4-CENT GAS BILL SIGNED BY GOVERNOR

Measure Will Yield \$9,000,000-License Two Cars Smashed Up at Pleasant Gap Fees Increase Will Add \$4,000,000

Governor Fisher approved the administration 4-cent gasoline tax bill. He also approved the revised motor code measure which increases the operators' license fee from \$1 to \$2, and beginners' license fee from \$2.50 to \$3, and makes substantial increases in the license fees of motorbusses, taxicabs and heavier types of commercial trucks The gasoline tax measure is expected to yield the State \$9,000,000 additional

revenue during the next biennium, while the boosted license fees are expected to yield another additional \$4,-At the same time the Governor approved nine of the bills comprising the

road construction program for the next two years, which involves expenditure of approximately \$13,000,000 more by the Highway Department in the next blennium than was expended during

A Nulsance Banned.

Hitch hiking has become such a nuisance that Pennsylvania motorists will Rock. be glad to hear that Governor Fisher's signature has made it against the law to solicit rides from motorists on highways in this State. The governor has signed a new bill which includes this among its provisions.

Hitch hikers are so numerous and so persistent that such a law has become a necessity. The primary reason for it is to protect motorists from being held up by robbers posing as hikers. Again and again there have been instances of motorists giving rides to persons picked up on Asighways, only to pay with their money, the cars, and in some instances with their lives.

Another effect of this law will be to curb the wanderlust in youth. It has not been wholesome for boys and young men-and frequenty young women-to wander about the country depending upon motorists for transportation, and often sponging upon them for food and lodging.

is usually but wrongly called, is, after Company in April established a new all, just a modern version of what all-time monthly production record a few years ago was known as "bum- with an output of 157,137 cars and ming," and the youth who started out trucks. Apparently brooding over personal troubes, Frank Stewart, 38, of Femington, committed suicide in the clothing store of H. H. Wilson, where he was employed as a clerk. He shot himself through the head.

NEW VEHICLE CODE

IN EFFECT JUNE 1ST Becauseof misunderstanding on the part of many motorists to the date when the new 40-mile speed limit in Pennsylvania becomes effective, the Centre County Motor Club has issued a statement, emprasizing that the increased speed provision will not be operative until June 1st.

"Numerous car owners" says the statement, "are under the impression that the 40-mile maximum speed became lawful with the passage of the amended Vehicle code. This view is erorneous, as most of the provisions of the code go into effect June 1."

Other points of interest to the motoring public are mentioned in the statement which explains that the amended code has clarified two important matters in relation to the "Through Traffic Stop" provision.

"Boroughs now are included in the section empowering the erection of the 'Stop' signs" says the statement, "Omission of borough's from the original code led to such confusion es pecially after motorists had been fined in boroughs for failure to observe the signs. As pointed out by the club several weeks ago the State refused to ac cept fines imposed for such offenses.

"Another clarifying clause has been added to the law providing that vehicles shall not be subject to the 'stop' sign at the intersection during the hours when a traffic signal is actually in operation or where a peace officer is actually on duty directing traffic.

"Motorists in the past year have frequenty been in a quandary at intersections protected by signals and the 'stop' signs. The intent of the authorities was to have the 'stop' signs guard the through route when the signal light was not in operation, but many motorists 'played safe' and stoproom. ned regardless of the signal to proceed with the result that traffic frequently was congested at such points." Reedsville is due for oiling this week.

PEDESTRIANS CAUSE UNAVOIDABLE ACCIDENT

Saturday Evening-Walkers Beat

It. This time it was the "walkers" who beat it, after having been the direct cause of two automobiles coming together head on on the highway at Pleasant Gap, and not the "at and run" driver. After catefully looking over the situation two State Highway patrolmen came to the conclusion that the accident was unavoidable and that neither party was guilty of an offense calling for arrest. The persons who were walking on the highway, with no apparent concern for the safety of themselves or others, beat it and could

not be discovered. One of the cars, a Pontiac, was being driven by Archie S. Detwiler, son of P. K. Detwiler, of Spring Mills. He was on his way home from Bellefonte. Samuel I. Auker, of Mifflintown, was driving the second car, a Buick. He was on his way to State College, and at the point of the accident was obliged to give road to several pedestrians. The accident occurred Saturday ever

PATRONS' DAY AT CENTRE HALL HIGH SCHOOL

Weather Forced Elimination of Nearly All Athletic Events-Basketry Club and Eating Stands Do Thriv-

ing Business.

Patrons' Day, observed by the C. H. H. S., on Friday, was well attended. The eating stand sold \$94.00 worth of eatables and the basketry club \$60.00. Considering the inclement weather this

is considered a fine showing. The exhibits were pronounced fine by the patrons and the school feels grateful that the work of the club members was appreciated. The clubs met twice a month and worked for a period of 11/2 hours at one sitting. The clubs represent work of an intensive type and it is therefore necessary that all work shall be well planned before the club meets.

The athletic events for the day were cancelled with the exception of the preliminary track events between Howard and Snow Shoe.

Snow Shoe took first place in the 50, 100 and 220-yard dashes, while Howard scored first in girls' standing broad, running broad and high jumps.

Sharer Farm Sold.

The Jacob Sharer farm, located or Local School Board Reduces Tax Mill- the State highway east of town was sold a few days ago to Mr. Sharer's son, Ray Sharer, who will move onto it school board, on Monday evening, the next year, at which time the elder tax millage for school purposes for the Sharer expects to occupy his new possession in Centre Hall. The farm conone mill, from 19 to 18, was made. The tains over one hundred acres of tillable
