New CHEVROLET Sixes on the road since Jan. 1st!

Today's Chevrolet is scoring a huge nationwide success because it represents one of the most sensational achievements in automotive history — a Six in the price range of the four.

The Chevrolet six-cylinder engine delivers its power freely, quietly, and easily throughout the entire speed range—delightfully free from annoying vibration and rumble. Combined with this remarkable six-cylinder smoothness are equally remarkable speed, power and acceleration—and an economy of better than twenty miles to the gallon.

In addition to such sensational performance the Chevrolet Six offers the outstanding advantages of Bodies by Fisher. And no car ever provided a more impressive array of modern convenience features—adjustable driver's seat and VV one-piece windshield in closed models, easy action clutch and gear-shift, ball bearing steering, and instrument panel complete even to theft-proof Electrolock and electric motor temperature indicator!
