

LOCAL AND PERSONAL

Frank D. Lee visited his brother, Hiram Lee, at State College, over Tuesday night.

Wm. L. Seckinger, State College member, is installing a bath outfit in the home of L. Moore home.

Mr. E. V. Henney has gone to Philadelphia to make her purchases of spring millinery for her large trade.

Mrs. Rich Brooks had the misfortune to fall while descending the stairs at 10 o'clock Monday morning, and was seriously injured, one of her lower limbs being broken.

James R. Smith, his brother, George R. Smith and sister Mrs. Albert Smith, were en route to the State College on Monday afternoon for a brother's funeral.

Miss Edith Sankey, of Pine Grove Mills, came to Centre Hall on Tuesday with her brother, Macellus A. Sankey, of Hollidaysburg (R. D.), who went on to Millheim on a bit of business.

Mrs. Edward Gleixner, daughter Olive and son Levi, of Northumberland, were in Centre Hall over the weekend, guests of Mrs. Gleixner's parents, Mr. and Mrs. Levi Hartley.

Russell Brungart, of Potters Mills, will hold public sale of household goods on April 6th, and then remove with his family to West Chester where he will be engaged at the carpenter trade.

The hotel restaurant, conducted of late by Harry McClenahan, has been sold to John D. Homan. Mr. Homan will take charge of the restaurant within a few days, according to well credited statements.

R. F. Neill moved onto the Dr. A. G. Lieb farm east of town, which farm was without a tenant for about a year. Mr. Neill came from Port Matilda and has an equipment and help capable of taking care of the large farm.

The box social held by the pupils of the Earlstown school, Miss Ellen Allen, teacher, on Friday night, netted a profit of \$27.75. The fund will be used in securing play ground equipment and story books. Miss Allen, the teacher, is grateful for the support given the movement.

Claude Dutrow, on Monday, moved from the Lambert house on East Church street, into the apartments vacated by H. E. Shreckengast, above the tin shop, while Wm. Hannal is occupying the place vacated by Dutrow.

The hoarse used by F. V. Goodhart, purchased five years ago, now discarded for a Nash limousine funeral coach, was purchased by J. S. Booser, who is converting it into a truck, sold in advance to George McCormick, at Potters Mills.

Bond Bible son of Mr. and Mrs. J. Frank Bible, of near Aaronsburg, was obliged to return to his home on account of a severe attack of mumps. He is a Penn State freshman, having entered that institution after having graduated from the Millheim High school.

Rev. Harry W. Newman, pastor of the local Methodist churches, is attending the sessions of the annual conference in Clearfield this week. He has been able to make a very good report of the charge. All ministerial claims were met and other items up to the standard.

Mrs. Musser Coldron, who became very suddenly and critically ill on Thursday of last week, is gradually improving under the care of Dr. Hugh Morrow and Mrs. William H. Seckinger, R. N. She is at her home—the Coffee Shoppe—on Nittany Mountain.

Among the sick in this vicinity reported to this office are Mrs. Roy Miller, Colyer, and Michael Delaney, of near town, both suffering from flu; David Stoner, at the station, is tied up with an attack of rheumatic fever, and farmer Charles Crust, east of town, is nursing a case of grip.

Rev. W. E. Smith on Monday returned from the meeting of the Evangelical conference held at Wrightsville. He was accompanied by former sheriff A. B. Lee, who was the only lay delegate from the south side of the county. Rev. Smith, as desired by his congregation, was returned. Rev. S. A. Snyder, a former pastor here, was transferred from Baltimore to St. Paul's church, Berwick. An account of the conference together with a notation of pastors whose fields of labor were changed appears elsewhere in this issue.

Tractors continue to nose out the horse on the farm. This is being experienced in almost all sections, and it is especially so since the farm tractor has been improved and so tractable in the hands of the average young farmer. Indeed, the tractor is now in use on many farms by farmers who only a few years ago thought the modern machine only suitable for the Western prairie lands. The tractor is here to stay. Farmers in this section who will begin spring work for the first time in the modern way are Ralph Hockley and Adam Smith, of near Boalsburg; W. R. Stoner, near Tusseyville; Michael Delaney and I. M. Arner, near Centre Hall, and James Harshbarger, of Zion, who in April will become tenant on the Potter homestead, west of town. It is the McCormick-Deering tractor sold by D. V. Bradford these farmers have selected.

G. C. King, of Spring Mills, was a business caller at this office on Saturday. He will make public sale of some farm stock and implements on Saturday, March 30th, and has posted bills to that effect. Mr. King informs us that Spring Mills is still a good ways from solving the problem that is confronting all its good citizens at the present moment, namely, that of adequate fire protection. The best solution, of course, would be a water system, but the expense appears to be prohibitive, since it would be necessary to convey the water for a distance of nearly three miles, and this would entail an expense of many thousand dollars. The village being not incorporated, there is no provision for issuing bonds, even if the citizens were so minded. Many are in favor of chemical apparatus, which would at least afford some immediate protection, of which there is none. However, a conscientious group of men are wrestling with the problem, and it is safe to say that some satisfactory plan will be evolved in the near future.

LOCAL AND PERSONAL

Floyd E. Snyder has secured employment at the Claster planing mill at Bellefonte.

The James C. Goodhart home in Centre Hall is advertised for sale. Mr. Goodhart has decided to return to his farm at Centre Hill.

Miss Edith Sankey, of Pine Grove Mills, came to Centre Hall on Tuesday with her brother, Macellus A. Sankey, of Hollidaysburg (R. D.), who went on to Millheim on a bit of business.

Mrs. Edward Gleixner, daughter Olive and son Levi, of Northumberland, were in Centre Hall over the weekend, guests of Mrs. Gleixner's parents, Mr. and Mrs. Levi Hartley.

LOCAL AND PERSONAL

Checks will reach Sheffield producers on or about March 15.

Dairymen will conserve their best interests by planning now to increase their production of milk for next fall and winter. New York City health officials and city distributors are anxious to obtain the milk supply in the present milk shed but unless more milk is produced next fall and winter than has been produced this season there is a possibility of such a shortage as will necessitate an extension of the milk shed. This may be avoided by a slight increase over last fall's production. Such a disastrous cut in prices as occurred last spring seems now to have been avoided. In fact, Sheffield prices for March have not been cut in any class. The indications now are that prices will average good and that dairymen will be repaid for the efforts they may make to keep the present milk shed intact.

Mrs. Edward Gleixner, daughter Olive and son Levi, of Northumberland, were in Centre Hall over the weekend, guests of Mrs. Gleixner's parents, Mr. and Mrs. Levi Hartley.

Russell Brungart, of Potters Mills, will hold public sale of household goods on April 6th, and then remove with his family to West Chester where he will be engaged at the carpenter trade.

Earthquakes in the United States shows that there is an important line of earth weakness starting in the southern parts of California, traversing Arizona, following the thirty-fifth degree of latitude, sending a spur up the Mississippi and Ohio rivers, then running eastward to the sea, and thence following the Atlantic coastal ranges up to Prince Edward Island and Newfoundland.

British Doctor Gives New "Cures" for Ills

If you want to forget your troubles, think about them as hard as you can say a leading British medical man. You cannot drive an unpleasant memory out of the mind, but you can, as it were, tire it out by constantly thinking about it, and it will then dissipate itself.

Another eminent doctor says that the way to cure contrariness in children is not by reproof but by approbation. Contrary habits are common in children. If wanted to hurry they will dawdle, if asked to sit down they insist upon standing up. The way to check opposition of this kind is, we are told, to pretend that going slow and standing up is what is desired, and contrary habits at table should be combated in the same way. The

Earthquakes Peril America's Big Cities

About the last thought, probably, that occurs to the average American is that he may be living in an area of earthquake danger. As a matter of fact, earthquakes occur in the United States every year—many of them. More than that, writes Arthur Selwyn Brown, Ph.D., LL.D., in Popular Science Monthly, they occur in places that point to the existence of definite lines of earth weakness passing through or near some of our greatest cities. New York, Washington and Boston, for example, lie along one of these lines, and consequently are not removed entirely from the danger of earthquake.

Other similar lines are found stretching across the continent from southern California to the Atlantic coast, sweeping up through the Mississippi valley to the Great Lakes, cleaving the center of New England. Within these areas live millions of people. A study of the annual reports of

HIGH MILK PRICES FOR SHEFFIELD PRODUCERS

Dairymen Urged to Increase Supply of Milk Next Fall to Prevent Extension of Territory from Which Milk May Be Shipped to New York City.

The net cash price to be paid the more than 12,000 members of the Sheffield Producers Cooperative Association Inc. for milk sold by them in the month of February, 1929, is \$2.82 1/2 per hundred pounds for three per cent. Grade B milk in the 201-210 mile zone with the usual freight, grade and butterfat differentials. This is equivalent to \$3.02 1/2 net cash per hundred pounds for Grade B milk sold on a 3.5 butterfat basis. It is 15 cents above the price in February 1928 and is the highest February price in the history

"KIDS"

A Barn Without Boards

A carpenter would not think of building a barn without boards—would he? And he doesn't simply order boards and leave it go at that. He selects the kind of wood he needs, the proper lengths and thicknesses. Yet isn't it a fact that you are attempting to erect the Building which is to hold your Fortunes without a proper bank account? You can no more do it than a carpenter can build a barn without boards. And in the selection of a Bank that is to be YOUR bank it is essential to your success that you choose one that will give you personal attention. If such a Bank appeals to you, may we have your business!

now- Six Cylinder Trucks
with the economy of the four!

Crowded traffic conditions today demand six-cylinder performance—with its greater flexibility, greater reserve power, higher speed and swifter acceleration. And now—for the first time in commercial car history—this desirable six-cylinder performance has been made available with the economy of the four. For the new six-cylinder Chevrolet trucks are not only offered in the price range of the four—but they are as economical to operate as their famous four-cylinder predecessors! Both the Light Delivery and the 1 1/2 Ton Utility Chassis are available with an unusually wide selection of body types—and among them is one exactly suited to your requirements. Come in today. We'll gladly arrange a trial load demonstration—load the truck as you would load it, and drive it over the roads your truck must travel in a regular day's work.

Bedan Delivery, \$595; Light Delivery Chassis, \$400; 1 1/2 Ton Chassis, \$545; 1 1/2 Ton Chassis with Cab, \$650. All prices f. o. b. factory, Flint, Mich.
