THE CENTRE REPORTER, CENTRE HALL, PA.

by nature selfish; that he wants all he can get for himself; that life is a war of all against all; each man for himself and the devil take the hindmost.

Man is also capable of altruism. self-sacrifice, and genuine sympathy. We all get a lot of satisfaction in being kind and courteous, in helping another person even when it costs us something. We do sympathize with others.

There are four types of sympathy. The first three in the list are natural enough. They are born in us as part of our physical and psychic inheritance. The last type, rational sympathy, is acquired through training and education.

1. Physical sympathy is unconscious for the most part and almost wholly mechanical. It is illustrated in the fact that when a speaker coughs or clears his throat every one in the audience feels a peculiar reaction in his own throat and will cough sympathetically. Yawning when others yawn. smiling when others smile are further examples of physical sympathy. 2. Biological sympathy is the fel-

Some writers tell us that man is low-feeling of kinship for those of our cial ties create a special attitude of sympathy that is inherently strong.

> 3. Psychological or emotional sympathy is illustrated in the desire to feed a hungry child. The salesman uses this type of sympathy when the tells jokes and otherwise transfers his optimistic mood to his prospective customer.

4. Rational sympathy is a highly developed type of understanding based on reasoning and a sense of justice and fair play. We sympathize with people on this basis even when we despise their views or hate them personally. One need not get excited to exercise rational sympathy. It is an enlightened attitude which enables us to combat race prejudice, party prejudice, religious prejudice and every other type of narrow provincialism in behalf of justice and a common brotherhood.

Old Dismal Swamp Canal Purchased by U.S.

The government has purchased for \$500,000 the historic Old Dismal Swamp canal in Virginia which was projected and surveyed by George Washington and for many years was used profitably for freight traffic. It is to be a part of the inland waterway between Norfolk and Elizabeth City, N. C.

"And then Grandmother Ice whis-

pered to the pond and said: "'Dear, dear pond, how I love you. 1 want to put my arms around you and tell you that I think you are so lovely. I want to whisper secrets to you of the great Ice family.

"'I want to tell you how beautiful they are, how fine they like to be. I want to tell you how people can take us out after awhile, and save us for the bot months of the summer.

"'I want to tell you many, many secrets.

"That is the story of Grandmother Ice and we know how she whispered the lovely secrets of the Ice family to the pond and how the other members of the Ice family did the same with the other ponds and streams and Inkes.

"And we all love to tell these secrets when we're visiting in the winter time these days. We tell how Mother Nature helps us, and how Mother Nature's different children help us, too.'

"Ah, yes, we love to tell these secrets and we love to hear again and again the story of dear Great, Great. Great, Great, Great, Great, Great,

Tale of a Pig's Tail

"There's pig sense for you," asserted J. Schneider of Winsted, Conn., after relating the following pig-apple story:

The pig was confined in a pen of which an apple tree made one of the posts. Investigation of its peculiar actions disclosed that the pig obtained apples which fell close to the outside of the pen by sitting on its haunches with its back against the fence and. passing its tail under the fence, would feel around until it located an apple. The animal would then allow its tail to curl about the apple and would work its body forward, bringing the fruit under the fence into the pen.

Iceland to Have Railroad

There are no railroads in Iceland Recently, however, a Norwegian company contracted to build a railroad from Reykjavik, the capital, to Thojorsaa, a distance of 50 miles. Construction is to begin May 1, 1929.

A crowd of dudes might appropriately be termed a vacant lot.

Children's Evening Story

SIR FREEZING-IS FUN and the Icicle Girls and Madam Snow and old King Snow were having a chat after a pleasant, busy day.

Pretty soon they were joined by other friends and relatives. The Blizzard Boys came along and so did many of the others. "Let us hear," said Sir Freezing-Is-Fun, "the old, old story of dear Great, Great, Great, Great, Great, Great, Great, Great. Great Grandmother Ice and the Pond." "Who will tell the story?" asked the Icicle Girls and just as that moment Lady Ice came along.

"Oh, won't you tell the story? Won't you tell the story?"

"What story?" Lady Ice asked and she smiled her cold, cold smile, but they all enjoyed it for cold smiles and cold ways were what kept them warm and strong.

"We want to hear the story of dear Great, Great, Great, Great, Great, Great, Great, Great, Great-Grandmother Ice and the Pond."

"Oh. yes," said Lady Ice, "I will indeed be glad to tell that story.

"Years and years and years ago, oh. so many years ago that no one can possibly add them all up so as to tell just how many years ago it was-at least none of us could add up so many dear Great, Great, Great, Great

SAME PRESCRIPTION HE WROTE IN 1892

When Dr. Caldwell started to practice medicine, back in 1875, the needs for a laxative were not as great as today. People lived normal lives, ate plain. wholesome food, and got plenty of fresh air. But even that early there were drastic physics and purges for the relief of constipation which Dr. Caldwell did not believe were good for human beings. The prescription for constipation that he used early in his practice, and which he put in drug stores in 1892 under the name of Dr. Caldwell's Syrup Pepsin, is a liquid vegetable remedy, intended for women, children and elderly people and they need just such a mild, safe bowel stimulant.

This prescription has proven its worth and is now the largest selling liquid laxative. It has won the confidence of people who needed it to get relief from headaches, biliousness, flatulence, indigestion, loss of appetite and sleep, had breath, dyspepsia, colds, fevers. At your druggist, or write "Syrup Pepsin," Dept. BB, Monticello, Illinois, for free trial bottle

Don't Let That Cold Turn Into "Flu"

That cold may turn into "Flu," Grippe or, even worse, Pneumonia, unless you take care of it at once. Rub Musterole on the congested

parts and see how quickly it brings relief as effectively as the messy old mustard plaster. Musterole, made from pure oil of

mustard, camphor, menthol and other simple ingredients, is a counter-irri-tant which stimulates circulation and helps break up the cold. You will feel a warm tingle as it en-

ters the pores, then a cooling sensa-tion that brings welcome relief.
