CENTRE HALL, PA., THURSDAY, JANUARY 2, 1930.

NO. 1

WHITE ROCK QUARRIES KEEP ABREAST OF TIMES

Brief Account of Expansion of Company Since Its Beginning in 1905.—Proposed Immediate Expansion—Capacity of Plant and Its Officers.

Few of our readers have proper conception of the immense size and the capacity and output of White Rock Quarries, located at Pleasant Gap. The original plant went into operation in 1905, with six lime kilns and a small crushing plant. In 1914 the company was reorganized and the capital stock increased. Twelve additional lime kilns were built and a number of other improvements made. Of the eighteen kilns all except one are yet in operation, having been rebuilt or improved from time to time.

Beginning of 1924 the present management took charge and the entire personnel was reorganized. An expansion program was immediately begun and has been carried out during the past five years, all the work being financed out of the earnings during that period.

In the period since 1924 the changes made have included the erection of the lime hydrating plant, the lime storage building, a new lime kiln, three pulverized stone storage silos, a machine and blacksmith shop, and a storehouse for parts and equipment. In addition the power house and crushing plant have been rebuilt and considerable new equipment installed. These include three pulverizing units, two compressors, three gasoline locomotives, two steam shovels, a crusher, a tractor, several grinding units and a considerable amount of minor equipment. Practically the entire plant has been electrified during this period. Sixty-two electric motors are in use, ranging in size from one to two hundred horsepower. The program for the next three years calls for considerable expansion in all departments. The first will probably be in the lime plant, where new kilns will be erected. No temporary installations are ever made. All new buildings are of solid fireproof construction with concrete floors and foundations.

The company's holdings of approximately 900 acres of marketable limestone extend for a distance of about three miles east and west through Nittany Valley. In addition to these deposits, the company owns the stone rights on 200 acres of high calcium limestone in the vicinity.

The stone formation in this part of Pennsylvania belongs to the Cambrian-Ordovician age and the strata are estimated by geologists to be 7,200 feet thick. The company has drilled at different points to depths of 1,400 feet without penetrating the marketable stone. The supply is therefore practically inexhaustible.

The method of working the quarries with faces of as much as one hundred and ten feet, the detail of making shots bringing down an estimated 30,000 tons of stone, would be highly interesting to many, but cannot be done in this article.

The stone for open-heart furnaces, crushed and pulverized stone is shipped mostly entirely within the State. Lime products, however, are shipped to eleven different States and some is exported. The plant has a daily capacity of 1,200 tons of crushed stone, 1,000 tons of open-heart stone, 150 tons of all kinds of hydrated lime and 125 tons of rock dust and agricultural limestones. A considerable quantity of glass makers' stone is also produced.

The plant employs about 240 men on all shifts, most of them living at Pleasant Gap. The quarries and the crushed stone plant operate only in the daytime, while the lime kilns, hydrating plant and pulverizing plants operate twenty-four hours a day.

Power is obtained from the wires of the West Penn Power company, at 22,000 volts and is reduced by an outdoor substation at the plant to 2,300 volts. This voltage is to be used on several new motors now being installed. The current is further reduced to 220 volts for general plant use.

Unusual attention is given to the safety of the employees and the plant has a very good safety record as a result. There are fourteen first-aid teams, all of which have passed the tests of the Bureau of Mines. All employees are encouraged to make suggestions for increasing safety or improving operations and are given a bonus if their suggestions are accepted. Most of the employees, especially those in the crushing, kiln and hydrating departments, are old hands, some of them having been employed for eighteen years. All of the foremen have risen from the ranks.

The main office of the company is maintained in Bellefonte. The officers are: W. Fred Reynolds, president; A. Fauble, vice president; Ray C. Noll, treasurer and general manager; and L. A. Schaeffer, secretary. W. E. Saxton is superintendent.

Boalsburg Man Has Hand Mangled In Chop Mill

Repairing a corn breaker at his chop mill near his home, William Tenny, the well known Boalsburg merchant, accidentally thrust his hand into the breaker and had it badly mangled. He was taken to the Centre County hospital where it became necessary to amputate the first three fingers of the right hand. The mill is operated by a Ford automobile.

Freak Calf in Union County

A calf with two heads, two ears, four eyes and two mouths was recently born on the farm of W. C. Kuhns, of Kelly township, Union county. The animal lived, and in other respects seems to be normal.

ROAD BUILDING IN 1930 WILL BREAK RECORDS

Force of 25,000 Men to Be Employed in Highway Construction in Pennsylvania Next Year, Says Secretary Stuart.

The greatest highway reconstruction program in the history of the State will result in approximately forty per cent. greater employment in 1930 as compared with 1929, according to James Lyall Stuart, secretary of the Pennsylvania department of highways.

As almost twice as many miles of road will be built in 1930 as in 1929, a full year program has been laid down which will mean longer employment for the workers as well as more work. In addition, the enormous amount of materials required for this work will speed up the cement, stone and sand industries, while practically all lines will feel the benefit of the workers' increased spending power.

A force of 25,000 men will be employed directly in the construction program, 15,000 by the contractors and 10,000 by the department, while at the peak season of 1929 only 16,000 were employed. A total of \$70,000,000 will be expended for the highway building program.

"The program we have outlined," Stuart said, "calls for paving 1,000 miles of road by contract and 300 miles by department forces. These figures include State 100 per cent. construction, federal aid improvement, State-aid to counties and 100 per cent. construction under the department's direct supervision, and covers all types of surface improvements.

"In contract, the 1929 accomplishments include 529 miles of paving by contract, including new surfacing and replacement and 185 miles by department forces. The latter figure covers new surfacing, replacement and resurfacing. The total is 714 miles.

"Our 1930 program will utilize 4,000,000 barrels of cement, 4,000,000 tons of stone, slag and gravel, and 1,700,000 tons of sand.

"Aside from men employed in actual road construction, large equipment manufacturers and material producers. The program will be responsible, directly and indirectly, for the employment of forces aggregating three times the total strength of the Pennsylvania National Guard.

"The objective we have established for 1930 means a full year of work, despite the practice in other years of closing down with the advent of cold weather. It's a big job and it will mean a banner year in the history of the department.

Jacob Sharer, Jr., Purchased Farm

The Harry Frankenberg farm, east of Centre Hall, was recently purchased by Jacob Sharer, Jr., of Spring Mills. The farm contains about eighty acres. Mr. Sharer has been employed at the Spring Mills mill since near the beginning of the opening of the mill there, and is now one of the foremen. For the present he expects to remain at the mill.

The farm was leased by Mr. Sharer to his brother-in-law, for three years employed at the Hagan garage in Centre Hall. This will be his first experience in farm management, but he has had plenty of experience as a farm hand in which line he was classed as a topper.

After Game Law Violators

Many hunters in Huntingdon county are anxious to know when the efforts of Game Commissioner B. A. Benson will cease. Last week sixteen additional informations charging violations were made.

Seven of those informations were for additional members of the Smith-Merritts hunting camps in Brady township, Huntingdon county, not taken in the fines of \$7,710.00 already imposed on 11 members of the gang of hunters, and the sportsmen of nearby counties are anxiously awaiting further developments, which will probably occur during the next week as warrants are served by the officers.

A party of hunters, near Huntingdon, operating on somewhat the same principle as the Smith-Merritts crowd, are being rounded up. The information relative to these violations are in the hands of the officers.

Game Protector Benson and District Supervisor Myers are also working in Todd township, cleaning up a third crowd of law violators.

Clayless Radio Tubes Run Over 1000 Hours

Radio tubes which were operated for more than one thousand hours at over-voltage conditions were described by Dr. Louis Navias, research chemist for the General Electric Company, in his concluding Priestley Lecture at the Pennsylvania State College. Dr. Navias ascribed the long life of the tubes to the ceramic material developed to support the tungsten filament. One common cause of radio tube failure, he said, was the production of gas within the tube which reduced the partial vacuum. Another cause of failure was the burning out of the filament due to the reaction of the filament to its insulator.

A ceramic material developed for the insulator from high melting oxides and made without the use of clay has avoided these conditions, Dr. Navias said, with the resulting improvement in the life of radio tubes.

The borough and Potter township public schools, closed for the Christmas vacation, opened Monday. New Year's day was not observed as a holiday.

CENTRE COUNTY HOSPITAL NOTES.

Mrs. W. H. Sortman of Marlon township, was discharged on Monday.

Harry Kramer, of Bellefonte, was discharged on Tuesday after having undergone medical treatment.

Kenneth McCauley, of Walkertownship, a medical patient for the past seven weeks, was discharged on Tuesday of last week.

Wm. Keeler, of Spring township, was discharged on Tuesday after having been a medical patient for the past two months.

Mrs. East Houck, of Bellefonte, a surgical patient, was discharged Tuesday of last week.

Wm. Tennis, of Harris township, was discharged Tuesday of last week after having undergone surgical treatment.

Mrs. Sally Greenhoe, wife of Rev. Samuel P. Greenhoe, of Centre Hall, became a medical patient last Thursday.

Mrs. Bernadine Williams, of Hustontownship, was admitted last Thursday for surgical treatment.

Mrs. Mary Clement, of Bellefonte, a medical patient for the past seven weeks, was discharged last Thursday.

Miss Margaret Rockey, daughter of H. W. Rockey, of Ferguson township, died last Friday.

Mr. and Mrs. Edward Brown, of Bellefonte, are the proud parents of a baby boy born at the hospital last Friday.

Miss Bessie Brown, of Ferguson township, a surgical patient for the past two weeks, was discharged Friday.

Mrs. James Brewer, of Bellefonte, was discharged on Friday after having undergone medical treatment for the past five weeks.

Mr. and Mrs. Wm. Keeler, of State College, are receiving congratulations on the birth of a daughter at the hospital Saturday morning.

Mrs. James Thompson, of College township, became a medical patient on Sunday.

Miss Mary Foster, of Aaronsburg, became a medical patient on Sunday.

Forrest Schindler, Mifflensburg, is a patient at the hospital receiving treatment for injuries sustained Sunday morning when he was caught under a fall of rock at the White Rock Quarries at Pleasant Gap.

An X-ray examination Monday morning revealed a dislocated hip and a fractured collar bone.

Mrs. Charles Mong, of Mifflensburg, was admitted Monday for medical treatment.

Jacob Marks, of Bellefonte, on Monday was admitted to the hospital for medical treatment. His many friends in the county will be pleased to know that he is recovering nicely.

There were 34 patients in the hospital at the beginning of this week.

STUDENTS AND TEACHERS HERE FOR HOLIDAYS

The Christmas holidays brought a number of former high school students to their homes for Christmas.

Ernest Wagner and Miles McClellan are attending Lock Haven State Teachers' College.

Students from Shippensburg State Teachers' College: Aigie Emery and Fay Bradford, both specializing in primary teaching; Beatrice and Dorothy Brown, specializing in intermediate teaching.

Four girls who graduated from the local High school last spring are attending business colleges: Celia Delaney and Bertha Sharer are studying shorthand at Atona Business College; Myra Spuyker is attending Williamsport Commercial College, enrolled in the secretarial curriculum; Dorothy Emerick is enrolled in the secretarial course at Potts Shortland College, Williamsport.

Penn State students home were: Ralph Neff, a senior studying electro-chemical engineering; Emelyn Brunhart, a sophomore enrolled in the School of Education; Eugene Burkholder, studying floriculture in the School of Agriculture; Margaret Luse, a sophomore, enrolled in the School of Liberal Arts.

Clayton McKinney an Bruce Sharer, freshmen, are studying forestry; Joseph Ramer, sophomore, studying electrical engineering; Henry Blausner and Eugene Colyer, both freshmen in the School of Agriculture; Wm. McCormick, freshman, has chosen chemistry as his major study; it is the first year for Helen Neff, in the Home Economics course.

Bruce Knarr and Wilbur McClellan are enrolled at Beckley Business College, Harrisburg.

Grace Wible, who teaches the Armagard school in Benner township, was home for the vacation; Ellen Burkholder, a teacher in the Williamsport Junior High, was also at home.

A few of the Penn State students from Spring Mills home for vacation were: Kathryn Rishel, Emma Walker, William Walker, Stanford Hettinger and James Hosterman.

During the latter days of the hunting season Robert Fulton, Jr., was accidentally seriously wounded in the arm, and was rushed to the Lewisport hospital where it was thought the arm might be saved. The hunter was on Jack's Mountain, east of Shradler, and dropped his gun. The hammer struck a log, discharging the weapon, the bullet, (a pumpkin) striking him in the fleshy part of his left arm between the elbow and shoulder, tearing the muscles, and shattering the bone on its way through.

HIGH SCHOOL ALUMNI GATHER IN THIRD BANQUET

Eighty "Old Grads" Make Merry in Song and Story—Guy W. Jacobs, Toastmaster—Clay W. Reesman, Guest of Honor.

An assemblage of eighty spirited "old grads" disbanded from the banquet hall to the strains of "Till We Meet Again" last Friday night, December 27th. This was the third annual banquet of the Centre Hall Alumni Association.

The guests of honor for the occasion were toastmaster Guy W. Jacobs, class of 1905, from Steubenville, Ohio, and Clay W. Reesman, from Camden, New Jersey. These two alumni and their wives motored to the home town to participate in the alumni festivities, and their speeches, filled with wit and spirit, were greeted with cheers of appreciation from those present at the banquet.

The banquet hall was festooned with streamers of crepe paper in orange and black, the High school colors. The tables were decorated with bowls of artificial flowers and each place was marked by a tiny favor in the form of a candlestick. The dinner, the menu of which follows, was prepared and served by the ladies of the Progress Grange:

Celery	Roast Chicken	Olives
Mashed Potatoes	Lima Beans	Pears
Ice Cream	Pineapple Salad	Cake
	Coffee	

Between the courses of the banquet Martha Wert '27, the song director, led in the singing of old and new songs and song stunts.

The classes '13, '19, '20, '25, and '29 were honored this year and each was represented on the program by a toast. The program follows:

Toastmaster, Guy W. Jacobs '05.
Song director, Martha Wert '27.
Pianist, Sara Runkle '25.

Miss Agnes Geary '23, president of Alumni Association.

William Reish, toast, class 1913.
Mrs. Ernest Frank, toast, class 1919.
Harvey Flink, toast, class 1920.
Solo, Miss Miriam Moore '26.
Clay W. Reesman.

Ralph Neff, toast, class 1925.
Wilbur McClellan, toast, class 1928.
Miss Myra Spuyker, toast, class 1929.
Solo, Harry F. Hubler '09.
J. F. Wetzel, Advisory President.

Miss Miriam Moore '26, and Harry F. Hubler '09, carried out the spirit of the occasion in their solo selections. Miss Moore's principal number was "Coming Home" and Mr. Hubler presented an opportunity for reminiscence in his encore "That Old Gang of Mine."

A committee composed of Miss Verna Rowe '13, chairman, Mrs. Warren Homan '19, Miss Sara Runkle '25, Paul Fetterolf '24, and Ernest Frank '20 had charge of arrangements for the banquet.

Week of Prayer in Rebersburg

The annual Week of Prayer among the churches will be fittingly observed in Rebersburg where the several congregations will conduct a union service each evening, as follows:

Sunday, January 5, in the Evangelical church—Rev. Fry, speaker.

Monday, January 6, in the Evangelical church—Rev. McClellan, speaker.

Tuesday, January 7, in the Reformed church—Rev. Schectery, speaker.

Wednesday, January 8, in the Reformed church—Rev. Fry, speaker.

Thursday, January 9, in the Lutheran church—Rev. McClellan, speaker.

Friday, January 10, in the Lutheran church—Rev. Schectery, speaker.

The service on Sunday evening will be at 7:00 o'clock; other evenings at 7:30 o'clock. Everybody is welcomed to these services.

Two Men Crushed to Death

One of the two men crushed to death when a coal truck was thrown over an embankment near Phillipsburg, was George W. Koch, and the other William E. Johnson, both of Pine Grove Mills.

Mr. Koch had been operating a fleet of trucks to the coal mines, and it was while on one of these trips that the five tons of coal crushed out the lives of the two men.

Mr. Koch was a son of Amos and Harriet Koch and was born at Spring Mills forty-six years ago. The greater part of his life, however, was spent in Ferguson township. His wife has been dead for some years, but he is survived by six children: Robert and Mrs. Etta Harpster, of Pine Grove Mills, Catherine, Helen Ada and Charlotte, at home. He also leaves his mother, living at Aaronsburg, and the following brothers and sisters: Harry N. Koch, of State College; Daniel, of Sunbury; Frank, at home with his mother; Mrs. Nora Nees, and Mrs. Elizabeth Reesman, of Millheim; Mrs. Isaac Campbell; and Mrs. Maude Fogleman, of Leont, and Mrs. Ruth Coxe, of Altoona.

Mr. Johnson, who was 56 years of age, was a son of Daniel and Catherine Johnson and was born at Struble. He was a retired farmer. He married Mary Wilson who survives with four children, Chester and Harry, whose whereabouts are unknown; Mrs. Beulah Kline, of Alliance, Ohio, and Eunice, of New York city. He also leaves five brothers: Austin, of Axe Mann; Emory, of McDonald, Ohio; Cyrus and Owen, of State College, and Joseph, of Pine Grove Mills.

John M. Lusa, of State College, is reported to be suffering from stomach trouble of a rather serious nature.

YULETIDE WEDDINGS

REIBER-BROOKS.

Without previous announcement, except to their respective families, Curtis B. Reiber and Miss Frances Brooks drove by auto to Reading the day after Christmas and there were united in marriage by Rev. W. C. Dunlap, of the Lutheran church, and close friend of the Brooks family. They continued their trip to Atlantic City, N. J., and other points, returning home Saturday.

The groom is a son of Mrs. Della Reiber, of town, and is engaged in the milk business here. During the Christmas mail rush, he was an extra clerk in the Lewisport post office which position he acquired by having been placed on the Civil Service roster through the regular course of examination.

The bride is the eldest daughter of Mr. and Mrs. J. C. Brooks, of near town, and is engaged in teaching the Manor Hill school in Potter township, close to her home. After graduating from the Centre Hall High school she further prepared for teaching at Lock Haven State Teachers' College, and is now successful teaching her second term. She is a young woman held in the highest esteem by her companions, and acquaintances of more mature age, all of whom will join in wishing her and her husband the best things in life.

THOMAN-GROVE.

The marriage of Arthur H. Thoman, of Ford City, and Miss Ruth C. Grove, took place at the home of the bride's father, E. Howard Grove, in Centre Hall, on the night before Christmas, Rev. S. F. Greenhoe being the officiating minister, who used the ring service of the Lutheran church to unite the two young people in the bonds of matrimony. The couple were attended by intimate friends, namely, Mr. and Mrs. Clayton H. Homan and Mr. and Mrs. Harold Durst, while the guests were members of the Grove family, and close friends in and about town.

The bride has been employed at the Kelvin poultry plant since graduating from a Williamsport business college, which followed her graduation from the local High school. She is proficient in her line of office work, and has been active in various other movements and organizations. She is a young woman of fine qualities and will be able to preside over a home in a manner to make it attractive and give it a real home atmosphere.

Mr. Thoman is employed by the Pittsburgh Plate Glass Company, at Ford City. He is a high class machinist and has an enviable earning power. He is a German by birth, but has mastered the English language and along with his work has given vocal music considerable study.

Mr. and Mrs. Thoman left here for Cleveland, Ohio, and other middle-west points on Christmas day. In a short time they will take up house-keeping in Ford City.

After the ceremony a wedding supper was served. The couple received numerous gifts of value.

CELEBRATE FIFTIETH WEDDING ANNIVERSARY

Mr. and Mrs. Michael Smith, of Pottery Mills, celebrated their fiftieth wedding anniversary on Christmas day. Besides the many lovely and useful gifts they received from kind friends and neighbors, they were given a supper and a cake with fifty candles, made by Mrs. Guy Corman, of Spring Mills.

Mr. and Mrs. Smith wish to thank all who were so kind in remembering them so generously with money and so many useful things.

S. S. Teacher Nicely Remembered by Her Class

Mrs. S. W. Smith was the recipient of a beautiful quilt from the members of the Senior Service Class in the local Lutheran Sunday school, of which she is the teacher, at the monthly meeting of that class, just before Christmas.

The gathering was held at the home of Mrs. Jacob Sharer, one of the class, who entertained the members in a royal manner, the refreshments being a very delightful feature of the evening's program.

The class has increased the funds of its treasury by gathering at various times at "quiltings," and have "done" some beautiful and elaborate quilts for many individuals in the past. The particular quilt presented to Mrs. Smith was one which the class finished a short time ago. It was cleverly planned by all save the teacher that the quilt was to be purchased by a party in town, and Mrs. Smith, together with all the other members, worked painstakingly on the quilt for a number of days, with the result that when completed it was a thing of beauty and highly prized.

At the recent class meeting the members, with a display of genuine sincerity and pleasure, presented their beloved teacher with the thing which represented their labor of love. Needless to say, Mrs. Smith was the most surprised person at the gathering, and accepted the gift in that spirit of appreciation which is one of her loving characteristics.

The First National Bank of Centre Hall is putting out a novel souvenir for 1930 in the form of a thermometer. Instead of the temperature being shown by a column of mercury, scored above and below the zero point, the thermometer in question indicates the house temperature by swinging a steel tongue from ten to one hundred degrees above zero. The novelty is in the form of a disc and may be hung on a wall.

TOWN AND COUNTY NEWS

HAPPENINGS OF LOCAL INTEREST FROM ALL PARTS.

The Christmas vacation at Penn State ends today (Thursday).

Miss Marion Ethel Dale, of Bellefonte, was the guest of Miss Mary DeLinda Potter, over Christmas.

The members of Sunset club will gather at the club house this (Thursday) evening. Refreshments will be served.

The community Christmas tree was located to the front of the Evangelical church. It was well lighted and attracted much attention.

Mrs. Lou Reynolds, a resident of Centre Hall some thirty years ago, is spending the winter in Dallas, Texas, with her daughter, Luella, now Mrs. Carroll.

A. M. Riegel, the local stock buyer, purchased from J. Cloyd Brooks, a few days ago, the largest hog sold in this section of the state this year. The porker weighed 772 pounds.

Edward Durst was accompanied to the Phoebe Home, Allentown, by Mrs. Ruth Ross Gearhart, of Linden Hall. They visited the former's aunt, Mrs. Carrie Geary, at the institution named.

Louis Beightol, partnership farmer with F. M. Fisher on the latter's farm near Penn Hall, sold a registered Holstein bull, fattened for the market, that drew the scale beam to the 2000-pound mark.

Mr. and Mrs. W. W. Reitz motored from their home in Athens, Georgia, to spend the Yuletide in Centre Hall with the latter's mother, Mrs. Margaret Thomas, and sister, Miss Jennie Thomas.

A concrete road construction contract was let to D. L. Riser, Lebanon, for \$375,816. The road will be 6.94 miles in length, and is located in Rush township, South Phillipsburg and Phillipsburg boroughs.

The Greyhound line motor coaches, running between Pittsburgh and Philadelphia, over the Lincoln and William Penn highways, discontinued service on the first of the year. The service was under the management of the P. R. R. company.

Forrest Ocker, representing the Bestly Motor company, Bellefonte, was a caller here on Monday in the interest of that company. He reports the company having had its best December month in its history, and that the prospects for 1930 are very good.

The bid of \$40,346 for a macadam road of 953 miles in Brown township, Millifin county, made by Sherman and Rhodes, Lewisport, was rejected by the State Highway Department. The section of road is on route No. 493, leading northwest from Reedsville.

The stone quarries at Woodward will be opened shortly and will be operated throughout the winter when weather conditions are favorable. C. A. Spuyker, the manager, and several other men employed there, are now working on road construction work at State College.

R. S. Hagan, proprietor of the Hagan Garage in town, moved from what was formerly the Reformed parsonage, now owned by James Searson, to the L. L. Smith place next to the Hagan Garage, on Monday. Mr. Hagan purchased both the dwelling house and business place about a year ago, but the former owner retained possession until now.

E. M. Smith, the auctioneer, is about again after having undergone an operation for hernia in the Lewisport City hospital. He was engaged to "cry" the L. L. Smith sale on Saturday, but stood by while auctioneer Elmer Hubler, whom he secured, performed the service. He will be ready for his next sale date.

Lee W. Frazier, an attorney of Painesville, Ohio, was at the home of his parents, Mr. and Mrs. Foster W. Frazier, near Centre Hall, over the Christmas period. Mr. Frazier, a Penn State graduate and also of Western Reserve University, is making good in his chosen profession, a fact his many friends in this locality are glad to note.

Prior to his sale on Saturday, L. L. Smith moved from here to Bellefonte into a new house erected by him on East Curtin street, where he and Mrs. Smith and daughter, Miss Ruth, will live in the future. Mr. Smith is treasurer of Centre county and is also engaged in business in Bellefonte, these furnishing the reasons for his locating in the county seat.

The quartette of gentlemen who sang the Christmas carols in the early hours of Christmas morn throughout the town, did it so beautifully that much favorable comment was heard. The gentlemen who had the courage to leave their warm beds at 4:30 in the morning and parade through the town singing, were: F. P. Geary, C. Wm. Booser, Floyd E. Snyder and Elwood Smith.

The home of Mr. and Mrs. Jacob Lee is the only one in the vicinity of Centre Hill to be electrically lighted, due to the fact that no electric light lines are nearer than Old Fort. The lighting of the Lee home was made possible by the installation of an Onan plant by Roy Lee, of Newark, New Jersey, one of the twin sons of the couple. The junior Lee is conducting a typewriter and adding machine exchange in the New Jersey city. The lighting plant, one of many new features, was presented as a gift to the parents.
