

Rid of Constipation. Improved Both Health and Looks

"I suffered from stomach and bowel trouble for a number of years. I finally got so bad that I had no life or energy left, and felt that there was no help for me. I was completely worn out all the time, had a distressed, haggard look on my face. My mind was dull, my eyes blurred, and I was unable to take an interest in anything. I commenced using Milks Emulsion in May. It occurred to me that the best way to let you see the wonderful improvement Milks Emulsion had made in my health and appearance, would be to send you the picture that I happened to have taken a few weeks before I started using your Milks Emulsion, and to have another picture taken now, and send both to you. I am still taking your Milks Emulsion and improving each day. I know I would have been in my grave had it not been for your Emulsion. I love to take it. It is so pleasant and agreeable."

"I only weighed 108 pounds when I began to use Milks Emulsion, and now I weigh 138 pounds. It has cleared up my complexion, made my eyes bright and a difference in my looks, as you will see by the two pictures. I don't look like the same woman. To my mind it is Nature's beautifier. I try to get everyone that I meet to take Milks Emulsion as it is the most wonderful medicine in the world." Yours truly, MISS SARAH KATE KNIGHT, 722 Anderson St., Bristol, Tenn.

Sold by all druggists under a guarantee to give satisfaction or money refunded. The Milks Emulsion Co., Terre Haute, Ind.—Adv.

Sailing Vessels Passing

Full-rigged sailing vessels, once the pride of Sweden's ocean commerce, are being driven from the trade lanes by steam and motorships. Only six of the old wind-jammers are in service and not one of the brigs is carrying cargoes where in 1905 there were 230 full-rigged ships and 60 brigs flying the Swedish colors.

Salts Fine for Aching Kidneys

When Back Hurts Flush Your Kidneys as You Clean Your Bowels

Most folks forget that the kidneys, like the bowels, sometimes get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders. You simply must keep your kidneys active and clean and the moment you feel an ache or pain in the kidney region begin drinking lots of water. Also get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is intended to flush clogged kidneys and help stimulate them to activity. It also helps neutralize the acids in the urine so they no longer irritate, thus helping to relieve bladder disorders. Jad Salts is inexpensive; makes a delightful effervescent lithia water drink which everybody should take now and then to help keep their kidneys clean.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in trying to correct kidney trouble while it is only trouble.

Couldn't Try It

"Did you try that recipe for wilted lettuce?" "I asked for wilted lettuce at the market and the man got mad."—Louisville Courier-Journal.

If there is no marrying or giving in marriage in heaven that must account for its being heaven.

"WORTH WEIGHT IN GOLD"

Verdict of Woman Who Tried Pinkham's Compound

Tully, N. Y.—"It hurt me to walk or sit down without help and I felt sick and weak. My mother-in-law took Lydia E. Pinkham's Vegetable Compound and she induced me to take it. I am now on the fourth bottle and have also used Lydia E. Pinkham's Sanative Wash. The medicines that will do for me what the Vegetable Compound and Sanative Wash have done are certainly worth their weight in gold. I think I have given them a fair trial and I expect to take two more bottles of the Vegetable Compound."—Mrs. CHARLES MORGAN, R. F. D. 1, Tully, N. Y.

New Bolt Holder For Your Nailless Nails. No pebbles. Nails hold firmly in this support. Great improvement, prettily effect, lasts years. Change water simply. Lift holder with bulb, 2 sizes: 2, 3 and 4. Bulbs, price 10c, 25c and 50c. Special Anniversary Offer: 5 Good Nailless Nails and Holder (Green) for \$1. Postpaid. Baltimore Supply Co., 167 N. Paca St., Baltimore, Md.

SMITH WELL FITTED FOR HIGH POSITION

Campaign Has Shown Candidate's Qualities.

No man in America is better fitted to be President than Gov. Alfred E. Smith, according to the Baltimore Sun. Contrasting the characters of the Democratic and Republican candidates, the Sun declares it will support Smith, and gives the following reasons for doing so:

"The campaign has gone on long enough to make the issues clear. It has revealed the mettle of the candidates and the ideas for which they stand. The Sun believes that, in the face of the facts now plain to every one, Governor Smith is the better man, and should be elected."

"Mr. Hoover's virtues, both as a private citizen and as a public official, are not to be gainsaid. But all of the good qualities that he shows are in Governor Smith, too, and in addition Governor Smith has many that he lacks."

"One of them is frankness. Smith is the frankest man heard of in American public life since Grover Cleveland. He seems to be incapable of evasion, of dissembling, of begging questions. When he comes to a conclusion he states it in plain words and welcomes candid criticism of it."

"He meets opponents openly and fairly and wins their respect. With this frankness goes courage. When he thinks he is right he sticks bravely to his guns and no lure of political advantage can move him."

"Mr. Hoover, since he took to party politics, has shown no such candor and resolution. No one knew what he thought about any major issue until the nomination was safely in his hands. His campaign was a campaign of policy, of compromise, of tricks and evasions. He had nothing to say about prohibition, though the country talked of little else. He was silent about the gross corruption that surrounded him. For seven long years in Washington he served supinely as an unprotesting associate of scoundrels in high places, and when he began his struggle for nomination he turned for aid to even worse scoundrels. Today, it appears, he is on both sides of all the principal questions before the people."

Star on Marchers in Farm Protest Parade

The representatives of the farmers who went to Kansas City last June, and there had the door of the Republican national convention slammed in their faces, now are being represented as underworld characters, according to Frank W. Murphy, chairman of the legislative committee of the Corn Belt Federation of Farm Organizations, and for many years a leader in the fight for the McNary-Haugen bill.

He shows a clipping from the Long Beach (Calif.) Press-Telegram, in which Mrs. Charles F. Van de Water, a member of the California delegation, is quoted as saying:

"It is an undoubted fact that the 50 farmers in the farm protest parade at the convention were men from the Kansas City stock yards, many of whom were known to have former police records."

A. W. Ricker, secretary of the Corn Belt federation, calls Mrs. Van de Water's attention to the fact that there were 3,000 farmers, including himself instead of 50, and that it was Senator Nye who started them marching through the streets chanting, "We won't vote for Hoover."

Workers Are for Smith

Maj. George L. Berry of Tennessee, president of the Printing Pressmen and Assistants' Union of North America and chairman of the labor bureau of the Democratic national committee, predicts that Smith and Robinson will poll the largest industrial vote ever received by a Presidential ticket. "There is a very general appreciation of the fact that the Democratic nominees have proven their interest in the workers' cause," he said. "And at the same time are in harmony with America's business ethics, which means peace, prosperity and good will."

Real Nullification

President Wilson vetoed the Volstead act, Senator Robinson says, and his integrity and purpose were never questioned. "Can it be," he inquires, "that because Governor Smith believes that, without returning to the old evils of the saloon, temperance and respect for law can be promoted through changes in the existing system, he is a nullificationist and an enemy of the Constitution? Such arguments impede the intelligence of their authors." Nullification, he points out, lies in the refusal or willful failure to enforce.—Chicago Journal.

Who said that faith is dead when the Northern press believes the solid South is to be broken?

Leader the Nation Needs

The Democratic party under Governor Smith's guidance leads the way to a constructive solution of a problem that has sapped the vitality of our government. His representation of the economic aspects of the various government problems treated in his message evidences extraordinary grasp of the underlying principles of government. He is ideally equipped to assume the leadership of the nation at a time when a change of leadership is imperative.

Wilkins (second from right) and members of his expedition that sailed on the Southern Cross for the Antarctic.

NEWS REVIEW OF CURRENT EVENTS

Mabel Willebrandt's Hoover Speeches Create a Stir—Help Storm Victims.

By EDWARD W. PICKARD

MRS. MABEL WILLEBRANDT, assistant attorney general of the United States, was the storm center of the political campaign last week, and if she enjoys publicity she must have had the time of her life for she fairly crowded the front page. Mrs. Willebrandt has special charge of the government's legal proceedings against dry law violators and already had incurred the enmity of wet New Yorkers who resented the raiding of night clubs and similar doings. Then she started out to make speeches for Mr. Hoover and one of her first efforts in this line was an address to a big Methodist gathering in Ohio in which she urged that all members of that church should get together to help in the defeat of Al Smith. That gentleman and countless others immediately accused her of attacking him on religious grounds, and there were numerous demands that she be separated from her government job and also that she be taken from the list of accredited Republican speakers. Some of the Hooverites seemed to be fearful lest she become the female Doctor Burchard of the campaign.

Declining to retract or modify any of her utterances, Mrs. Willebrandt asserted she had asked the Methodists to oppose Smith on the ground of his views on prohibition and had made no mention of his religious beliefs. She said Smith himself was trying to "fudge behind his own church," and furthermore that the Democratic candidate was the one who had made prohibition an issue of the campaign. Congressman Walter Newton of Minnesota, chairman of the Republican speakers' bureau, stated that Mrs. Willebrandt was speaking under the auspices of that bureau and that demands for her, from every part of the Middle West, were far more than she could fill.

GOVERNOR SMITH, in the course of his Western tour, spoke at Denver in advocacy of absolute government ownership and control of the natural water power resources of the country and for immediate action in the construction of Boulder canyon dam. Then he moved up through Wyoming to Montana and in Helena devoted most of his address to the Teapot Dome scandal and the alleged responsibility of the Republican party therefor. The chiefs of the seven Indian tribes of the state made him a member with the name "Leading Star." Turning back toward the east, he passed through North Dakota, where the political situation is peculiarly complicated, and during a brief stop in Bismarck he was christened "Chief Charging Hawk" by the Sioux. Thursday night he spoke in St. Paul on a variety of topics, and next day he entered the Wisconsin tangle. It was believed that in his Milwaukee address he might take up the subject of prohibition, hitherto ignored during the tour. Some days before Senator Blaine of Wisconsin had completed his flop by announcing his intention to vote for Smith. Republican leaders said this amounted to little since Blaine never had been a real Republican.

Senator Borah of Idaho was the big gun of the Republican speaking battery during the week and his loudest explosion was in Kansas City, where in lively fashion he contrasted Smith's record and knowledge of the farm problem with that of Hoover, violently assailed the equalization fee, and blew up the charge that Hoover was responsible for the lowering of the price of wheat during the war. He also defended the Eighteenth amendment and paid his disrespectful tributes to Tammany.

WITH the approval of President Coolidge, Secretary of State Kellogg sent identic notes to Great Britain and France setting forth our

government's attitude toward the naval limitation agreement reached by those two nations. The contents of the notes were not made public, but it was understood that they stated the British and French suggestions could not be accepted by the United States as a basis for naval limitation, and pointed out the reason. The American objection to the Anglo-French agreement was tersely expressed by the London Daily News when it said: "It gives Great Britain unlimited small cruisers, France unlimited small submarines, and gives America nothing she wanted. It is almost too crude to be true." Dispatches from London insist there are no secret clauses in the agreement. Some of the French papers are indignant over the American opposition to the pact, saying England and France are held slaves of the United States by their war debts.

WITHOUT having made much progress toward disarmament, the assembly of the League of Nations ended its fall session. Almost its last act was to pass a resolution that the disarmament preparatory commission should meet again not later than January 1. No mention was made in it of any plan for a general disarmament conference, and Germany and Hungary refused to vote after Count von Bernstorff had made a bitter speech chiding the league for its slowness and asserting that Germany was helpless and surrounded by heavily armed neighbors. At the final session the earl of Lytton, speaking for India, warned the league that while it was firmly established in Europe, its position in Asia was not assured. Costa Rica, which resigned from the league in 1925, gave notice that it would rejoin.

REHABILITATION is now the great task in Florida and Porto Rico and the job is in the hands of the Red Cross, as is that of feeding the thousands of storm sufferers. An immense sum is being raised by popular subscription for these purposes. In Florida the dead are now estimated to number more than 2,300, most of them in the region about Lake Okeechobee, where the dikes broke down and the waters were driven over the land. The exact number never will be known. Reports indicated that the white death list was about 700. The danger of pestilence made it necessary to burn most of the bodies as soon as they were found. The Porto Ricans were reported to be in pitiful state. There were more than 15,000 cases of influenza, and malaria, measles and other diseases prevailed among the refugees. The homeless on the island are stated to number 284,000.

Probably 150 persons, including children, perished when the big Novedades theater in Madrid, Spain, burned. The fire started on the stage and the tragedy closely resembled the burning of the Iroquois theater in Chicago years ago. The flames spread through the business district of the city, destroying many buildings.

Five villages in the state of Coahuila, Mexico, were swept away by floods and many lives were lost. The Chinese city of Hankow was the scene of a tremendous conflagration that destroyed thousands of buildings and an unknown number of lives. The old Spanish fort of Cabrerizas Bajas on a hill above Melilla, Morocco, was demolished by an explosion of the powder magazine and scores of lives were lost.

EMILIO PORTES GIL, secretary of the interior, was elected provisional President of Mexico by a joint session of the senate and chamber of deputies, without opposition. He will take office on December 1, when President Calles' term expires. The congress also ordered that a popular Presidential election should be held on the third Sunday of November, 1929.

Senor Portes Gil will be one of the few Presidents Mexico has ever had of exclusively civilian career, being devoid of any active military experience. Until selected by President Calles for his cabinet he had been governor of Tamaulipas, where he established partial prohibition, suppressed open gambling, and established the first state supported industrial school in Mexico for indigent children. He is known as a friend of

the United States. According to a statement issued by him, he will follow the policy of the late President-elect Alvaro Obregon in the uplift of the peasantry, encouragement of irrigation and extension of schools in the rural districts and mountains. He will work to incorporate the Indians, which form 50 per cent of the population, into the body of the nation. He will go along the lines laid down by President Calles. While organized labor will not be represented in the cabinet, he will, nevertheless, extend a helping hand to the labor unions as part of the government policy to uplift the laboring masses.

INLAND WATERWAYS CORPORATION, in an application filed with the interstate commerce commission, proposes extension of the government barge lines services on the Mississippi and Warrior rivers to all parts of the country through the establishment of joint barge and rail rates and barge and rail through routes. The corporation's application first asks the commission to declare that the services of the barge lines are a public convenience and necessity for expansion of the services to the tributaries of the Mississippi, including the Illinois waterway. Virtually every railroad in the country is named in the part of the application asking the establishment of through routes and joint rates. Joint barge and rail rates 20 per cent lower than all-rail rates between specified points are sought by the corporation, that being the basis on which existing barge and rail rates are generally made.

WHEN Nicaraguans go to the polls on November 4 to elect a President every voter will be marked on the hand with a chemical stain as he casts his ballot in order to prevent repeating. To avoid misunderstandings the election board, headed by Gen. Frank L. McCoy, U. S. A., issued a statement explaining that the chemical was harmless and the stain will disappear within a day or two. An election official said malicious agents are spreading reports among the Indians that the Americans will use a chemical that will poison the voters. Other alleged threats to hinder the voting are rumors that the Americans eat children, and that the Sandinistas will attack the booths, or kill those registering or voting.

MME. GANNA WALSKA, opera singer and the wife of Harold F. McCormick of Chicago, is an American citizen, despite her residence in France, and will have to pay duty on jewelry and personal effects which are said to be valued at about \$2,500,000. This ruling was made by Phillip Elting, collector of the port of New York, who told Henry D. Bulkeley, attorney for Mademoiselle Walska, that her claim to foreign residence and consequent immunity from duty had been denied. Bulkeley immediately made plans to appeal and will, if necessary, carry the matter to the United States Customs court and the Court of Customs Appeal.

ANOTHER "air derby," this time from Los Angeles to Cincinnati, was pulled off last week. First place in class A was won by Robert A. Drake of Pittsburgh, Pa., and in class B by Charles W. Holman of St. Paul. Arthur Goebel, flying his "Yankee Doodle" plane, won the nonstop race in 15 hours and 17 minutes.

CHINESE Nationalists in Shanghai unofficially announced that they had practically completed the reorganization of the system of government, eliminating the previous Soviet form, which was borrowed from Russia. Under the new scheme, General Chiang will head the Nationalist government council, his position being similar to that of President or premier.

Gen. Pat Chung-hsi reported from northern Chihli province that he had completely defeated a remnant of the Chihli-Shantung troops and that Gen. Chang Chung-chang had fled, presumably to the Japanese leased area in Manchuria.

DEATHS of the week include those of Sir Horace Darwin, son of Charles Darwin and himself a noted scientist, and R. F. Outcault, veteran newspaper comic strip artist.

TOP HEADACHE

Quick Relief

Monthly Pains Headache Backache Neuralgia Toothache and pains caused by Rheumatism and Neuritis

Dr. Miles' Anti-Pain Pills relieve quickly and without unpleasant after effects. They do not constipate or upset the digestion. Pleasant to take. We will be glad to send samples for 2c in stamps.

Dr. Miles Medical Company Elkhart, Indiana DR. MILES' Anti-Pain Pills

Not Exactly a Relish

The Borgias and other notorious prisoners of history were reputed to have mixed finely powdered glass in food and drinks which they offered their victims. But recently, according to Popular Science Monthly, Dr. Roche Lynch demonstrated to the Medical-Legal society of London that this supposedly murderous material usually passes through the human digestive system without causing death or even doing serious damage. Larger pieces of glass with sharp edges, however, are dangerous.

Blowing the Horn

Billy Binkley, just one year old, was taken for a ride in a launch which had a steering wheel just like an automobile, but no horn. Billy kept lunging at the wheel and patting the center of it expectantly with a plump hand and finally his mother figured out his behavior. "Look," she cried proudly, "he's trying to blow the horn!" And so he was.

California's Flowers

Some of the wildflowers of California are: Annuals, California poppy, blazing star, baby-blue eyes, white daisy, blue lupine, Clarkia elegans and wild Canterbury bells; perennials, Indian paint brush, scarlet larkspur, pride of California, scarlet honeysuckle, California fuchsia and white evening primrose.

Imported Pests

Most of the trouble that has been caused by the ravages of certain species of wild life is traced directly to those which have been imported to this country from other continents. Examples of this are the German carp, the English sparrow, and to a certain extent the Chinese pheasant.

No Real Thunderbolt

There is no material object, such as the term bolt implies, in a lightning discharge. The term thunderbolt is inherited from the ancients, who imagined that lightning and thunder were the result of some object hurled by the gods.

Most Ancient Pyramid

Sakkara Step pyramid, the "Pyramid of Grades," or "of Degrees," which is 15 miles south of Cairo on the opposite side of the Nile from Helwan, has been declared by scientists to be the oldest of the Great Pyramids.

Romans Built on Piles

That the Romans who invaded Britain 2,000 years ago took a lesson from the Venetians is demonstrated by the discovery of an ancient townsite at Brentford on the Thames. Buildings had been built on piles over the water.

Sun's Radiation

The intensity of the radiation from the sun has varied from about 1 per cent above normal at the time of sunspot maximum (1917) to about 1 per cent below the normal at the time of sunspot minimum (1913 and 1923).

Freezing Cream

The bureau of standards says that the best method to hasten the freezing of cream in an electric refrigerator is to stir the cream to provide better contact between its container and the refrigerated surface.

Over—and Over

There's nothing a man likes better than having a woman make over him, and nothing he hates more than having one try to make him over.—Cincinnati Enquirer.

Bird of Fair Weather

A halcyon is a kingfisher, and "halcyon days" are so called because it was supposed that the weather was always peaceful when the kingfisher was breeding.
