

LOCAL AND PERSONAL.

Look at your label this week.
Mr. and Mrs. Fred Bender and children spent a few days the past week with relatives in the State of Maryland.
Mrs. John W. Zerby and daughter, Mary, now Mrs. William Luse, last week visited H. F. Stover, at Aronsburg.

Miss Miriam Moore, teacher of the first grade in the public schools at Hedgesby, was at her home here over Sunday.
Frank M. Dunkle, a well known salesman here for the Scull Coffee company, has been retired after forty years of active service with the firm.
The net pool price received by the Dairymen's League patrons for September is \$2.78 for 3.5 milk. This is the same price as paid for September milk in 1928.

Remember that on October 31st the time expires for a five per cent rebate on your tax. You have two weeks in which to make preparations for the saving.

Mr. and Mrs. Charles McCool and Mrs. Ellen Heckman, all of Spring Mills, drove to Centre Hall on Saturday and during the evening were guests of Mr. and Mrs. Samuel Bitner.

Miss Bertha Sharer and Miss Celia Delaney, students in the Altoona School of Commerce, were at their respective homes near town over Sunday. They are both taking the secretarial course and are very much pleased with their work.

Misses Mary and Nell Ward, of Phillipsburg, on Tuesday evening called on Miss Helen Bartholomew and Mrs. S. W. Smith, here, for a brief time. The ladies are school teachers in the Western Centre county town, and are attending institute this week.

Carl Bradford, of Muncy, had the Spring Mills railroad station in charge during the absence of J. C. Lee. He is now at Snow Shoe in the capacity of extra agent. Mr. Bradford is a son of Mr. and Mrs. P. C. Bradford, of Lemont.

Squire E. T. Jamison, of Spring Mills, who improved his home during the summer by adding a front porch and repainting the entire structure on the exterior, is making additional minor improvements at this time, and is filling in the vacant lot adjoining.

P. C. Bradford, W. F. Bradford, J. C. Lee and Clyde Elster, station agents on the L. & T., respectively at Lemont, Centre Hall, Spring Mills and Coburn, were at Sunbury on Tuesday taking the stated examination and receiving instructions in their line of work.

Paul Palmer, aged about eighteen, fell in making a jump in a barn on Sunday evening, and broke his left arm above the wrist. The fracture was reduced by Dr. Miller, of Millheim. The young man is a farm hand and employed by Franklin Sharer, east of town, where the accident happened. He is a brother of Mrs. Sazer and a son of Blaine Palmer, the carpenter, of Potters Mills.

Prof. William H. Reish, of the Penn State College faculty, was a pleasant caller at this office on Tuesday. Prof. Reish, a former Centre Hall boy, has been an instructor in the school of mechanical engineering at Penn State for the past ten years. He was graduated from that institution twelve years ago, and the two years following his graduation were spent in the employ of the New York Central Railroad at Jersey Shore.

Harry Lutz, who last spring had a public sale of farm machinery and stock on which the auctioneer collected a commission on over \$11,000, will again take up farming on his farm east of Bellefonte, now tentatively by Boyd Samped. It is presumed Mr. Lutz's son will play a large part in farming in the future, and in the meantime, it is said, he will marry. Since leaving the farm last spring, the elder Mr. Lutz has lived in Bellefonte and not at all contented, so back to the farm he will go.

S. E. Peterson, of Chicago, was a guest of W. W. Kerlin of the Kerlin poultry farm here for a few days last week. He is accountant executive of the Behl & Harvey advertising agency, and with Mr. Kerlin was working out a radio broadcasting program for the approaching baby chick season. Several of the larger hatcheries have used the "air" for their advertising with satisfactory results during the past season and find that the advertising through the "micro" is not only effective but less expensive than the method formerly used.

It will be of interest to the local public to know that "Pure Oil Pep" gasoline, a new product by the Pure Oil Company, New York, is named for Clarence G. Pepon, a brother of H. L. Pepon, and a son of Mrs. Cora E. Pepon, who lives with her son here. Mr. Pepon is the sales manager of the Pure Oil company, which company put on a radio broadcasting advertising program on Monday evening from New York. Among the artists who helped entertain were Al Joison, Bobb Daniels and Ann Pennington. The Pepons here listened in on the program which came through almost faultless.

POOR HOUSE QUESTION FOR CENTRE COUNTY

While it is not absolutely certain, it is generally believed the question of the establishing of a county Poor House in Centre county will not be voted on at the next election. It appears not sufficient signatures to the petition have as yet been obtained. If the question should happen to find its way on the ballot, the voter will have no chance to inform himself on the matter, and in that case he should vote "against."

Bodily Strength Not of Importance Today

The body of man is not what it used to be. The big-boned, muscular, prognathic, hairy, stupid ape man has given way to the smooth-skinned, bald, slightly corpulent, spindly legged and thin-armed mental dynamo.
For the sharp-nosed, keen-eared savage with quick vision, sensitive touch, and rapid response, substitute the alert braided, heavily bespectacled, false-toothed director behind a desk.

From his sanctum lead the tentacles of electric transmission and intensification of voice bidding to action. For weakened vision modern man prescribes telescopes, periscopes and microscopes as well as optical lenses. For the ears there are radio tubes, microphones and audition devices. For the sense of touch are provided callipers and other instruments of measurement more fine than the fingers of Jimmy Valentine.

And though the sense of smell is not aided mechanically, the smells themselves are intensified to the point where they are obnoxious and overpowering. One wonders, indeed, how men tolerate now the oily, irritating, suffocating vapors resulting from the combinations of thousands of motor car exhausts and the evaporation of the covering of oiled roads.

Muscles—except those of the heart and internal organs—are a well-nigh unnecessary attribute for modern man; the power of the machines makes brute strength merely a matter for exhibition and dramatic show.—Morris Fishbein in the Yale Review.

Family Keeps Sword of Patriot Ancestor

The great two-handed sword with which Robert the Bruce fought at Bannockburn has been handed down from generation to generation of the Bruce family who possessed Clackmannan tower. The last survivor of this branch was Mrs. Catherine Bruce, a lady of remarkable character and strong Jacobite convictions, who was convinced that her possession of the royal sword of Scotland gave her the prerogative of conferring the honor of knighthood. She thus honored many visitors to Clackmannan tower, among them Bobbie Burns, who visited her when she was a nonagenarian. As Burns rose to his feet he gallantly kissed the old lady's hand. "What ails thee at my lips, Robin?" the ancient dame is said to have asked.

Just Her Way

All in one evening, while dancing with me, she said:
"The hall is so hot, I'm cooked."
"I'm crazy about dancing."
"I was petrified, when I saw him."
"That light is so glaring it makes me blind."
"Can't you shut the window? I'm frozen stiff."
"You make me sick."
"I nearly had a fit when he told me about that joke."
"The last partner I had drives me insane."
"I simply died laughing."
"I was perfectly dumb."
"I'm so tired, I'm just dead."
Then when I looked at her she seemed as alive and healthy as ever.

Of Course

In a plea for more careful use of English, Professor Jordan said:
"A great many American expressions are directly contrary to what we really mean, and the real reason why the English are sometimes perplexed when an American tries to say something. The story of how a say 'lookout' when we mean 'look in,' is a sample.
"The other day, on the bench, I heard a young girl ask: 'If I were drowning, would you help me?'
"No," said the young man evidently an Englishman, 'I'd endeavor to prevent you.'"

Famous Educator

William Holmes McGuffey was an American educator, born in Washington county, Pa., in 1790; graduated at Washington college, Pa., in 1825. He was a professor of ancient languages and later of moral philosophy in Miami university in 1836-39; president of the Ohio university in 1839-43; professor of moral philosophy in the University of Virginia from 1845 until his death in 1873. He compiled the so-called "Eclectic Series," and other school books.

No Atmosphere on Moon

The absence of atmosphere on the moon is proved by the fact that at the time of an eclipse of the sun the moon's limb is perfectly dark and sharp, with no apparent distortion of the sun due to refraction. Similarly, when a star is occulted by the moon it disappears suddenly and not somewhat gradually as it would if its light were being more and more extinguished by an atmosphere. There are other indications which lead to the same conclusions.

LUSE-ZERBY.

William C. Luse and Miss Mary Zerby were united in marriage at the home of the bride's parents, Mr. and Mrs. John W. Zerby, near Farmers Mills, Saturday afternoon, 2:00 o'clock, by Rev. S. F. Greenhoe, pastor of the bride's church. Only the immediate families of the bride and groom were present. Dinner was served after the ceremonies.

The bride is a former school teacher, having prepared for her profession in a State Normal, and taught in Gregg and Potter townships and Centre Hall borough. The groom is a son of Mr. and Mrs. C. W. Luse, who live on a well equipped farm east of town, and it is there the young couple will begin housekeeping, and take complete charge of the farm as soon as the elder Luses move to Centre Hall, preparations for which event are now underway.

After the wedding dinner the young couple left for a wedding trip by auto to Washington, D. C., and on through Virginia.

School nurse says
all girls should
know this

TALKING to a roomful of high school girls on personal hygiene, an experienced district nurse said: "One of the basic rules of health for girls is to keep the system functioning naturally at all times. Normal exercise and diet habits should be encouraged. But when necessary there's no harm in taking nujol, since it works mechanically and can't disturb the normal functions of any organ of the body. Particularly with girls, there are times when nujol should always be taken. Take a spoonful every night for a few days. It's a thoroughly safe and harmless method. It won't cause distress or gas pains or griping."
Nujol is different from any other substance. It contains no drugs or medicine. It can be taken safely no matter how you are feeling because it is so pure and harmless, and works so easily. Every woman should keep a bottle on hand. Every druggist has this remarkable substance. Get the genuine.

"KIDS"

Worth selling is worth telling—advertisement

..and it has the Cross-flow Radiator safer in zero weather

In a field of twenty-one medium-priced automobiles, only Oakland has the Cross-flow Radiator. Yet this radiator is recognized as one of the greatest automotive developments of recent times. Its design is revolutionary. It practically eliminates losses of water and alcohol through boiling. And as a result it is safer in zero weather. Dozens of other features combine with the Cross-flow Radiator to make Oakland America's finest medium-priced automobile. Come in and learn how easily you can own an All-American Six.

Prices, \$1145 to \$1375, f. o. b. Pontiac, Michigan, plus delivery charges. Spring covers and Lowjoy Shock Absorbers included in list prices. Bumpers and rear fender guards extra. General Motors Time Payment Plan available at minimum rate.
