

LOCAL AND PERSONAL.

We put rubber tires on boys' bicycles and wagons.—W. H. Miller, Bellefonte.

The auto traffic on Sunday was much above normal. The driving was careful throughout the day.

The usual Easter sunrise service will be held in the Lutheran church here to which a general invitation is extended.

The Sunday school of the local M. E. church will render the psalm, "The Risen King," in the M. E. church, Sunday evening at 7:30 o'clock.

Mr. and Mrs. C. B. Stover and daughter of Spring Mills, were guests over Sunday of friends in Sunbury, where they drove in their auto.

Land owners in Potter township, during the past week, received from the county commissioners estimates of prospective damage due to the building of a proposed road between Potters Mills and Tusseyville.

Mrs. J. S. Getchell and son, and Mr. and Mrs. Thomas Keefe, accompanied by the ladies' mother, Mrs. Cyrus Brungart, arrived in Centre Hall on Sunday. Mrs. Brungart, who had been living with her daughters since last fall, has opened her home here for the summer.

Farmer T. F. Delaney, one day last week, suffered a severe attack of neuritis. He has since improved, but not fully. When the attack first came on he feared his entire left side had been paralyzed, but later it proved to be less severe. He is able to be around but is not doing work of any kind.

Mr. and Mrs. H. J. Lambert returned from Lakewood, Florida, on Sunday. As has been their custom for a number of years, they left their home here in the fall for the South. Mr. Lambert continues to be the same enthusiastic Florida booster he has been ever since he first visited the State.

W. F. Keller, rural mail carrier over Route No. 1 from Centre Hall purchased his fifth car since he began hauling mail with the modern vehicle. He is now using a Chevrolet coach. Prior to using an auto he used up a number of various types of horse-drawn vehicles. The rural mail service was begun here almost thirty years ago.

An effort is being made to stop the erosion on the banks around the "Devil's Elbow" on Seven Mountains. The elimination of the unusual curve there and the substitution of the easy and graceful one necessitated a deep cut on the mountain side. The elements cause a continuous toll of soil and to prevent this erosion, round timbers have been imbedded in the loose soil, laying off the bank into somewhat irregular squares. To further prevent washing of the soil and at the same time to beautify the bare banks, plants and shrubbery of various species are being planted in the squares. So in the near future a spot once dreaded by the early automobile driver will become one of the embellished sections in Seven Mountains, as well as one easy to negotiate at any ordinary rate of speed.

CENTRE COUNTY HOSPITAL NOTES.

Mrs. James Finck, of Bellefonte, was admitted on Sunday for surgical treatment.

Mr. and Mrs. Ivan Walker, of Bellefonte, are rejoicing over the arrival of a daughter born at the hospital Sunday night.

There were 48 patients in the hospital at the beginning of the week, following one of the busiest weeks in the history of the institution. At one time every bed in the hospital was occupied.

Henry Noel, of Pleasant Gap, has been engaged by the Lewistown Aircraft and Airways Corporation, as an instructor at the new airport being built at Lewistown. The site covers seventy acres and lies three miles west of that city, close to the William Penn highway.

Oiling on State highway route No. 550, through Buffalo Run Valley, was announced to begin on last Monday. It is the first oiling scheduled in the county.

For Economical Transportation

It's wise to choose a SIX!

It is wise to choose a six-cylinder motor—the only way to get six-cylinder smoothness. Six-cylinder smoothness takes out vibration and roughness. This saves motor, chassis, body, passengers, and driver.

The Chevrolet is a six. Yet it sells at a price that anyone can afford to pay. And it lasts longer, because of fine materials, oversize parts and a big, smooth, 50-horsepower six-cylinder engine that always "takes it easy."

With all its six-cylinder smoothness and power the New Chevrolet Six saves gasoline and oil, through modern efficiency—overhead valves—high compression power—latest carburetor—long-wearing pistons—crankcase ventilation—air cleaner. Thus Chevrolet brings truly modern transportation within reach of all who can afford any car. Chevrolet economy also means sincerity in manufacture. To illustrate:

Chevrolet valves are adjustable—to save replacing. Chevrolet molded brakelining greatly reduces brake upkeep. The rear axle inspection plate on the Chevrolet means accessibility.

The whole car is full of such evidence that true economy comes from advancement and refinement. There are four extra-long, chrome-vanadium springs controlled

by hydraulic shock absorbers. They are mounted lengthwise, in the direction of car travel, with self-adjusting spring shackles to maintain quiet.

Modern low suspension and extra wheelbase give the Chevrolet Six good proportions. The front view is distinguished by the honeycomb radiator. The gasoline tank is at the rear for safety and finer appearance.

Chevrolet beauty instantly says "Body by Fisher"—style, quiet, safety—Fisher composite steel-and-wood construction—non-glare windshield—adjustable driver's seat—deeper cushions—greater leg room—clearer vision—finer fabrics and fittings.

There is just as much extra value throughout. BY ANY STANDARD the Chevrolet Six is the wisest choice in the low-price field... with its six-cylinder valve-in-head motor... with full scientific equipment... with Body by Fisher... with four long semi-elliptic springs, long wheelbase, low suspension, rear-mounted gasoline tank, honeycomb radiator and all the other features of this day and age.

See your nearest Chevrolet dealer today and drive this six. Ten minutes at the wheel will show you what a difference six cylinders make.
