John B. Yearick, a Porter township, Clinton county, road supervisor and farmer, is in a critical condition from an injury received in a fall from a road machine while in operation. His one leg was crushed and mangled from the ankle to the knee. He is 70 years of age.

DEATHS

GENTZEL.—Mrs. Jacob Gentzel died on Friday evening after a short illness. Interment was made on Tuesday at Heckman cemetery, services by Rev. Kieffel of the Evangelical church. Her age was 80 years, 1 month and 17 days.

The maiden name of the deceased was Miss Joanna Condo. Her husband is deceased. Mrs. Gentzel died at the Gentzel home in Penn township, west of Coburn, where her daughter, Mrs. Milton Vonada, also lived. The daughter named and a son, Harry Gentzel, of Milroy, are surviving children of the deceased. Two sisters also survive her.

MUSSER.—Mrs. Alice Sarah Musser died at the home of her daughter, Mrs. P. B. Breneman, at State College, after a three weeks' illness of gangrene.

Deceased was a daughter of the late Jonathan and Susanna (Strohm) Kreamer and was born in Penn township March 30, 1854, making her age 74 years, 6 months and 8 days. She was a descendant of one of the pioneer Penna Valley families, her great-grandfather being the first to occupy the farm house, where deceased was born in the early nineteenth century period of Penna Valley history. Her father will be remembered by older residents in the valley as a former proprietor of the National hotel in Millheim.

She was married to P. P. Musser in 1875, her husband having preceded her in death fourteen years ago. The union, however, was blessed with two children, who survive: Randall, of Denbo, Pa., and Maude, married to Prof. P. B. Breneman, of State College. Also surviving are one brother and three sisters: John H. Kreamer, of Harrisburg; Mrs. Mary A. Miller, of State College; Mrs. Cora Bowman, of Los Angeles, Calif.; and Mrs. Emma Frank, of Millheim.

The deceased lived in Millheim for many years, where interment was made.

HOMAN.—Park R. Homan, well known business man of State College, died as the result of heart trouble, as was briefly mentioned in these columns last week. He was a son of William and Margaret Homan and was born at Aaronsburg 43 years ago. As a young man he learned the carpenter trade and for a number of years worked as a carpenter at State College. During the past eight years he had been a member of the building supply firm of Homan and Mohrner.

In 1910 he married Miss Annie Stone, who survives with one daughter, Gretta. He also leaves his parents, living at State College, and these brothers and sisters: Mrs. George Glass, Occochee, Wis.; Mrs. Wade Strum, Cleveland, Ohio; Harry L., of State College; Bruce M., of Philadelphia; Mrs. Ray Weagley, of Hilldale, Mich.; and James M., of Pottstown. Burial was made in the Pine Hill cemetery.

KING.—Boyd A. King, of Salona, killed in the Lock Haven hospital of injuries suffered several weeks ago when the car he was driving crashed into an abutment of a bridge near his home. Surviving Mr. King are his wife, four sons and five daughters: Boyd, Jr., Russell, Simon, Elmer, Laura Belle, Laura Diana, Dorothy, Beatrice, and Irene. His father, Abraham King, of Salona and Millheim, and three brothers—Simon, of Millheim, Archie, of Aaronsburg, and Wallace, residence unknown. Interment was made in the Union cemetery, in Millheim.

Local Merchant Sells Store Stock.

W. A. Odenkirk sold his store goods to a party who, it is said, will close it out at the Odenkirk stand.

Harry Gross Has Fractured Pelvis

While assisting to adjust a door in the gable of the Mitterling sales stable prior to the cow sale on Monday evening, Harry Gross, Centre Hall's crack baseball pitcher, fell out the opening to the ground, a distance of about fourteen feet. Dr. Morrow was called and advised that he be taken to the Centre County Hospital for an X-ray examination. The new ambulance, under the care of Manager William Brown and nurses, came here Tuesday afternoon and took the injured man to the hospital. Wednesday morning a fracture of the hip was made and it revealed a fractured pelvis bone. He also suffered an injury to the arm.

GOVERNOR SMITH AND EDUCATION

A group of distinguished educators, headed by Professor John Dewey of Columbia University, said of Gov. Smith's record on public education: "His whole attitude on education has been one of foresight and progress. Whether it was the extension and strengthening of the system of special classes for exceptional children or supporting the program for continuation schools, and schools for vocational training or maintaining the standards of state training schools for teachers, he has always been ready to take his position with the most advanced thought on the subject."

He aided and developed by adequate appropriations public education.

Sponsored equal pay for equal work.

Developed Normal Schools for teachers' training, increasing enrollment from 1,800 in 1919 to 7,783 in 1927.

Increased appropriation for public education from \$8,000,000 to \$86,347,856.

THE MARKLE MILK STATION.

Imposing Structure of Concrete Blocks to House Pasteurizing Machinery— Cottage Cheese and Ice Cream Also to Be Manufactured—Top Floor Has Three Modern Apartments.

The structure to house a pasteurizing plant, as well as machinery for the manufacture of cottage cheese and ice cream is one of the imposing buildings in Pleasant Gap, and is being constructed by Ward A. Markle. Mr. Markle has been in the retail milk business for three years, following his father, Harry J. Markle, who served customers in Pleasant Gap and Bellefonte for almost a quarter of a century.

The Markle milk station is a concrete block structure of the dimensions of 40 by 70 feet, 20 stories in height, and is located on the State highway near the Spring Township High school. The first floor section to the north will be devoted to a modern pasteurizing machine, known as the Wizard. The parts coming in contact with milk are glass-lined. Milk will be heated to a temperature of 145 degrees and then cooled and bottled and yet retain its original flavor.

A heating vat for manufacturing cottage cheese will also be installed, and home-made ice cream is another product to be turned out.

At present Mr. Markle handles the milk from seven farms or from about one hundred cows. He expects to greatly increase his sales after the plant is completed and equipped about March 1st.

On the first floor to the south is a store room, 22x15 feet, which will be devoted to Mr. Markle to the sale of candies, ice cream, soft drinks, etc. The top floor is made into three apartments, access to the rear one being separate from the others. They will all be equipped with baths and gas for cooking. Heat will be furnished from a main plant on the first floor.

Red Cross Toxin-Anti-Toxin Clinic in Local High School.

The Red Cross will hold a Toxin-anti-toxin clinic in the High school at Centre Hall on Saturday, October 27, November 3 and 10, at 1:30 P. M. It is necessary to come three days to receive the full treatment. No child can be given the Toxin-anti-toxin unless he or she has a signed slip from a parent or guardian or is accompanied to the clinic by a parent or guardian. If no consent is available from the child's parents' name on a piece of paper and send it with the child. This treatment is free and any individual over six months of age who has not been immunized against diphtheria is urged to take advantage of this offer.

I hereby give my consent to have

Name of child

immunized against diphtheria.

Signature of parent.

TEACHERS' INSTITUTE IN SESSION

At Bellefonte, This Week—About 400 Teachers in Attendance—Dr. Martin Brumbaugh One of the Lecturers.

[Reported by C. Robert Neff.] The Centre County Teachers' Institute opened on Monday. The forenoon was devoted entirely to the experiment of teachers, of whom there are in the neighborhood of 400 in the county. In one group gives some idea of the size of the business of popular education in the United States.

Regular session began at 1:30 Monday afternoon, with county superintendent F. Glenn Rogers presiding. Mr. Yoder, who is well known to most of the teachers of this county, directed the music. It has always been Mr. Yoder's policy to introduce and teach as many new desirable songs as possible during institute week.

Mrs. Wilson, of the Southwestern State Teachers' College, spoke on "Democracy Through the Teaching of History." Mrs. Wilson would give history the second important rating of all subjects in the public schools.

Dr. Brumbaugh, a former Governor and now president of Juniata College, spoke on "Why the School." It is his opinion that the existence of a democratic State depends upon an efficient system of popular education.

Dr. Brumbaugh was called away from the Tuesday morning session of institute and his period was filled by Dr. Lose. Dr. Lose is well known to most of the people of Centre county. Despite his handicap of blindness, he takes an active interest in current affairs. Because of his wealth of experiential and fundamental knowledge, he speaks with authority on all matters of public school interest.

During the Tuesday afternoon session both Mrs. Wilson and Dr. Brumbaugh took occasion to argue the fundamental soundness of the proposition of a county library. In their opinion this library would be an investment of great worth to the county. In this time of libraries for every school it is very probable that the traveling county library would save to the individual school districts a sum equal to the cost of the entire county library. In other words, the county library would provide better service at no greater cost than the private school library that it coming to be a necessity.

Dr. Brumbaugh spoke of the value of a cultural civilization and the debt that our civilization owes to the ancient and medieval peoples. Although every person knows that our civilization is an accumulation of the knowledge of the ages, a graphic representation such as was given by Dr. Brumbaugh brings to everybody a newer and truer perspective.

A rather sad commentary on Centre county was the demonstrated poor given by Dr. Peters that the rural schools of this county are two grades behind the average for the United States, both in mental age and achievement. The reasons given are inadequate educational opportunities.

SPRING MILLS

Mrs. Dr. Braucht returned on Monday evening from a visit with her son and family, William Sinkabine, in Virginia.

Word was received by relatives of the death of Romain Roush, daughter of John Roush, of State College. Burial at Heckman's cemetery, Wednesday afternoon.

Mrs. John Myers and Mrs. John Decker returned from Philadelphia on Saturday. They were delegates to the State S. S. convention held in that city.

The pupils of all schools are having vacation while the teachers are attending institute.

Postmaster H. M. Allison was quite sick last week. He is better at present. Blaine Bitner and wife left on Tuesday morning for Erie where Blaine is

a delegate to the lodge in session there. A full description of Community Day activities will be found on page one of this issue.

The cider mill at the station was swamped with business on Tuesday morning. More than a dozen of wagons and trucks loaded with apples were in waiting at one time.

Styles in 1929 automobile license plates show that gold numerals on a blue background will be adopted by Pennsylvania, white numerals on a dark gray background by New Jersey, dark blue numerals on an old gold background by Delaware, white numerals on a dark green background by Maryland, and black numerals on a yellow background by New York. The size of the plates in this State will be the same as at present, but in 1930 they will be made smaller.
