

THURSDAY, APRIL 17, 1930.

CORRESPONDENTS' DEPARTMENT

SPRING MILLS

J. H. Rishel is having new lumber placed on his lot opposite the post office with the intention of building a new residence.

W. P. Osman also intends building a new residence this summer.

J. O. McCormick's sale last Thursday was well attended and things brought fair prices.

W. H. Smith, who has been on the sick list for several months, is still in a very critical state.

Mr. and Mrs. G. R. Bitner were visiting some of their friends at Lemont last Sunday.

A baby daughter was born to Mr. and Mrs. Miles Johnson.

C. F. Bartose, of Harrisburg, was a week end visitor to his parental home.

Elmer C. Hettinger just recently traded off two of his Chevrolet cars on two new Chevrolet coaches, one of them for his own use and the other one for his son Willard who has been a very good help to Mr. Hettinger and is deserving of some inducement to remain on the farm. We think this is a good example for others.

BOALSBURG ITEMS.

Mr. and Mrs. John Derner enjoyed a Sunday visit with "Squire and Mrs. J. F. Zechman at Beaver Springs.

Mr. and Mrs. Harry Stover, of Yeagertown, Mr. and Mrs. Harry Rockey, of Zion, and Mrs. Rockey, of Bellefonte, Willard Rockey and family, of Petersburg, were visitors at the home of Mr. and Mrs. Wm. Rockey, on Sunday.

Mr. and Mrs. Finn McGirl, of Altoona, were callers in town on Sunday en route to Lewistown.

Mrs. Warren Cupp and baby son, of Williamsport, are visiting Mr. and Mrs. E. M. Kuhn.

Miss Dorothy Lombarger is visiting her friend, Miss Taylor, near Wilkesbarre.

Mrs. Tamme Keller, of Milesburg, visited among friends in town last week.

Rev. Wink, of Montgomery, was elected to the pastorate of the Reformed church at a congregational meeting held on Sunday evening.

Rev. and Mrs. W. W. Moyer enjoyed a few days' visit with friends in this vicinity last week.

Samuel E. Weber was confined to his home by illness several days last week.

Mrs. W. J. Wagner has so near recovered from a serious attack of neuritis as to be able to spend some time down stairs.

The young ladies class of the Lutheran S. S. was entertained by Miss Geer at the home of Miss Anna Dale on Wednesday evening. Mr. and Mrs. C. C. Geer of Lock Haven, were also in town for the evening.

FARM LANDS ARE NOW BEST INVESTMENT

Frank D. Kriels, Secretary of Agriculture, Says and Values Are at Lowest Ebb.

Land values are at their lowest ebb—the lowest price in years, but the market is steady and firm and the purchase of land has started, says Frank D. Kriels, Secretary of Agriculture. The rural credit department, as well as some of the insurance companies—the largest holders of real estate in some of the western states—have taken their farm land off the market. This means that they, with their knowledge of conditions and land values, are satisfied that these values are too low and that prices will advance to higher levels.

Farm population is now the smallest in twenty years, reports the United States Department of Agriculture, which places this population at 27,511,000 on January 1, 1929, compared with 32,000,000 on January 1, 1909. This was the highest number ever reached. With this shrinkage of four and a half million producers and an increase of four thousand extra mouths to feed every morning, this food must come from the efforts of the citizens on the farm, thus making farming more profitable, and the outlook is that more prosperity than ever before is in store for the farmers.

The movement from farms to cities and from cities to farms the last year was less than previous years. About 1,960,000 persons left farms and 1,362,000 left cities. With the large increase in births on the farms the records show a net loss in farm population of 188,000 persons, compared with 49,000 for 1926. The 27,500,000 farmers today feed more people than 32,000,000 did twenty years ago, and do it better.

The purchasing power of the farm products dollar, according to the United States Bureau of Agricultural Economics, has advanced from 64 cents in 1921 to 96 cents in March of 1929. Conditions are better and this equalization of the purchase power of the farmers' dollar is very much to his advantage, as well as of benefit to the business men of the United States.

COURT PROCLAMATION.

WHEREAS the Honorable M. Ward Fleming, President Judge of the Court of Common Pleas of the 49th Judicial District, consisting of the County of Centre, having issued his precept bearing date of the seventh day of April, 1930, to me directed, for holding a Court of Common Pleas Orphans' Court, Court of Quarter Sessions of the Peace, Oyer and Terminer and General Jail Delivery, in Bellefonte, for the County of Centre;

And the Grand Jury to convene on the twelfth day of May, 1930, at 10 o'clock A. M. And the Traverse Jury called for the regular meeting of Quarter Sessions Court will convene on the third Monday of May, 1930, at 10 A. M., being May 19th, and the Traverse Jury for the Second Week of Court will appear the Fourth Monday of May, 1930, at 10 o'clock A. M., being May 26th.

NOTICE is hereby given to the Coroner, Justices of the Peace, Aldermen and also such Constables, (that may have business in their respective districts, requiring to report to the Honorable Court) that they be then and there in their proper persons at the time specified above, with their records, inquisitions, examinations and their own remembrances to do those things to their offices appertaining to be done, and those who are bound in recognizance to prosecute against the

prisoners that are and shall be in Jail of Centre County, be then and there to prosecute against them as shall be just. Given under my hand at Bellefonte, Pa. the 12th day of April, in the year of our Lord, 1930, and the 15th year of the Independence of the United States of America.

H. E. DUNLAP, Sheriff.
Sheriff's Office, Bellefonte, Pa.

Milk in Centre Worth \$1,522,510.
In Centre county there was produced during 1929, the vast sum of 6,619,000 gallons of milk, valued at \$1,522,510. The milk production in the State is given at 453,601,800 gallons and the value \$113,989,220.

FARM CALENDAR

TIMELY REMINDERS FROM PENNSYLVANIA STATE COLLEGE SCHOOL OF AGRICULTURE

Plant Forest Trees—
Do we need more forest trees? The answer is that at present four to six times as much timber is being used as is being grown. Planting trees on idle lands will help relieve the situation. Write to the Pennsylvania State College for Circular 130, which tells how to do this.

Poultry Products Popular—
Approximately one dime of every dollar expended for food goes for poultry products—six cents for eggs and four cents for poultry meats. This indicates the esteem in which poultry products are held by the American consumer.

Increase Herd Efficiency—
When prices of dairy products are low it is a good time to put the herd on a more efficient basis of production. Cutting down the feed is not considered good economy; cutting out inferior cows is a profitable practice. Testing will show which cows should go and which should stay.

Sow Good Vegetable Seed—
Only high quality vegetable seeds of proven varieties or strains should be sown. Vegetable gardening specialists of the Pennsylvania State College caution against sowing seed too thickly in the row. Much thinning can be avoided by more careful sowing. Where thinning is needed it should be done early to give the remaining plants a chance to make full growth.

Obtain Healthy Chicks—
The source of baby chicks is important. Well-bred, good, strong, healthy vigorous chicks may cost slightly more but they will be cheaper than poor ones in the end.

Protect Orchard Trees—
Spray thoroughly to protect the fruit trees from insect and disease attacks.

ASSIGNEE'S ADVERTISEMENT.

In the matter of IN THE COURT OF COMMON PLEAS OF CENTRE COUNTY, No. 113, May Term 1930.

Notice is hereby given that all creditors of the above estate are hereby required to file a statement and proof of their claim as required by law, within six months from the date of this notice, with the undersigned assignee, or be barred from coming in upon the fund.

THE straw stack in the barnyard of a farmer fell over one morning and buried four valuable cows and several hogs. Calling his neighbors who had telephones, the farmer asked them to come at once to help save his endangered livestock. The neighbors began arriving with their pitchforks within a few minutes, and their combined efforts succeeded in digging out the cows and hogs without the loss of one.

Semesan Bel Treatment Controls Potato Diseases Increases Crop Yields

Scabby Potato

Healthy Potato

DISEASES such as scab, Rhizoctonia and black leg not only cut your yield but your profits as well. Now you can prevent such losses by treating your seed with Semesan Bel before planting. Semesan Bel treatment usually destroys surface-borne organisms of Rhizoctonia, scab and black leg. In addition, the attacks of certain soil-infesting organisms are often prevented by the coating of disinfectant which remains on the seed piece throughout the season.

A. H. Christie & Son of Maine said that Semesan Bel seed treatment increased their yield 5 barrels per acre over untreated seed and 7 barrels more than seed treated with corrosive sublimate. The potatoes grown from Semesan Bel treated seed also graded 9 1/2 barrels more No. 1 stock than those from corrosive sublimate treated seed.

Inexpensive, Easily Applied Treatment
Just dip your seed potatoes and plant. Semesan Bel requires no special equipment, no hot water and no tedious soaking. One man alone can easily treat from 200 to 400 bushels of potatoes per day. Mixes well with cold water and retains its antiseptic strength until completely used. Harmless to seed. One pound of Semesan Bel will make 10 quarts of dip and treat 16 to 22 bushels of seed potatoes. Use on sweet potatoes too. Sold in all sizes from one to 300 pounds. Four ounces, 50c; one pound, \$1.75; five pounds, \$8.00. Use Semesan for seed grains and cotton; Semesan Jr. for seed corn; Semesan for vegetable and flower seeds and bulbs.
