ROAD SUPERVISORS AND AUDITORS IN CONVENTION

The annual convention of township road supervisors and auditors in Centre county met in the court house on Thursday. Addresses were made by C. D. Felton, of the Pennsylvania Department of Highways; S. W. Jackson, township engineer of Clearfield county; Judge Ward Fleming and R. F. Hunter.

County Commissioner Wilson informed the convention that the board had set aside \$400 to be appropriated toward the reimbursement of townships in building roads of a permanent character under the State reward plan, the fund to be not over twelve and one-half per cent. of the total cost of the road.

A resolution was adopted on the subject of maintenance funds allowed by the State. The State now limits its payment to \$100 per mile. The convention holds that sum "is unreasonable and unfair," and asks that the State pay at least one-half of the cost, including oiling and chipping of such roads as are agreed upon by the board of supervisors and township engineer.

Also, that the State make partial payments to townships during the building of State reward roads in proportion to the work done on each State reward agreement.

The resolution was prepared by a committee composed of J. D. Shook, Penn.; F. A. Carson, Potter, and H. M. Hosterman, Harris.

The officers elected were as follows: President, H. S. Winkler, Harris; vice-president, Bruce Rossman, Penn.; secretary-treasurer, F. A. Carson, Potter; delegates to State convention: 3 years—H. S. Winkler, Harris; 2 years—George D. Fortney, Harris; 1 year—A. V. Hefferson, Rush. Alternates: Frank Wasson, College; D. Chronister, Huston; W. E. Shively, Taylor.

DEATHS

HENNIGH—Simon Peter Hennigh, a prominent citizen and churchman here, passed away at the home of his son, Ellis Hennigh, the homestead farm in George Valley, shortly after noon hour Wednesday of last week, from angina pectoris. He drove to the old home the day previous, and shortly after reaching there became ill, gradually growing weaker until the final end.

Funeral services were held from his home in Centre Hall on Saturday forenoon, and burial made in Egg Hill cemetery. The services were conducted by Rev. W. E. On account of the annual Farm Bureau meeting of Centre County Pomona Grange has been changed from Saturday, November 23rd, to Saturday, November 16th, at Centre Hall.

Not from lack of usage but no doubt from the seeming adaptability of conditions led a pair of field mice to build a nest in a mail box on Route 2 from Centre Hall. The box so utilized belongs to Clarence Haugh at the extreme eastern section of the route. C. E. Flink, substitute carrier, on opening the box to place mail into it found a mouse scrambling from it. Looking into the box, a second little rodent was found snugly lying in a nest, and looking up appealingly appeared to say, "Please don't Charley," and Charley didn't.

"What! A weather bureau?" The Weather Bureau at General Motors Proving Ground, at Milford, Mich. Testing a car's performance in heavy rain. From actual photograph. Drawn from a photograph of a car being tested on snowy roads.

VISITORS to General Motors' 1268-acre Proving Ground marvel at the sight of a complete weather bureau and ask what it is for. The answer is that in the testing of cars every possible factor that might affect a car's performance is considered by General Motors' engineers. So precise are some of the tests that even the difference between a sunny day and a partly cloudy day—or between a north breeze and a south breeze—is considered. With each day's record of the mechanical tests applied to a car on the roads and hills of the Proving Ground is included a report of the exact weather conditions prevailing. The engineers then can know how weather affects performance, and can have a comparable record so that every car tested is given an equal opportunity to prove itself under exactly the same conditions. Advance models of all the cars listed below were proved at the Proving Ground before they were introduced to the public. Read about them; then clip and send the coupon.
