

When Food Sour

Lots of folks who think they have "indigestion" have only an acid condition which could be corrected in five or ten minutes.

Phillips does away with all that sourness and gas right after meals. It prevents the distress so apt to occur two hours after eating.

NEWS REVIEW OF CURRENT EVENTS

Congress Determines We Shall Build 15 Cruisers Within Three Years.

By EDWARD W. PICKARD

DISREGARDING the wishes of President Coolidge and defiantly rejecting the demands of the powerful lobby of church and peace organizations, the senate passed the fifteen-cruiser bill with the time limit clause included.

The twelve senators who voted against the bill were: Black (Dem. Ala.), Borah (Rep. Idaho), Brookhart (Rep. Iowa), Burton (Rep. Ohio), Dill (Dem. Wash.), Frazier (Rep. N. D.), McMaster (Rep. S. D.), Norris (Rep. Neb.), Nye (Rep. N. D.), Shipstead (Farmer-Labor, Minn.), Thomas (Dem. Okla.), and Walsh (Dem. Mont.).

The house bill was amended, at the instance of Senators Borah and Reed of Missouri, by the adoption of a clause declaring "that the congress favors a treaty or treaties with all the principal maritime nations regulating the conduct of belligerents and neutrals in war at sea, including the inviolability of private property thereon."

Two days later the house concurred in the senate amendments without sending the measure to conference and thus a plan of the pacifists to filibuster on a conference report was frustrated. The bill went to the President and it was expected he would sign it despite his dislike of the time limit clause.

During the senate debate over the cruiser measure Heflin of Alabama precipitated an angry dispute by offering an amendment forbidding the flying of any flag or pennant above the American flag on any navy vessel. He was hitting at the church pennant flown during religious services aboard ship, in the ignorant belief that the St. George's cross which it bears is the symbol of the Catholic church.

ONE member of the Hoover cabinet is now known to a practical certainty, although the information does not come from the President-Elect. Henry L. Stimson, governor general of the Philippines, issued this statement in Manila:

"It is true that at the request of the President-Elect of the United States I am about to leave the Philippines in order to take up another duty. What the nature of that duty is I prefer to leave to Mr. Hoover to announce. I expect to sail in about two weeks."

It was stated in Manila that Mr. Stimson told Manuel Quezon, president of the island senate, that he had accepted the post of secretary of state, which accorded with the opinion of the political correspondents.

Mr. Hoover is reported to be much amused by the guesses as to his cabinet, and the only definite information from him on the matter was that most of the guesses were wrong. Last week, after receiving a number of callers, he went fishing in the Gulf stream and

then left on Saturday for a boat trip around to Naples on the west coast. He was to be in Fort Myers on Monday to help Thomas A. Edison celebrate his seventy-seventh birthday, and then planned more fishing and an inspection trip across the everglades and around Lake Okeechobee.

THAT \$24,000,000 additional appropriation for prohibition enforcement, which the house rejected in defiance of orders from the Anti-Saloon league, was the death of the deficiency supply bill to which it was attached as a rider. The conference committee could not reach an agreement on this item and it was admitted that the bill would be allowed to die.

ELIHU ROOT, former secretary of state, has consented to be President Coolidge's unofficial emissary in an effort to seek an understanding among world powers on America's reservations to her adherence to the World Court. Last week Mr. Root was in Washington conferring with members of the senate foreign relations committee.

USE of federal reserve credit for speculation, either directly or indirectly, must be restrained, declared the federal reserve board Wednesday evening in a statement calling attention to the growth of speculative credit during the year, the loss by the country of some \$500,000,000 in gold and advances in the cost of credit for commercial uses.

Some of the lawmakers in Washington and various other persons severely criticized the federal board, not so much for its action as for its alleged subservency to the urgency of Montagu Norman, governor of the Bank of England, who had just made a visit in the national capital. He was the guest of Secretary of the Treasury Mellon and conferred with several members of the board, and was said to have advised the board to try to check stock market speculation, his real desire being to amell-

orate the British financial situation. As for the stock market financiers, one authority had this to say: "It is not the fear of an increase in the rediscount rate that alone is causing all the uneasiness in Wall Street—it is the danger of even more drastic measures. The financial district is growing more and more convinced that the latest 'gesture' of the board has something big behind it, and Wall Street knows the present speculative situation will not bear too close investigation."

CARDINAL GASPARRI, papal secretary of state, announced to the diplomatic body accredited to the Vatican that the Holy See and the Italian state had reached an agreement that ends the estrangement between them which has existed since 1870.

Town Watchmaker Knew How to Tell Time of Day

When the Illinois Athletic club basket ball team of Chicago held the national title it toured the country under the management of Julius Klavans. Julius liked California so well he returned to the coast soon afterwards, and remained there. "One night while on our way to Oakland we played a tough game at American Fork, Utah," says Klavans. "It was tough because the floor was laid on springs. Our boys felt as if they were competing on the waves of the ocean and had a terrible time keeping their feet. "Naturally they couldn't put up their usual game of basket ball. Time was being kept by an old gentleman, who had a woman's wrist watch. I checked up on him with my stop watch. "We were only a few points ahead at the end, and mighty lucky at that because under the conditions, it was anybody's game. "Two minutes before the end the old gentleman ran out and called time. "But there are two minutes left," I objected. "He had his mad up at once. 'Young man, I've been watchmaker in this town for twenty-five years and I know how to tell the time of day,' he said. Which ended the argument."

There does not seem to be any truth in the rumor that he is leaving.
