

### If Back Hurts Flush Kidneys

Drink Plenty of Water and Take Glass of Salts Before Breakfast Occasionally.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which helps to remove the body's urinous waste and stimulate them to their normal activity.

The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of good water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts. Take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys may then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help clean and stimulate clogged kidneys; also to neutralize the acids in the system so they are no longer a source of irritation, thus often relieving bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to help keep their kidneys clean and active. Try this; also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

#### Gun Warned of Fire

Returning from a hunt, Charles Manil, Milford, Del., hung up his gun on the kitchen wall thinking it wasn't loaded, but in this case it was fortunate he was mistaken. That night the family was aroused when they heard the gun go off. A fire had broken out in the kitchen and reaching the gun, discharged it. The fire was put out before it spread further.

#### The Very Best Time

to take Dr. Pierce's Golden Medical Discovery is now. This herbal alterative extract makes the blood richer—improves and repairs your system, rouses organs into healthy action and builds up needed flesh and strength. Read this: Mrs. B. N. Moreland of Okonoko, W. Va., writes: "I can highly recommend Dr. Pierce's medicines. Some years ago my health failed—I became all run down and so weak I believe I would not have lived if I had not taken Dr. Pierce's medicines. I took the Golden Medical Discovery and the Favorite Prescription, and my health returned and I became strong again. That was 20 years ago. I feel sure that these medicines will do as much for other sufferers if they will but give them a trial."

Ask your nearest druggist for Dr. Pierce's Discovery, in tablets or liquid or send 10c for trial package of tablets to Dr. Pierce's Clinic, Buffalo, N. Y.

#### Don't Let That Cold Turn Into "Flu"

That cold may turn into "Flu," Grippe or, even worse, Pneumonia, unless you take care of it at once.

Rub Musterole on the congested parts and see how quickly it brings relief as effectively as the messy old mustard plaster.

Musterole, made from pure oil of mustard, camphor, menthol and other simple ingredients, is a counter-irritant which stimulates circulation and helps break up the cold.

You will feel a warm tingle as it enters the pores, then a cooling sensation that brings welcome relief.

Jars & Tubes

Better than a mustard plaster

When you have decided to get rid of worms, use "Dead Shot," Dr. Peery's Vermifuge. One dose will expel them. All druggists.

## NEWS REVIEW OF CURRENT EVENTS

### France Pays Sorrowful Homage at Bier of Its Great Marshal.

MOST of the world shares with France its great sorrow in the loss of its distinguished soldier, Marshal Ferdinand Foch, generalissimo of all the allied armies during the World war, who died Wednesday in Paris. Marshal Foch was seventy-eight years of age and had been ill for nearly three months. He suffered an attack of influenza which developed into a pulmonary trouble and was followed by complications of the kidneys. A resultant heart weakness claimed him.

Not since Napoleon's body was brought back from St. Helena in 1840 has France witnessed a funeral of such surpassing pomp as that arranged under direction of the French chamber of deputies to honor the dead marshal. For twenty-four hours previous to the funeral, which was held on the 26th, the body lay in state under the Arc de Triomphe, near the tomb of the Unknown Soldier. The high and low, the rich and poor, in continuous procession passed by the bier to pay homage to France's greatest hero of modern times.

Gen. John J. Pershing, who was one of the marshal's most intimate associates and supporters during the war and who is recovering in Paris from influenza, expected to go to the Riviera for recuperation, but canceled his departure to attend the funeral and act as one of the honorary pallbearers.

Honors seldom paid to any one but the most distinguished American soldiers was the tribute of the United States army to the memory of Marshal Foch. General Pershing was designated to represent the army at the funeral in Paris. On the day of the funeral, by orders of the War department, the flag at every military post and station was displayed at half mast and salute of twenty-one guns was fired at regular intervals during the day.

President Hoover, immediately on learning of the great marshal's death, dispatched a message to the French government expressing the sorrow of the American people for the people of France over the loss of a great national hero. Warm tribute to the military genius and fine human qualities of Marshal Foch were paid by other high officials of the government.

When Marshal Foch, with sure grasp, remarkable strategy, and rare power of co-ordination, was directing the allied effort which finally broke the German hosts, he was in command of more men than anyone had led in the history of the world. Marshal Foch first attracted world attention at the first battle of the Marne, when he sent the laconic message to his chief, Marshal Joffre, "My left and right wings are shattered. I shall attack with my center." He did and broke up the German offensive and forced a retreat.

It was this success, with its manifestations of bulldog determination to win even in defeat, that singled him out as the man for supreme leadership when unified command of all the allied armies was decided upon in the spring of 1918.

So it comes that almost on the eleventh anniversary of the greatest moment of his career, when to him passed command of a military machine more vast than any the world had ever dreamed of, Foch, hero of the first Marne, has breathed his last.

In 1921 Marshal Foch came to this country as a guest of the American Legion. He covered 20,000 miles and his journey led him through the Eastern states, the wheat fields of the Middle West, the vast plains of Texas, and the plantations in the South. His trip was climaxed in the national convention of the Legion at Kansas City. Hundreds of thousands of Legionnaires and citizens turned out in all principal cities to see and hear Marshal Foch. His personal aide was Francis Drake, an officer of the A. E. F. and a Legionnaire. A flotilla of destroyers met the French liner Paris, and as she steamed in the Narrows on

October 28. The marshal was greeted by a 19 gun salute. New York gave him one of its typically famous receptions.

THE Mexican revolution is rapidly petering out. The expected great battle at Torreón failed to materialize when the rebels evacuated the place and started their retreat northward. At last accounts they were still going. Gen. Jesus M. Aguirre, rebel leader in Vera Cruz, was captured at Agua Caliente, following a battle in which many were killed on both sides. He was promptly court-martialed and executed. President Portes Gil ordered photographs taken of General Aguirre before and after execution. These will be used to prove to the public that Aguirre has really been executed. The government continues to meet its pay rolls despite the mounting costs of war expenses.

Future revolutions in Mexico must count with the radio and the broadcasting stations, officials say. The desertions, the discontent, and the quarrels of the rival rebel leaders were made known to the Mexican people almost as soon as they were known in the rebel camps, and this has had a powerful effect on the popular mind.

BIDS for the construction of ten of the fifteen cruisers authorized by the naval building bill passed by the last congress are to be asked by Secretary of the Navy Adams. Designs of the new cruisers have been completed and all that now remains is for the Navy department to set forth the terms under which the bids will be asked. The new vessels are to be the fastest and most powerful cruisers of their class ever constructed in the United States. Three of the vessels will be built in government yards and the balance in private establishments. Five ships are to be started this year and five the latter part of 1930.

PRESIDENT HOOVER has already found two places convenient to Washington where he can indulge in his favorite sport of fishing whenever opportunity affords. Two places within short distances of the capital have been placed at his disposal. One of these is the historic Catoctin Manor estate at Catoctin, Md. The second fishing place selected is in Shenandoah National park, Virginia. A new game lodge to be erected near the head waters of the Rapidan river in the Blue Ridge mountains will be occupied by the President during his fishing trips in that section.

SENATOR BORAH has announced his determination to oppose American entrance into the World court when the revised protocol is sent to the senate in December.

In a statement issued in Washington, Senator Borah attacked the World court as representing merely the legal department of the League of Nations and denounced its authority to issue advisory opinions in international disputes of the league. He predicted that the World court would never function as a really great international tribunal unless it discards the practice of issuing advisory opinions. The new Root formula, the senator contended, does not afford the United States protection against advisory opinions.

OFFICIAL inquiry has failed to fix the blame for the accident in which 14 passengers were killed when a giant tri-motored Ford passenger plane crashed at Newark, N. J. The accident, the worst in heavier-than-air aviation in this country, occurred when the plane, loaded with sight-seeing passengers, fighting a gale with disabled engines, crashed into an iron freight car and was cut in two.

GOV. HENRY S. JOHNSTON has been removed from the office of governor of Oklahoma by the state senate court of impeachment and that body found him guilty of a charge of general incompetency, preferred by the house of representatives. He was exonerated on nine other charges brought by the house. The senate vote came as a dramatic climax to more than two years of political turbulence, which reached the impeachment pitch in 1927. At that time, however, Johnston succeeded in dispersing hostile legislators by court action after they had sought to convene on their own call.

LEGISLATION necessary to transfer responsibility for prohibition enforcement from the Treasury department to the Department of Justice, as recommended by President Hoover in his inaugural address, is in course of preparation, according to Attorney General Mitchell. However, it is unlikely, in view of the difficulty of the problem and as well as the President's desire to confine the forthcoming special session of congress to farm relief and tariff revision, that the dry reorganization will be submitted to congress until the next regular session convenes in December.

STRENGTHENING of the enforcement of all laws, with special emphasis on none, is the announced policy of the Hoover administration. No special law, such as the Volstead act, is to be singled out for special attention. The President's expressed hope is to obtain better law enforcement and a lessening of crime through judicial reforms, reorganization of enforcement machinery where necessary, and the building up of public respect for all laws.

The President's purpose in arranging for the appointment of a law enforcement investigating commission is to determine the facts and then work out an enforcement system which will result in a substantial permanent advance toward the enforcement of all laws.

FLOODS again are taking their heavy spring toll in lives and property in various sections of the country. The Mississippi at Quincy, Ill., has reached the highest mark in 25 years. Levees along a 50-mile front were battered by the angry waters and patrols were kept on duty night and day strengthening the danger points with sand bags. Several towns and smaller communities in Illinois are under water and thousands are homeless. The property loss cannot yet be estimated.

Two breaks in the levee near Quincy flooded 20,000 acres of farming land. In Alabama and Georgia incalculable damage has been done to property by swollen rivers and there has been considerable loss of life. Many towns and rich farming sections have been inundated and highways have been made impassable. Sections of Florida have also suffered heavily. Food and other supplies are being delivered by aviators on a regular schedule.

In sections where the waters have abated the work of rehabilitation has already commenced. Residents of the flooded towns were returning to their homes inoculated against disease, prepared to restore their ruined buildings.

DRASTIC reductions in penalties for violations of the Ontario liquor control act were announced at Toronto when the government introduced surprise amendments to its liquor legislation. Fines and terms of imprisonment mandatory upon conviction are cut in half. To United States visitors the most important change is prohibition of taking liquor purchased in Ontario outside the province. Visitors who legally purchase liquor there must consume it before they leave Ontario if they wish to remain within the law of the province. A man caught on a train bound for the United States with liquor in his possession will be liable to a fine of \$200 and two months in jail for having liquor in an illegal place. It was explained that this was not a blow aimed at rum-running, but at hip-running.

THE problem aroused by the seizure of a truck load of liquor consigned to the Siamese legation in Washington is being solved by plans under course of formulation by the administration and police officials. Under the new system foreign officials enjoying diplomatic immunity from arrest will be permitted to transport liquor from Baltimore to Washington without disturbance from prohibition officers or the police if a duly accredited embassy or legation official rides the truck with the wet cargo.

Diplomats desiring to transport a consignment of wines and whiskies from Baltimore to Washington will be furnished credentials informing all who may inquire that the cargo is diplomatic liquor and, as such, enjoys immunity from seizure.

## YOU CAN'T DYE with Good Intentions

You can get results—after a fashion—with any old dye; but to do work you are proud of takes real anilines. That's why we put them in Diamond Dyes. They contain from three to five times more than other dyes on the market! Cost more to make? Surely. But you get them for the same price as other dyes.

Next time you want to dye, try them. See how easy it is to use them. Then compare the results. Note the absence of that re-dyed look; of streaking or spotting. See that they take none of the life out of the cloth. Observe how the colors keep their brilliance through wear and washing. Your dealer will refund your money if you don't agree Diamond Dyes are better dyes.

The white package of Diamond Dyes is the original "all-purpose" dye for any and every kind of material. It will dye or tint silk, wool, cotton, linen, rayon or any mixture of materials. The blue package is a special dye for silk or wool only. With it you can dye your valuable articles of silk or wool with results equal to the finest professional work. When you buy—remember this. The blue package dyes silk or wool only. The white package dyes every kind of goods, including silk and wool. Your dealer has both packages.
