

CORRESPONDENTS' DEPARTMENT

SPRING MILLS

Miss Doretha Bierly, of Rebersburg, and Miss Helen Sandy, of State College, spent Sunday with their friend, Miss Orle Wagner.

Mr. and Mrs. Harry B. Miller and family, of Mill Hall, were visiting some of their friends in town last Sunday. They are former citizens of this place but left here about 35 years ago.

The Lutheran Sunday School here will have their Children's Day service on Sunday evening, June 16th.

Mrs. Julia Carter, who was seriously hurt by falling down a stairway, has been taken to her daughter's home, Mrs. George K. Long, near Madisonburg.

The time for decorating the graves of the deceased soldiers has been changed from 6 o'clock to 5:45. The following soldiers are buried at Spring Mills: David Barree, David Burrill, Benjamin Coats, J. I. Condo, Thomas Duncan, P. J. Hoke, Henry Hoffmeister, J. D. Long, Thomas Richardson, Ludwig Spliro, John F. VanValzah, Frank H. Van Valzah.

At Georges Valley there are buried these soldiers: James Brown, William Collins, Daniel Condo, Martin Grove, James Kennelly, Thomas Kennelly, Daniel Kennelly, Charles Madara, R. Shugard, J. W. Sweetwood, and Amos Walters. Heckman's Revolutionary soldiers—John Adam Sontag, Wilhelm Long, Christian Miller, Philip Moser, Sebastian Mosser; Civil war: Michael Stiver, Daniel Smith, David Eysseler, and James Leitzell; World War: Clarence Musser and Charles Neese. Green Grove: John Albright, James Krader, Leonard Messmer, David Reninger and George Ream. Union: Gottlieb Armbruster, George Armbruster, Nathaniel Brown, John Dunkle, J. R. Koch, David Raymond, Tasker Koch, George Shultz, Thomas Raymond, Wm. Raymond, Isaac Smith and W. E. Krape.

BOALSBURG ITEMS.

Mrs. Alfred Lee went to Cleveland, Ohio, last week to visit her daughter, Mrs. Ezra Breen, who is quite ill.

Misses Grace and Sara MacIntyre, of Aaronsburg, are visiting at the home of their grandparents, Mr. and Mrs. David Bohn.

Miss Helen Geer suffered an attack of grippe and spent the time from Wednesday until Monday at her home in Lock Haven.

Mrs. Luther Dale, of Oak Hall, and Mrs. Ella Gingerich were guests of their daughters, Miss Marian Dale and Miss Margaret Gingerich, at Lock Haven Teachers College, from Sunday until Tuesday. The young ladies are members of the graduating class of 1930. Russell Bohn is also a member of the class.

Miss Anna Mary Hess returned from a week's visit with friends in Altoona and also attended commencement exercises at Boonsburg Normal.

Mrs. Rider, of Gatesburg, is housekeeper in the R. C. Young home. Mrs. Young has been a patient in the Centre County Hospital for several months.

Mrs. W. A. Roockey and nephew, Willis Grove, spent Friday afternoon in Bellefonte.

POTTERS MILLS.

James Parker and wife, of Lewisburg, and Mr. Henry and wife, of Barnham, visited Sunday at the Joseph Parker home.

On Saturday evening Mr. and Mrs. G. H. McCormick motored to Aaronsburg and brought home with them Mr. and Mrs. E. G. Mingle. On Sunday morning the former took Mr. and Mrs. Mingle to Ebersburg where they were met by their son, William, and family, who took them to Akron, Ohio, for a few weeks' visit.

Mr. and Mrs. McCormick brought home with them Mrs. S. E. Royer from Altoona, who will spend a few weeks with them.

Mr. and Mrs. Roland Palmer, from Milroy, accompanied by Mr. and Mrs. F. F. Palmer motored to Mill Hall to see Mrs. Solomon Palmer and family.

Miss Isabel Burkholder, from Ebersburg, visited with her friends, Miss Ruth Walker and Laura Belle McCormick, on Sunday.

The Sprucetown M. E. church was improved this week by the laying of a concrete walk to the front of it. Mrs. Ed. Sweetwood has been housed up with a bad attack of asthma.

Snow Shoe Borough Loses in Census. The population of Snow borough now 530 is 130 less than ten years ago when it was 660.

Keystone State Leads in Eating Ice Cream.

Pennsylvania leads all States in the consumption of ice cream. Figures released by the United States Department of Agriculture credit residents of the Keystone State with eating 4.98 gallons per person.

Other high consumption figures are 4.57 gallons per capita in California and 4.24 gallons each for the inhabitants of New Jersey. In 1905 the per capita consumption of ice cream in America was 1.94 gallons and in 1928 it was 2.9.

Approximately six billion pounds of milk are utilized in the production of ice cream in 4000 factories. In 1928 the production amounted to 348,000,000 gallons. Into the product went 209,900,000 pounds of butterfat, 243,000,000 pounds of sugar, 174,000,000 pounds of milk solids other than butterfat, and 5,000,000 pounds of food gelatin.

PENNSYLVANIA'S LARGEST CLASS TO BE GRADUATED

The largest class to be granted degrees at one time by the Pennsylvania State College will be graduated on June 10. Final examinations for the class, being held this week, may change the tentative figures announced by the registrar, but the number of graduates is expected to be 620 or more. Final examinations for the other three classes will start June 2.

The June convocation will be held for the second time in the Recreation Hall with the Hon. Franklin Spencer Edmonds, of Philadelphia, as the speaker.

Bellefonte Man Patents Non-Glare Headlights.

In the list of patents granted, last week, was one to J. B. Darlington, of Bellefonte, for a non-glare headlight for automobiles, trucks, etc. In speaking of his invention Mr. Darlington stated that his light has no beam, and is made to meet the requirements of all drivers. It has many qualities that prevent lights do not have. It will make night driving a pleasure and should prevent many accidents now ascribed to glaring headlights. The lights are frosted upon approach, light all objects in the road, do not reflect in the back of the car, and have no blinding effect on the eyes. They light up a curve as you enter and leave it and give all necessary warning signals on the side of the road. The light is so perfect that a mirror held in front of it shows no reflection. Adjustment is very simple and the light can be focused with a range of ten feet up to five hundred in front of a car.

There is a possibility that the light might be manufactured in Bellefonte, though Mr. Darlington has not yet committed himself definitely. He would like to have a plant located here but a number of other localities are bidding for it. He has also had offers for the purchase of his patent outright, but so far has made no decision.—Democratic Watchman.

The State Game Commission has made calculations of the number and various kind of wild game animals killed in 1929, and reports the total number as 4,357,422, and the gross weight in tons, 5,891. Deer killed are given at 22,822 and rabbits, 3,524,652.

WEST PENN POWER CO

BETTER LIGHT MEANS SAVING STEPS

A FARMER who was building up a herd of registered Guerneys frequently had full-blooded bull calves to dispose of without any ready market in the immediate countryside. Not wishing to sell high-quality young stock to the butcher, he advertised them extensively and sold a number by telephone. On one occasion he received a telephone call from a stock breeder more than one thousand miles away, which resulted in an exchange of calves, introducing a valuable strain into his herd.

The Modern Farm Home Has a TELEPHONE

RICHELIEU & BELLEFONTE

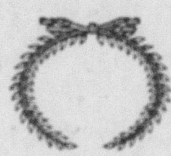

THURSDAY FRIDAY AND SATURDAY (This Week) Showing 2-7 and 9 P. M. WARNER BAXTER in "THE ARIZONA KID" with Mona Maris, Carol Lombard and Mrs. Jimenez in this brilliant story of the west when bandits found time for love making at the risk of their lives. 100% TALKING 100%

DECORATION DAY

It was General John A. Logan, commander of the Grand Army of the Republic, three years after the Civil War, who suggested that a special day be chosen, for the purpose of strewing flowers or otherwise decorating the graves of comrades who died in defense of their country. The decorating of graves of our soldier dead has become a regular custom.

FARM CALENDAR

TIMELY REMINDERS FROM PENNSYLVANIA STATE COLLEGE SCHOOL OF AGRICULTURE

Confine Growing Poultry—Turkeys can be brooded successfully on platforms and the method is advocated where no range free from contamination is available.

Produce Larger Litters—Ten litters in Pennsylvania have averaged 10 pigs each. The smallest number was seven and the largest eighteen. As the cost per pig at weaning time depends largely on the number of pigs raised per sow, it is very important to use ten litter methods, save a large number of pigs, and have them as big and thrifty as possible at weaning time.

Grow Raspberries—Numerous markets in the State make small fruit production a professional venture. Cumberland and Plum Farmers are recommended black raspberries; Lathan, Cuthbert, Ontario and Viking are the best red raspberry varieties, and Columbian is the leading purple raspberry.

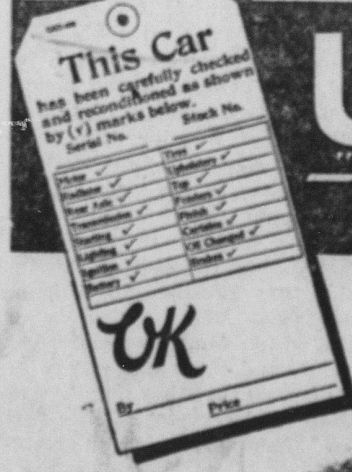

Kill Cabbage Pests—Cabbage root maggots can be controlled by using corrosive sublimate. Make up the solution with one ounce of powder in eight gallons of water. Apply one-half teaspoonful around each cabbage plant. It should be mixed and used in stoneware or wooden receptacles instead of metal containers.

Provide Hay Crops—Soybeans, oats and peas, Sudan grass, and the millets are emergency hays. Of these soybeans are the best. They are nearly equal to alfalfa in feeding value. Wilson is the standard variety but Manchu is the best for northern Pennsylvania.

Save money in buying Used Cars See your Chevrolet Dealer... first

USED CARS —WITH AN OK THAT COUNTS

Chevrolet dealers offer you an exceptional used car purchase service because they work under a uniform factory plan that makes used cars as important a part of their business as new cars. The famous "OK that Counts" tag assures every buyer that each used car bearing it has been thoroughly reconditioned by expert mechanics to give thousands of miles of dependable, economical service.

farm efficiency IS YOURS UP TO STANDARD? FARMING is just like any other business—must be kept up to standard efficiency if any money's to be made. Progressive growers no longer trust to chance that some plague won't hit their field crops. You've got to take scientific steps to protect your income. the improved Niagara Dri-Fog Dusters Years of dusting experience have gone into the construction of this Dri-Fog Crop Duster. It is adapted to its job in every respect—designed to operate efficiently. FAST, THOROUGH coverage is accomplished with a big saving of time and material. The Dri-Fog Duster is sturdily built, yet it is light enough not to be another "horsekiller". The construction is simple—easily adjusted and repaired. The improved dusting mechanism is designed to break up the dust into a uniform cloud of the desired intensity, equally divided among the nozzles. Every row, in this way, receives the same, correct amount of dust. Niagara truck-crop dusts, having copper as a fungicidal base and calcium arsenate as a poison for external chewing pests, give quick and effective results with the Dri-Fog.
