BOOSTER STORES' BIG DOLLAR DAY NEXT WEDNESDAY

The stores connected with the Altoona Booster Association are planning to hold their Quarterly Dollar Day on Wednesday, February 12, and according to their announcement, which will be found on another page, there will be unusual values offered for the event.

Dollar Day will take place of "Suburban Day" next week. Wednesday is also Lincoln's birthday, but Booster stores will be open all day from 8:30 A. M. to 5:30 P. M.

It is the policy of the Altoona Booster Stores to urge the people in the surrounding communities to give their home stores the first opportunity to supply their needs, coming to Altoona Booster Stores for the things their home merchants cannot supply.

For the convenience of those who visit Altoona on Dollar Day, the city officials have removed all parking restrictions in the business district.

There will be a special Dollar Day musical program broadcast over Station WFEG on Tuesday, February 11, from 6:15 to 7 P. M.

Booster Stores' broadcast programs are always worth tuning in for.

TIMELY REMINDERS FROM PENNSYLVANIA STATE COLLEGE SCHOOL OF AGRICULTURE

Buy Seed Carefully.—Owing to the good crop of red clover seed produced in the country last year prices are lower than usual. Farmers are urged, however, to buy from reliable seedsmen or to have a good-sized sample of the prospective purchase analyzed for impurities and tested for germination by the State Department of Agriculture before buying.

Less Bulk in Fertilizers.—New fertilizers contain less bulk than the older kinds. A ton of the concentrated fertilizer may contain between two and four times as much plant food as the fertilizer mixtures formerly used. Savings in freight and handling costs result and the cost per unit of plant food is much lower than in the past. Good results have been obtained in using the new fertilizers in comparison with the bulky kinds.

Plan for Next State Show.—With the 1930 State Farm Products Show now passed into history, many farm groups already are planning for participation in the 1931 event which will be held in the new building now being erected by the State. Larger premium lists are under consideration to fit the expected increased size of the show.

Brace Broken Trees.—Bracing is recommended by Penn State fruit specialists for apple trees broken down by heavy loads of fruit. Large branches, split down from the crotch and lying on the ground, can be pulled into place with a block and tackle, ten bolted at the bottom and braced with wire four to six feet above the crotch.

Order Vegetables Early.—The best vegetable seeds usually are obtained by ordering early. Later, the best varieties will be exhausted. It is best to study various seed catalogues and order only the most reliable strains. Beware of novelties.
