

THIS COMMUNITY WILL HAVE **GAS SERVICE!**

The Central Pennsylvania Gas Company will have
GAS RANGES, WATER HEATERS,
RADIANT FIRES, AND OTHER
GAS APPLIANCES

on display at the W. A. Odenkirk Store, on Main Street.
Also there will be a special Stove Display at CENTRE
HALL HOTEL.

All Appliances are of the very best and are approved by the American Gas Company.

The policy of the Company will be to install the Service Line and Meter without charge to the consumer, and where any gas appliance is purchased from the Company

it will be installed in your home without charge.

GAS RANGES CAN BE PURCHASED AS LOW AS \$45.00; WATER HEATERS AS LOW AS \$22.50,--and time payments can be arranged on the purchase on any appliance.

The work of laying Mains and Service Lines will be started within the next three weeks, and it will require about two weeks to have gas service in your territory after the work is started. ¶ We would advise those who expect to use gas to place their order for equipment as early as possible, which will assist the Company in completing the work at an early date.

Call at our store room and let us explain the advantages of Gas.

Yours for Service,

Central Pennsylvania Gas Company
