

WILL RUSH COMPLETION OF MILESBERG-CURTIN ROAD

The Lord Construction company this week resumed work on the contract for the new concrete highway between Curtin and Milesburg, which was interrupted in November for the winter. Traffic will not be stopped. Concrete laid down last fall in sections will continue to be used and joined up as at present with parts of the old highway. The relocated highway saves one mile in distance between Curtin and Milesburg, and in a distance of what heretofore was seven miles. The route 64 between Milesburg and Lock Haven, through Bald Eagle valley, will give a distance of 23 miles, which will be still further shortened by straightening out the highway from a point midway between Howard and Blanchard and east of Beech Creek on which surveyors have lately been running new lines to get through Blanchard and Beech Creek more directly. The Bald Eagle valley route between Mill Hill and Milesburg will be seven, possibly eight miles shorter than the route via Nittany Valley and Bellefonte, which is a considerable item between distant points of travel, as Tyrone to Williamsport.

Order Forest Trees Now—
Many farmers who have idle land now wish they had ordered forest trees early enough to get them for planting this spring. Black locust, red pine, and Norway spruce usually are all allotted to applicants six months before the planting season. Right now is the time to order trees for use in 1931. Your county agent has blanks which he will gladly help you fill.

Plant More Vegetables—
Many vegetables can be planted this month. Plant corn and beans May 10, tomatoes, peppers, and other warm weather vegetables May 20 to 25, and melons, cucumbers, egg-plants, and lima beans May 30. Late cabbage seed also can be sown.

Set Dahlias Out—
Early planting of dahlias allows a longer period of flowering. If the ground is warm, now is the time to plant the tubers.

Cut Grass Before Too Long—
Start cutting the grass before it gets so long. Frequent clipping is best during the heavy growing period. Short clippings can be left on the lawn.

Meet Market Demands—
Wether lambs which have been docked sell for higher market prices than ram lambs with long tails. It is good business to follow the practice which brings the most money.

Time Needed for Hatching—
It takes 21 days for a hen egg to hatch, about 28 days for duck eggs, from 29 to 34 for a goose egg, and 28 days for turkey eggs.

Make Dairy Profitable—
Feeding good cows is more profitable than feeding poor ones. Cull out the poorer animals.

Give Chicks Room—
Bare-back chicks may be the result of crowding in the brooder house.

Rebersburg Wins Opener.

Rebersburg opened the 1930 baseball season last Saturday by walking over the Lewistown Theatre boys by a huge score (25 to 4). Most of the Rebersburg boys took off to a heavy batting average as may be seen from the fact that 20 hits were gathered. Stan Eberly started at the bat with four two-baggers and a single on five trips to the plate. Carlos Tyson's beautiful catch was the only fielding sensation. Wolfe caught a beautiful game.

"IN THE SOUP"

An old expression which originated in the kitchen of an OLD TYPE BOARDING HOUSE.

The kitchen was composed of several cooks and helpers, who, with their favorite boarders participated in many midnight lunches, disposing of much food noticeable to the landlady. Whenever inquiry was made as to the whereabouts of this or that, it "was in the Soup." Gone, of course.

Were you to be visited by midnight prowlers or a fire, where would you be?
