SPRING MILLS

The town was well represented at Bellefonte court last week.

Mrs. Russell Condo went to Altoona to the assistance of her sister, Mrs. Wm. Rockey, who has been seriously ill.

While at Altoona she received a message to come to Mifflinburg since her brother, Rufus Finkle, had been taken to the hospital at Williamsport for an operation for appendicitis.

At last report he was improving. Mrs. Rebekah Foust, of Centre Hall, spent Sunday at Clair O'H's.

George Gentzell, who has been ill all winter, fell on the ice. Although no bones were broken, he is badly bruised.

All who love to hear good music should attend the concert in Grange hall on Friday evening of this week by the singing class of Madisonburg.

Spring Mills is making a strong effort to organize a volunteer fire company. Dr. H. S. Branch is chairman of the organization and appointed the following as a committee to canvass the community to raise funds for that purpose: J. C. Lox, Austin Long, M. T. Duck, Ralph Shook and S. G. Walker.

The next meeting will be held March 12th. Russell Condo spent Sunday at the Williamsport hospital with his brother-in-law, Rufus Finkle.

Sales are numerous in this section. Perry Detweiler's sale on Saturday was well attended and everything brought fair prices.

Mumps have claimed some of the school children.

POTTERS MILLS.

Snow looks wonderfully pretty—white and clean, when it falls, but before it disappears much of it loses all of its charm.

FARM CALENDAR.

Timely Reminders from The Pennsylvania State College.

CROWDING CHECKS UNPROFITABLE—Disastrous results in the way of heavy losses of chicks are likely to follow when one overestimates brooder house capacity. It is a safe rule to allow a square foot of floor space to every three chicks. In fact, giving the chicks more room than this would be advantageous especially in early season when chicks must be closely confined to the house.

PROVIDE EXERCISE FOR BIRDS—Now is a good time to plan for a suitable pen and yard for the herd bull. Bulls need exercise as well as good feed and care. No plan is as generally satisfactory as a large exercise yard connected with a suitable pen and the bull allowed to go in and out freely at all seasons of the year.

MARKET HOGS EARLY—Growing

pigs by the use of ton litter methods prepares them for market early. The highest prices prevail prior to the time when the big run of hogs strikes the markets. Ton litters are fattened in six months of feeding.

START VEGETABLES NOW—At this time seedling plants can be moved from the greenhouse to hotbeds. The gardener should also sow cabbage, lettuce, cauliflower and other cool vegetables in hotbeds and start tomato, pepper and egg plants in the greenhouse.

DO NOT DELAY SPRAYING—Oil sprays are best applied to peach and apple trees during the dormant period. Peaches should not be treated with spraying oils after the buds have started to break, but apple trees may be sprayed as late as when the buds are showing green.

Sale notice under this head is carried free of charge when bills are printed at this office. To all others the charge is \$1.50.
