

Constipation Gone. Has Roses in Her Cheeks Now

"About seven years ago, I was dying slowly of constipation. My system was full of poison, which not only dulled my senses, but my complexion was muddy, eyes blurred, my stomach was ruined, and I was continually catching cold. I did not have any life or energy.

"After reading one of your ads, I bought several bottles of Milks Emulsion, and began improving at once. Improvement was so marked that everyone noticed it, and spoke of how it cleared my skin, made my eyes much brighter, and put roses in my cheeks. In fact, I was an entirely different person. I took altogether 15 large bottles of Milks Emulsion, and looked wonderful and felt the same way. It absolutely made me over. It adds more to your looks than anything I have ever heard of. After I had taken the first 8 bottles, people began to notice the improvement in my skin and my eyes being brighter.

"Every woman should know of it. I have never had a cold since I took Milks Emulsion, no stomach trouble or constipation. I think it is a God-send to humanity.

"A nephew of mine was almost dead of stomach trouble. I started him on Milks Emulsion and while he has only taken 4 bottles, he can eat nearly anything, and is beginning to feel fine.

"You will always find me a Milks Emulsion booster." MISS. REBECCA CAMPBELL, R. I., Dyerburg, Tenn.

Sold by all druggists under a guarantee to give satisfaction or money refunded. The Milks Emulsion Co., Terre Haute, Ind.—Adv.

Therefore—

Bob, age four, does not take kindly to the economical ways of living. One morning he took all the chairs in the dining room and moved them into the living room, to build a house. When the task was almost completed, his mother arrived on the scene. She was horrified to see her new overstuffed furniture being misused.

She angrily said, "Bob, don't you know that is mother's company room and she doesn't allow you to mess it up like that?"

Looking around the room with a very sober face, Bob replied, "Well, I don't see any company."

Setting 'Em Up

Mother—What do you think, children—your father has ordered a new automobile.

Children (in chorus)—I want to bust the first fender!—Life.

A Raw, Sore Throat

ceases quickly when you apply a little Musterole. It penetrates to the sore spot with a gentle tingle, loosens the congestion and draws out the soreness and pain.

Musterole brings quick relief from sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds on the chest.

To Mothers: Musterole is also made in milder form for babies and small children. Ask for Children's Musterole.

A Vegetable Method That Overcomes Constipation

Stick to the vegetable method of overcoming constipation. Doctors recommend it. Stop tearing your insides out with strong mineral purgatives and habit-forming laxatives. The best way to establish natural bowel regularity is through the use of Wright's Indian Vegetable Pills. Their action is purely vegetable and they do not create the vicious laxative habit. At druggists or 312 Pearl St., N. Y. City.

Wright's INDIAN VEGETABLE PILLS

NEWS REVIEW OF CURRENT EVENTS

Hoover Will Give Jobs Only to Those Who Prove Their Fitness.

A RIGID scrutiny of all applicants for federal appointments is to be the policy of the present administration. President Hoover has announced in no uncertain terms that in the future every applicant for office in the government service must demonstrate his fitness for the job. His first move in this direction is the reorganization of the present Republican organizations in Mississippi, South Carolina and Georgia, on the grounds of irresponsibility and corruption, and the demand that they be replaced by Republican leaders possessing integrity and the confidence of their communities. In Texas, Alabama, Florida and some other states, where the existing leadership has fallen into disrepute, the President announced that these leaders would be compelled to divide authority with advisory committees acceptable to the administration.

The President's action is based on the report of the Brookhart committee of the senate which made an investigation into the sale of federal appointments and other political corruption in that region.

This important announcement by the President was brought out by questions at the press conference at the White House. He said:

"Recent exposure of abuse in recommendations for federal office, particularly in some parts of the states of South Carolina, Georgia and Mississippi, under which some of the federal departments, mainly the post office, were misled in appointments, obviously render it impossible for the old organizations in those states to command the confidence of the administration, although many members of these organizations are not subject to criticism. But such conditions are intolerable to public service, are repugnant to the ideals and purposes of the Republican party, are unjust to the people of the South and must be ended.

"The duty of reorganization, so as to correct these conditions, rests with the people of those states, and all efforts to that end will receive the hearty co-operation of the administration. If these three states are unable to initiate such organization through the leadership of men who will command confidence and protect the public service, the different federal departments will be compelled to adopt other methods to secure advice as to the selection of federal employees.

"In other states, including Alabama, Arkansas, Louisiana, Texas and Florida, the Republican leadership has in recent times shown increasing strength and is now rendering able and conscientious service in maintaining wholesome organization, under whose advice the appointments to public office have steadily improved and commended themselves to the citizens of those states with increased confidence in the party."

A VERITABLE earthquake hit the stock market early in the week when call money went skyward. The first jump to 14 per cent caused a first-class money scare in Wall street. Stocks came roaring down with a crash. Frightened traders sold for any price they could get, almost demoralizing the market. There was no sustained support, the rich men's stocks giving the most ground and the standard issues crumbling along with the good and the bad.

When call money later reached 20 per cent, the highest since 1920, records, prices and bank accounts went smash. Odd lot dabblers and the heavy plungers dumped their holdings overboard when they could no longer wait for the rally which came, but came too late. The market never was so violent. Later, when bargain hunters, investment trusts and institutions began buying, prices began the upward swing and recovered some of the ground lost.

Toward the end of the week the

bulls recovered control of the market when assurances came that the money panic was not to be continued. Money eased to 15 per cent and was in adequate supply. New York banks kept the market unhampered as to any stringency in funds. The National City bank sent \$25,000,000 over to the exchange to be loaned at rates from 16 to 20 per cent. J. P. Morgan sent over \$10,000,000. This brought some cheer to the situation. Short covering got under way and prices reacted buoyantly.

Under the urging of the federal reserve board the strings about the credit supply have for some time been drawing tighter and tighter. It is the plan of the board to bring about a diversion of the country's money from speculative markets to normal channels of business. Should the week's mammoth liquidation serve its purpose, bankers anticipate a gradual relaxation of the purse strings.

One result of the market upset was that several houses sent out notices to their customers that hereafter all margins would be 50 per cent. Brokerage firms admitted that if the federal reserve policy was continued and if the banks persisted in refusing to accept all kinds of securities and continued marking down the loaning rates, all margins in the street would have to be 50 per cent to ease the strain on the brokers.

THE arrival in Washington of Henry L. Stimson, former governor general of the Philippines, to take up his new duties as secretary of state, completes President Hoover's cabinet. Secretary Stimson immediately plunged into the work of familiarizing himself with pending problems and the duties of the office. Former Secretary Kellogg remained with him for a few days to give what assistance was necessary.

The new secretary of state finds himself confronted with several matters of high importance such as American participation in the arms parley at Geneva, the Mexican revolution, American adherence to the World court on the basis of the Root substitute for the senate's reservations, the German reparations question, and necessary changes in the diplomatic corps.

PRESIDENT HOOVER has appointed Col. Henry L. Gilchrist, medical corps, to succeed Maj. Gen. Amos E. Fries as chief of the chemical warfare service, and Col. Stephen O. Fuqua to succeed Maj. Gen. Robert H. Allen as chief of infantry. Both General Fries and General Allen, whose terms of office have expired, will revert to their regular rank of colonel, but both will be eligible to retirement as major general on application or because of age limit.

The appointments of Colonels Gilchrist and Fuqua, who will rank as major generals during their four-year terms, was in accordance with the rotation policy adopted, but not always followed, during the last administration, and which was indorsed as "sound and in the interests of good administration" by Secretary of War Good.

ANOTHER airplane disaster has taken its toll of those who venture in the air. A pilot and three passengers were killed when the Ryan monoplane in which they were flying from Columbus to New York crashed into a tree in a dense fog on South mountain between Colebrook and Mount Gretna, Pa. Witnesses said that when the plane hit the tree it wavered, then rose slightly, turned over on its side, and crashed into the dense thicket. All of the men were dead when workmen from the Pennsylvania National Guard encampment grounds nearby reached the scene. It is believed the pilot lost his way in the fog and was trying to get his bearings over the military reservation when the accident happened.

THE preliminary work of the reparations commission in Paris has been completed and the conference has settled down to a discussion of the actual problem of figures. Chairman Owen D. Young said: "The work of the committee had reached a point where we must consider figures before proceeding further in order to

fit them into the scheme already written down. The only problem facing us is the number of annuities and the amount each year."

It is generally admitted that the total indemnity will be in the neighborhood of ten billions of dollars, but it remains to be figured out at the present value through the discount rate over the number of years it runs. The Germans stand pat for 37 years and the French insist on 58 years.

REPUBLICAN members of the house committee on agriculture, which is conducting hearings on the farm relief problem, are said to be almost unanimous in their approval of President Hoover's farm relief program. All the Republican members of the house committee as well as the members of the senate committee, which is also conducting hearings, have conferred with the President and have been acquainted privately with his general views on the form which legislation should take.

THE Europa, pride of the German merchant marine, worth about \$12,000,000, was completely gutted by fire. The building of the ship had taken about 18 months of patient night and day labor and was practically finished. Owing to the large quantities of paint, tar, oil and other inflammable materials aboard, the firemen found themselves up against a hopeless task in fighting the flames. An overheated plumber's stove was believed to have caused the conflagration.

THE Mexican revolution is slowly disintegrating. The army of Gen. P. Elias Calles continues its relentless plodding northward. Jimenez, former headquarters of the rebel commander-in-chief, Gen. Jose Gonzalo Escobar, has been occupied by the federal forces. The rebels abandoned the place on the approach of the federal troops.

The town of Douglas, Ariz., has got in bad because of the revolution. Charges that two city-owned machine guns and 37,000 rounds of ammunition had been sold to the Mexican rebels for \$2,000 and that the city received only \$500 of the money precipitated an investigation of the whole city administration by the United States Department of Justice. Several city officials were arrested and later released under bonds pending trial on charges of conspiring to smuggle arms across the border.

THE Radio Corporation of America has sold its communication interests to the International Telegraph and Telephone company, receiving stock equivalent to \$100,000,000. The deal makes I. T. & T., the largest international communications system in the world and apparently leaves Radio Corporation as a manufacturing and distributing company for radio apparatus, phonographs and talking films, divorcing it completely from communication enterprises.

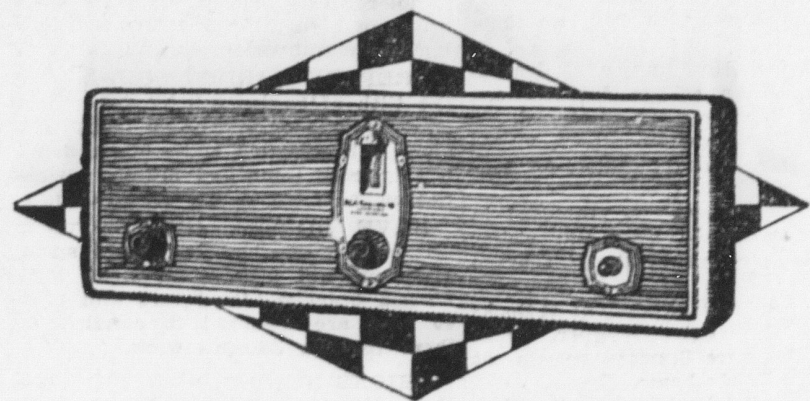

TORNADOES and rains have added to the horrors the South has had to endure lately. Taking stock of the damage while floods still raged in some sections it was found that 46 lives was the toll taken by the two elements in six states. The greatest loss of life was in Tennessee, where 20 lives were lost at Harriman, seven at Rockwood and three at Webster. Four of the deaths were in Kentucky. With the exception of Tennessee and Kentucky, where major streams were rising, conditions were improving over the South.

Along the upper Mississippi the river continues to rise slowly. Police and militia are on guard at the danger spots to protect the property of those who have been forced from their homes by the flood.

A COMIC opera revolt which broke out in the principality of Monaco lasted all of 25 minutes and left the country completely paralyzed for the most of a day. A band of 600 determined citizens marched to the castle of Prince Louis and forced him under pain of abdication to rescind the decrees which have recently turned the tiny principality into a hotbed of unrest. The most important decree that Louis was forced to repeal was that for the cancellation of the municipal elections. The citizens celebrated their victory by spending the rest of the day in a cafe.

Gladly Offered Life to Save Commander's

A young sailorman, Reuben James, after whom a United States destroyer is named, saved the life of Stephen Decatur, widely known naval officer. The incident occurred in a gunboat action in the war with the pirates of Tripoli. During the encounter young Reuben James stuck close to his commander's side, warding off the attacks made on Decatur from behind. When his right arm was disabled by scimitar cuts he shifted his cutlass to the left and fought on. Soon this arm was useless, too, and the weapon dropped from his hand. At that moment he saw a pirate lift his scimitar to strike Decatur's head as he lay on the deck locked in a death struggle with the Tripolitan captain. As both Reuben James' arms were useless, he deliberately put his own head in the way and caught the stroke aimed for Decatur. It was a mighty blow but the hard-headed sailor was back at his post in three weeks and lived to a ripe old age.

Sail Used as Landing Field
Tests with a large sail dragged by a moving ship and used as a landing place for hydroplanes are reported to have been successful in Germany. A plane repeatedly started and landed on the sail, which gave a smoother area than the water itself.

Sunday First Day of Week
Saturday is the seventh day of the week, Sunday being the first day and the day set apart among Christian nations for rest and public worship.

General admiration for what is called the he-man doesn't prevent the other kind from multiplying.

NICE WORDS WON'T DYE a dress or coat...

Neither pretty pictures nor colorful adjectives will dye a dress or coat. It takes real dyes to do the work; dyes made from true anilines.

Next time you have dyeing to do, try Diamond Dyes. See how easy it is to use them. Then compare the results. Your dealer will refund your money if you don't agree they are better dyes.

You get none of that re-dyed look from Diamond Dyes; no streaking or spotting. Just fresh, crisp, bright new color. And watch the way they keep their brilliance through wear and washing. They are better dyes because they contain plenty of real anilines—from three to five times more than other dyes.

The white package of Diamond Dyes is the original "all-purpose" dye for any and every kind of material. It will dye or tint silk, wool, cotton, linen, rayon or any mixture of materials. The blue package is a special dye, for silk or wool only. With it you can dye your valuable articles of silk or wool with results equal to the finest professional work. When you buy—remember this. The blue package dyes silk or wool only. The white package will dye every kind of goods, including silk and wool. Your dealer has both packages.
