The Centre County Hospital drive is on this week and residents in all parts of the county will be visited by solicitors. Keep in mind that hospitals are for the benefit of the unfortunate. You may be able to pay your way, and should you meet with an accident or become critically ill, you would want to have the better service offered by a hospital. But how would it be possible to obtain hospital benefits if it were not for the contributions by citizens made in the manner to be popular this week? At all events, don't speak ill of an institution that may sooner or later drive its ambulance up to your door and carry you to it, regardless of your desire now or then. Be fair when you write the check.

Since leaving here he has traveled extensively, having covered all but six States in the Union, but of all localities visited on business or otherwise, he stated, Centre Hall and its environs are today the dearest to him.

CENTRE CO. INTERSCHOLASTIC TRACK AND FIELD MEET

Records Broken by High School Students—Snow Shoe Will Permanently Retain Cup—Millheim Wins Largest Number of Points in Boys' Events.

The Centre County Interscholastic Track and Field meet held at State College last Saturday was one of the most successful ever held in this county. The competition was outstandingly keen; in fact, so close that just two points intervened between first and second places.

Snow Shoe in Class B had the better of the meet in total score and girls score, while Millheim won the largest number of points in the boys' events, thus winning the cup for same. Snow Shoe's win of total points gives them possession of the team cup.

Lewis, of Snow Shoe, was high scorer of the meet with 18 points. He won the 100-yard dash, 220-yard dash, and the shot put, setting new records in each and in addition placed second in the 440-yard dash and ran anchor man on this relay team which placed second. Swann, of Millheim, and Rishel, of Gregg Township, were very close with 11 1/2 to 11, respectively.

In Class A, England of State College and Witmer of Bellefonte each scored 11 points beside being on the relay team of their respective schools. England's team won first place which would give him a slight margin over Witmer. Dale of State College won the 100-yard and 220-yard dashes, giving him 10 points. Dunaway and McQuigg of State College each won 8 points, and Noll of State College came through with 7 points.

The competition this year, especially in Class B, was so keen that several records were broken. In Class A, the 220-yard, 440-yard and 880-yard, and the mile relay records were broken, while the high jump was equaled. The base ball throw record in Class A was broken and the 1/2-mile relay mark equaled.

In Class B the 100-yard dash, 220-yard dash, 440-yard dash, 880-yard dash, mile run, shot put and mile relay records were broken and the high jump mark was equaled. Snow Shoe girls' 1/2-mile relay team came through to break not only the Class B mark but the county mark. Miss Englert, of Port Matilda, made a new county mark in the baseball throw with a heave of 196 ft. 6 in., bettering the old mark by 11 ft. 6 in.

The C. C. L. A. A. wishes to take this means of expressing their thanks and appreciation to the Penn State Athletic Association for the use of New Beaver Field and to all those men at the college who so successfully conducted the meet.

The real estate of the late John D. Decker is being offered for sale by the administrator, Logan Decker. The date of the sale is set for Tuesday, June 11th, and will be held on the premises. While the property consists of twelve tracts, all contiguous, it will be sold as a whole—a tract of 650 acres. The improvements consist of a house and barn and three old log houses. The tract is located in Decker Valley, Potter township, and is an ideal hunting field, while a trout stream passes through it for a distance of nearly or altogether a mile.

FAIRM CALENDAR.

Timely Reminders from The Pennsylvania State College.

KEEP CHICKS WARM—Separating cockerels from the pullets at an early age usually makes it possible for the pullets to develop more rapidly. If the males are removed before they are old enough to do without heat some arrangement should be made to keep them warm and to prevent crowding after they are moved. Many cases of losses have been reported where cockerels were allowed to crowd after moving.

RAISE GOOD HELPERS—Cows are valuable or worthless as milk producers, according to their blood inheritance say State College dairy specialists. Do not waste time raising helper calves unless they are from good high-producing cows and from a sire who also had a high-producing cow for his dam.

DESTROY NEW WEEDS—Do not wait to see if a new weed will be a bad one before destroying it. Endless trouble and annoyance later may be avoided by promptly killing weeds in new infestations.

ROAD PROJECTS IN CENTRE CO.

\$400,000 for Secondary Roads—Route No. 250 Between State College and Waddle to Be Concrete at Cost of \$240,000—Remainder of Appropriation to Be Applied to Concrete Construction West from Potters Mills, the Eastern Terminus of Route No. 250.

Out of an appropriation of more than \$20,000,000 made by the legislature for improvement of secondary roads, Centre county has been awarded \$400,000. The matter of applying the sums awarded to counties was taken up by the Governor, the State Highway Department, Senators, members of the lower house and county commissioners at conferences held at Harrisburg. The Centre county commissioners attended such a conference recently and the program worked out is as follows:

The whole of the \$400,000 will be expended on Route No. 250. This route begins at Potters Mills, leading through Tusseyville, Boalsburg and State College to Waddle where it intersects with the Buffalo Run road, known as Route 250. The portion of this route lying between State College and Waddle will be constructed first. It will be a modern concrete ribbon road. The distance is about six miles. The approximate cost will be \$40,000 per mile, or \$240,000 for the strip. The remainder of the appropriation—\$160,000—will be utilized in building a similar road over the southern section of that route, beginning at Potters Mills westward.

A twelve year program has been laid out, and to accomplish it six successive legislatures will be asked to make appropriations. This program in Centre county contemplates a concrete road over all of Route No. 250, between Potters Mills and Waddle, and an extension of this route from Waddle to a point on the Bald Eagle road west of Martha; from there over that road to Port Matilda and north over the mountains to Philipsburg.

The argument presented in favor of the building over this route is that it would serve traffic coming from the southeast section of the State and make a direct connection with the Lakes-to-Sea.

In this connection note is made of the fact that the Old Fort road to Boalsburg has not been taken over by the State.

Well, when you can shake hands with your competitor—and mean it; when you can work hard in your business—and love it; when you can sense competition—and not knock it; when you can fight competition—and still boost it; when you can meet opportunity—and know it; when you know what is right—and then DO IT, THEN there may come an improvement in business affairs.
