Millheim High School vs. G. T. V. S.

Prizes will be awarded to the winner in each contest, to be received immediately after the contest.

Crater Added to Potato Digger.

Digging potatoes with a modern machine which again casts the spuds in a row on the ground, is not particularly a new thing in potato fields hereabouts, but an ingenious device whereby the potatoes are crated and carried by several workmen to pick out stones, weeds and grasses so that only tubers reach the craters, was constructed by Harry H. Decker, on the Colyer farm east of Old Fort, and it works to perfection. The elevator on the modern digger is run from a Ford gas engine mounted on the top. The crating feature is entirely home made. The wheels were once a part of a hay-tender, the cog wheel attached to one of the carrying wheels operates a wide belt or canvas onto which the digger delivers the tubers, and as it does so workmen standing on a running board pick them up and place them into a lane through which they are carried to the craters. When a crate is filled, a workman steps from the running board and sets it from the machine, placing another crate in its stead. Room to the rear for a dozen or more empty crates is provided. The power for operating the outfit other than the elevator on the digger is furnished by a tractor. Rows of eighty or more rods in length were lifted without a stop for any purpose.

Stork Visits Potters Mills.

A son was born to Mr. and Mrs. Thomas Shaffer, on the Royer farm, near Potters Mills, and a daughter to Mr. and Mrs. Coleman Wingard, at Potters Mills, within the past week.

Installation of I. O. O. F. Officers.

Saturday evening at 7:30 o'clock the newly elected officers of the Centre Hall lodge of Odd Fellows will be installed by District Deputy Grand Master H. M. Hosterman, of Boalsburg. The elective officers are as follows: Noble Grand, Charles S. Smith, Vice Grand, John H. Burkholder, secretary, T. L. Moore; treasurer, E.W. Crawford.

Mr. and Mrs. Charles Friel, of Philadelphia, will shortly leave for the West India Islands, where Mr. Friel will be engaged on a large coffee ranch. Mrs. Friel, who has acquaintances among the Reporter's readers, is a step-daughter of Mrs. Virginia (Geiss) Miller, Philadelphia.

340.9 BUSHELS POTATOES FROM AN ACRE ON CENTRE CO. FARM

Dr. Nixon Pulls the Trick on the Old Balley Farm near Pine Grove Mills. Potatoes Planted at Rate of 20 Bushels Per Acre.

The first 400 bushel potato club member from Centre county for 1928 is Dr. E. L. Nixon, of State College. According to R. C. Blaney, County Agent, Dr. Nixon's big acre yielded 440.9 bushels per acre.

The potato wizard, as Dr. Nixon is popularly known, decided to try some practical potato growing. He leased what is known as the old Balley farm near Pine Grove Mills. This farm is not above the average in fertility in this section and the results were not expected to be so good as the first year. There were twelve acres in potatoes on the farm. In checking the acre it was carefully measured and four acre rows across the field were dug and weighed. The variety is Russettes 3rds grown in Michigan last year. A crop of mixed hay was taken off of the field in 1927, an application of five tons of manure per acre was applied in the spring. It was plowed in the spring approximately seven inches deep and 1100 lbs. per acre of 4-12-5 fertilizer was applied in the row. The potatoes were planted at the rate of 20 bushels per acre, in rows approximately 29 inches apart and eight inches in the row. The field was cultivated two times and the weeder used nine times. One ton of bluestone was used in spraying the twelve acres. There were thirteen applications made with 400 pounds pressure at the rate of 150 gallons per acre for each application. This method of spraying was sufficient to control blight and kept the vines alive until October first.

BETTER SIRE TRAIN.

The New York Central Railroad, in cooperation with the Pennsylvania Railroad is conducting a better sire demonstration train through Bellefonte on November 2nd. According to John S. Dale, chairman of the better sire committee of the Agricultural Extension Association, the train will be placed on a siding near the Pennsylvania station in Bellefonte.

Educational talks by prominent dairymen will be made during the meeting at the train from 2:00 to 5:30. The train will consist of twelve cars including the better sire exhibits by the U. S. Department of Agriculture, Penna. Department of Agriculture and the Pa. State College.

The object of this train is to stimulate the use of purebred sires in improving dairy herds of Centre county and other counties through which the train passes. The exhibits by the U. S. sires on the train representing the main dairy breeds. A farmer who has used a grade sire on his herd can bring him in to the train where he can purchase a purebred bull and he will be allowed a beef price for his bull according to the Buffalo Evening News. The amount of money received for his grade bull will be applied on the purchase of the purebred and the grade bull will be loaded on the train and taken on through to the market. Those who anticipate exchange of bulls in this manner should get in touch with either the chairman of the committee or the other two members of the committee, to wit: W. C. Smetzer, Bellefonte, and S. G. Walker, Spring Mills.

LOCAL AND PERSONAL

A killing frost Monday morning, with mercury touching 29 degrees.

Hon. Harry B. Scott was elected president of the Schenck National Bank, Philadelphia, to succeed the late Charles E. Maxwell.

Mr. and Mrs. J. S. Getchell and their youngest son, of Unionville, are spending a few days with Mrs. Getchell's parents, Mr. and Mrs. Cyrus Brungart.

The local W. C. T. U. will meet on Saturday evening at the home of Mrs. Harvey McK. Members are requested to bring their October Bulletin with them.

The borough council has passed an ordinance relating to the observance of the traffic light on the diamond. The ordinance appears in the Reporter this week.

Burhan Fetterolf, for several years tenant on the John A. Heckman farm west of town, will move to his father's farm, east of town along the same road. William F. Fetterolf, the father, will make sale of his farm stock and implements.

Miss Elsie Geiss, of Philadelphia, Mr. and Mrs. Geo. S. of Bellefonte, and Mr. and Mrs. Rufus Strohm, of Scranton, were entertained at a dinner on Sunday evening by Mrs. Margaret Strohm, mother of Mr. Strohm named as a guest.

Allen Andrews, brother of Charles Andrews, tenant on the Durst farm at Earlstown, it is said, will move onto the Manna Kline farm, along the State road this side of Bellefonte. The farm is now occupied by Stewart Muser. Mr. Andrews is at present living on one of the Kepler farms near Pine Grove Mills.

H. W. Frantz, Centre county's jury commissioner, and a stranger, met rather unceremoniously on the highway beyond the railroad crossing at the station on Saturday morning. Mr. Frantz was coming out from the mill, and blinded by the sun, failed to see a car coming from Old Fort until they met. The damage was light.

Among the Reporter's business callers on Saturday was P. H. Ennist, of Potters Mills, who is employed at the Logan steel works at Burnham. He is a puddler and is highly skilled in his line of work, his knowledge coming not alone from long practice, but through study of the various processes through iron passes before it reaches his hands. The Logan and Standard Works are not giving anything like regular employment at the present time. At the Logan plant work on orders only is done.

DAIRYMEN'S LEAGUE BUILDING PLANT AT SPRING MILLS

\$30,000 Investment Well Under Way--25,000 to 30,000 Pounds Daily Capacity--Construction Work and Supervision Almost Exclusively By Trained Men.

A \$30,000 building project is well under way at Spring Mills, and on the Gramley creamery site is rising a concrete structure in general conforming to the mill plants erected in many parts of New York and Pennsylvania by the Dairymen's League Co-operative Association.

It might be well to state here that while there is an organization of very similar name, whose members are milk producers at Spring Mills, that "local" is not the sponsors of this great improvement, but its members are now and no doubt will continue to be patrons of the Dairymen's League Co-operative Association, who are the builders.

Fronting along a siding running parallel with the railroad, the structure will have a length of 67 feet, 4 inches, and an average width of 35 feet. The foundation walls, all the floors and platforms will be of concrete, reinforced where necessary. The walls extending above ground to varying heights governed by necessity, will also be of reinforced concrete. Above this, the structure will be frame.

The roof will be quarter pitch, covered with 1x16 inch asbestos shingles laid by French method. Two large skylights will admit light, and ventilators, like the sky-lights extending above the comb of the roof, provide ventilation.

The plant will be equipped with the latest appliances for cooling and handling milk products of the York Ice Machinery Corporation. For power a 50-horse power boiler will be installed. Milk from the customer will be received on a concrete shipping platform extending almost the entire length of the building. From the cans milk will be pumped into the weighing vat, from there by gravity it flows to the holding vat, and then pumped through a system into a storage vat. This latter vat is a porcelain-lined tank of three thousand gallon capacity. Its construction is similar to the family thermos bottle.

For cleaning the farmers' cans a circular can washer will be installed. Since business was being done at temporary plant for some time, it was necessary to move all of the equipment and raise some buildings. This work began a few weeks ago, but actual construction was commenced much later. It is the aim of the concern to have the plant finished in about two months. With the exception of four or five all of the twenty men now at work are from New York and are skilled and acquainted in their particular line of work. Most of them came to the operations from Dewart, where a close duplicate of the plant being built at Spring Mills has just been completed.

The stone being used for concreting came from the Spyker quarries at Centre Hall. The first order was for one hundred and fifty tons.

Frank Stryher is superintendent of the construction work; D. W. Miles, superintendent of the plant; George A. Smith, time-keeper. Mr. Miles is a resident of Dewart, and the other two named and nearly all of the workmen not from the local field, came from Burke, N. Y.

This all indicates that Penna. Valley is fast adopting dairying. Near this plant is one being operated by the Sheffield Farms Company. A Coburn and at Centre Hall the last year a company operates modern plants. There is also a probability that shipping plants will be erected at Bellefonte and Mill Hill.

Milk producers who interest themselves in the movements of the large concerns who handle large quantities of milk will be interested to know that the Borden Company, one of the world's largest dairy concerns, has bought the Thompson's Malted Milk Company, of Wisconsin, capitalized at \$1,375,000. Borden Company has also acquired the Kennedy Dairy Company, of Madison, Wis., and the Clover Leaf Milk Company, of Chicago.

C. H. and McClure Play Tennis.

Centre Hall and McClure (Snyder county) tennis staged several matches on the local high school athletic field, Saturday afternoon, the meet being a return for that of a week previous at McClure. The result of the various matches follows:

Men's singles: No. 1--Knarr for C. H. won over Kahley for McC., in two straight sets, 6-3 and 6-4. No. 2--Colyer for C. H. won over Whiffen for McC., in 2 straight sets, 6-2 and 6-4.

Men's doubles: No. 1--Colyer and Knarr, for C. H. won over Kahley and Baker for McC., in two straight sets, 6-2 and 6-3. No. 2--Pheasant and Hoknbok for McC., won over Bradford and Marts for C. H., in two straight sets, 6-2 and 6-2.

Mixed doubles: Pheasant and Whiffen for McC. won over Colyer and Runkle for C. H., in two straight sets, 6-0 and 6-2.

Girls' doubles: Whiffen and Baker for McC., won over Reber, Bradford and Brungart for C. H., in two straight sets, 7-5 and 6-2.

The tax payers in rural sections were long led to believe that money expended by the State came from sources that in no way increased their taxes or living expenses. They know differently now, and that is why the great majority of them will vote "no" on the bond issue, with the exception perhaps of the amendment providing \$3,000,000 for building purposes at Pennsylvania State College.

RABBIT SEASONS BEGINS FIRST DAY NOVEMBER

Due to the action of the Board of Game Commissioners in changing the rabbit season this year to October 15 and then changing it back again to November 1, there has been a good deal of misunderstanding as to the actual dates and regulations of the rabbit season this year.

The season will begin November 1 and will continue until the end of the month with hunting during the latter three days of the week--Thursday, Friday and Saturday. The season will continue therefrom to December 15 with hunting permissible six days of the week.

Dr. White Opens His Office.

Dr. H. R. White, Centre Hall's new dental surgeon, opened his office in the B. G. Grove home, last week, and is now giving his full time to his profession. Dr. White has arranged the following schedule of office hours: From 9 a. m. to 12 noon; from 1 p. m. to 5 p. m.; and from 7 p. m. to 9 p. m., which would indicate that the doctor is going to put in full time.

The Reporter knows that Dr. White will fill a long-felt want in the community and feels that his services will prove most satisfactory.

Revival Meetings at Linden Hall.

The people of Linden Hall are beginning revival meetings next Sunday night, October 14th, in the Evangelical church. The speakers for the week are as follows:

Monday evening, Rev. A. C. Metzger, Pleasant Gap.
Tuesday and Wednesday evenings, Rev. J. R. Barto, of Hughesville.
Thursday evening, A. C. Metzger.
Friday evening, the pastor, Miss Sarah P. Ercroft.
Everyone is invited.

Penn State Radio Program.

The program for the coming week at the Pennsylvania State College radio station, WPSC, 299.5 meters, is as follows:

Friday, October 12, 6:30 P. M.--Football mass meeting.
Saturday, October 13, 2:30 P. M.--Football, Penn State vs. Bucknell.
Sunday, October 14, 11:00 A. M.--Chapel service, Radio St. H. Goldenston, Ph. D., The Rodef Shalom congregation, Pittsburgh.
Tuesday, October 16, 6:30 P. M.--Orchestra; 7:00 P. M.--Agricultural program.
Wednesday, October 17, 6:30 P. M.--Orchestra; 7:00 P. M.--Talks by Dean Edward Steidle and J. O. Keller.

Pumper for Millheim.

The Millheim borough council is about to purchase a motorized equipment consisting of a 300-gallon pumper, two 4-gallon chemical tanks with 200 feet of chemical hose, two hand fire extinguishers, chemical ingredient containers, etc., mounted on an Oldsmobile chassis, with space provided for 1000 feet of regular fire hose. This is used equipment that was in service at East Vandergrift.

The purchase will largely depend on whether a demonstration of the equipment proves convincing.

\$1,000,000 for Needy Children.

John Jacob Raskob, chairman of the Democratic National Committee, set aside \$1,000,000 to perpetuate the memory of his son, William S. Raskob, who at twenty years was killed in an automobile accident. The corporation will be known as the "Bill" Raskob Foundation.

It was only twenty when he died," his father said, "but he had developed traits of character which made him very lovable. He had a very big heart. Ever since he was a child his heart responded to every appeal from those who were in need, and he gave to his utmost ability of giving."

"And so his mother and I, rather than to build a costly monument, decided to set aside \$1,000,000 for this foundation."

The articles of incorporation give the objects of the foundation as "the relief and assistance of poor orphans and other poor children, for their maintenance, their education and to help them get started in life and business."

Korman--Walker.

The Lock Haven correspondent to the Williamsport Sun says that Joseph Korman and Miss Elizabeth Walker, both of Rebersburg, were united in marriage at the parsonage of the St. John's Lutheran church at Lock Haven by the pastor, Dr. Curvin H. Stein. They will reside at Rebersburg.

Breon--Heckman.

At the Methodist parsonage at Lock Haven, Foster Breon, a son of Mr. and Mrs. W. P. Breon, of near Millheim, was married to Miss Birdie Heckman, daughter of Mr. and Mrs. John C. A. Heckman, of near Spring Mills. Rev. J. Merrill Williams, pastor of the Lock Haven M. E. church, was the officiating minister.

Both the bride and groom are highly esteemed and a host of friends will wish them much happiness and prosperity.

Following the ceremony the newlyweds motored to Renovo to visit relatives and returned home Sunday.

Alkens--Schroeder.

Announcements received here this week brought the news that James Phil Alkens, of State College, and Nellie Spahr Schroeder, of Philadelphia, were united in marriage in the City of Brothertown, Saturday a week. The ceremony being performed by the Rev. Dr. S. D. Bechtold, of that city.

A wedding dinner at the Ben Franklin hotel followed the ceremony, after which the newlyweds left on a honeymoon trip to Atlantic City and other eastern cities.

Mr. and Mrs. Alkens will be at home after November 1st at 524 South St., State College.

TOWN AND COUNTY NEWS

HAPPENINGS OF LOCAL INTEREST FROM ALL PARTS.

Bucknell and Penn State play at State College on Saturday. They have long been hot rivals.

The 4320 special doe licenses allotted to Huntingdon county have been exhausted and the demand was not filled.

Generous citizens, clubs, etc., have made a new ambulance possible for the Philadelphia State hospital. It is built on a late model Buick chassis.

Mr. and Mrs. F. M. Fisher spent the greater part of the past week with their son-in-law and daughter, Rev. and Mrs. E. Roy Corman, in Sunbury.

The Bloomsburg fair was attended by Messrs. R. M. Smith, Daniel Daup, Sr., D. W. Bradford and D. C. Mitterling. The attendance was said to have been very large, the exhibits fine and races excellent.

Mr. and Mrs. S. M. Campbell and John S. Meekley, of Millheim, on last Thursday, drove to State College to visit photographer W. W. Smith, an intimate friend of the Campbells, who is not in the best of health.

The Howard High school will hold its community fair October 22nd, in Hagerstown, October 24th, Port Matilda, October 25th. At Spring Mills today (Thursday) the Gregg township school has its big day of the year.

Booster's accessory store, Honan's Garage and Geary's barber shop were headquarters for fans who listened in on the World's Series for the baseball championship, and enjoyed Graham MacNamee's word picture over the radio of the games, play by play.

A. G. Woodward, Clearfield contractor, has been awarded a contract to remodel the Petriken Hall building in Bellefonte, into an apartment house. There will be six large apartments in the building when the work is completed.

Mrs. J. G. Eisenhauer was stricken with paralysis recently and has since been confined to her bed. Mrs. Ira Gramley was also stricken with the malady, having been found by a neighbor lying on the kitchen floor, where she had been lying from about 8 a. m. until 2 p. m.

A Singer electric sewing machine has been placed in the Centre Hall High school for the use of the club girls who have taken up sewing. All High school students, besides their regular studies, are engaged in some club work, having had their choice of manual training, dramatic art, sewing, or Boy Scout.

Friday morning Miss Helen Bartholomew drove her Naac car to Frankfort, Pa., taking with her her father, W. H. Bartholomew, Mrs. Susan Lutz and Miss Elizabeth Bartholomew. At Curwensville they picked up Mrs. Harry J. Kittleberger as a guest. At Frankfort the party will visit several families of Wilts, relatives of the deceased wife of Mr. Bartholomew.

The borough reservoir at present has a very meager supply of water, less probably than has been the case for a few years. There appears to be a hitch among the borough fathers with respect to handling the water supply situation. It appears the difficulty is to impress on some of them the dire necessity for action. This, at least, is the view of some of the members of the body.

Beginning of next month, Charles Richelieu, who since the opening of the theatre of that name, and he gave to his utmost ability of giving."

And so his mother and I, rather than to build a costly monument, decided to set aside \$1,000,000 for this foundation."

The articles of incorporation give the objects of the foundation as "the relief and assistance of poor orphans and other poor children, for their maintenance, their education and to help them get started in life and business."

The Lock Haven correspondent to the Williamsport Sun says that Joseph Korman and Miss Elizabeth Walker, both of Rebersburg, were united in marriage at the parsonage of the St. John's Lutheran church at Lock Haven by the pastor, Dr. Curvin H. Stein. They will reside at Rebersburg.
