FARM CALENDAR
TIMELY REMINDERS FROM PENNSYLVANIA STATE COLLEGE SCHOOL OF AGRICULTURE.

Garden Provides Liberally.
 The farm garden makes liberal contributions to the family larder if it is well planned, properly planted, and correctly cultivated. Utilize the space to produce a continuous supply of fresh vegetables and a sufficient amount for canning, drying and storing.

Prune Climbing Roses.
 This is the proper time to prune climbing roses. Remove all old shoots and preserve the younger ones which are more vigorous and which produce the most flowers.

Save Oats from Smut.
 Unless the seed oats are treated with formaldehyde before sowing, smut will be invited to exact a heavy tax. Why grow ten acres of smutty oats when nine acres of clean oats will produce as much and a better quality grain?

Use Convenient Outlets.
 Much more convenient lighting can be had, particularly in the living and bed rooms, by providing an ample number of convenient outlets. This makes it possible to move the furniture about and take the lights along, say State College agricultural engineers.

Fight Plant Pests.
 Seed treatment, planting disease-free or resistant strains and varieties, seedling treatment, eradication of host weeds, spraying, and sometimes dusting are ways the plant doctors and insect eradicators use to save fruit and vegetable crops from disease and insect pests.

Cease Use of Lights.
 Poultrymen who have been using lights on their laying flocks should plan to discontinue them about the first of April.

Graft Damaged Trees.
 This is a good time to save the fruit trees girdled by mice and rabbits. Your county agent can tell you how to bridge-graft the injured trees.

PAINFUL CORNS

Loosen—Lift Out

A little known Japanese herb, the discovery of an eminent German scientist (Dr. Stickel) instantly soothes the corn, callous or wart, then loosens it so that shortly you can lift it right out. This new discovery called "Corn Fly" excites the white blood corpuscles to action and granulates the corn at its root so that it drops out and leaves no trace of scar or soreness.

You will also find "Corn Fly Foot Bath Powder" a boon for sore, tired or perspiring feet.

"Corn Fly" for corns, 35c. "Corn Fly Foot Bath Powder" 25c, and "Corn Fly Bunion Remedy" 50c, (all three—\$1.10 value—for \$1.00), are sold under a positive money-back guarantee by Hi-Gene Co., Newark, N. J., or local druggist.

Theodore Roosevelt once said :

"Foresight is always more valuable than hindsight."
 You may never have had a loss of valuable papers, securities, deed, etc., by fire or robbery, but just one occurrence of this kind is apt to prove costly.
 The only proper and safe place for your valuable papers is in our strong fireproof, burglar proof vault.
 You can rent a box for \$1.00 a year.

THE heating system of a rural church froze during an exceptional cold snap. The damage was not discovered until the night before an important service. Arrangements quickly were made for the use of a local schoolhouse and, by telephoning members of the congregation scattered over a wide farming area, the minister secured a record gathering the next day.
