Rep. Tinkham Repeats Charges Against Bishop Cannon.

Differences between Bishop James Cannon, Jr., and Representative Tinkham continued to represent interest in Washington.

A move by the churchman in response to a public statement issued by the legislator attacking him was being awaited.

Tinkham, a Republican opponent to prohibition from Massachusetts, recently made charges against the southern Methodist dry leader in the house. Cannon called him a "blustering cowardly congressman" for doing so under the cloak of congressional immunity and dared him repeat the assertions off the floor. Statements in the senate and house are imminent from prosecution for libel.

The text of Tinkham's answer issued for publication was:

"Lest Bishop Cannon shall delude anyone into thinking the charges I made against him in the house of representatives were unfounded and meeting his challenge that I divest myself of my congressional immunity, I desire to restate over my signature that charges I made in the house of representatives that he is a shameless violator of the federal corrupt practices act, a criminal statute; that he received \$65,300, mostly in cash, from a New York capitalist, Mr. Jameson, during the 1928 elections and illegally concealed the receipt of all of this money until February 15, 1929, and has not yet accounted for \$45,300 of this amount, refusing to do so before the senate lobby investigating committee before which he appeared voluntarily and where he was under oath and could have been cross-examined."

Cannon last week announced he intended to take civil action for libel, both civil and criminal, against newspapers printing editorials, cartoons and news dispatches which he considered a defamation of himself.

Old Automobile Tires. A car load of worn out automobile tires was shipped from Centre Hall last week, and this raised the question, "What becomes of old tires?"

The answer is that they are reclaimed and made over into rubber goods of every description. Approximately 74,000,000 tires are junked annually, it is estimated by the automotive officials and their reclamation stamps the United States as the largest producer and exporter of rubber merchandise.

Reclaimed rubber today means almost as much to the industry as the raw materials themselves and great care is exercised in the processes by which old tires are reproduced into articles which find a ready market.

Most of the crude rubber used in the United States comes from British and Dutch possessions. The United States Rubber company has been conducting experimentation in Java and the Malay peninsula with excellent results. Formerly, the world depended on wild rubber gathered by natives in the Para district of Brazil, but this

Mr. Knecht was a member of a pioneer family of that section, his father having founded in 1870 the Knecht Milling Co., which was conducted by Mr. Knecht until ill health forced him to retire. He was a member of the Bethel Reformed church, in which he was an active worker.

He is survived by his wife and the following sons and daughters: Edwin, of Bethlehem; Mrs. Doyle Bitner, Mt. Hill; Walter, Stanley and Harry, all of Parvin, and Miss Esther, at home.

Mrs. Lytle was born in Harris township and was aged 80 years. She was a daughter of Mr. and Mrs. Harrison Miller. Her husband died about a year ago. Within the past four years there have been ten deaths in her family, the most recent, in addition to herself, being her grandson, Hensyl Johnson, who was killed in an airplane accident Sunday a week. One daughter, named above, survives, together with two step daughters, Mrs. George Hollobaugh, of Bellefonte, and Mrs. Nannie Johnson, of Clearfield, whose husband died on May 29, 1929. Funeral services were being held at her daughter's home at Bloomfield and the remains were brought overland to State College Wednesday of last week for interment at the Branch cemetery.

supply center could not nearly meet the heavy demands of the present high speed production.

If it were not for the fact that these millions of worn out tires are reclaimed yearly, the rubber industry would find itself in more of a dilemma.

DEFEAT IN 11TH GAME.

After Ten Straight Victories, Local Team Falls Before Hagerty Baking Team.—Thursday's Twilight Game Won in Spectacular Fashion.

What a ball game! The Whitetoe team of Pleasant Gap, an array of nifty ball tossers, came close—oh, so close—to taking a ball game from our boys in a twilight game Thursday evening, but before the shades of night had settled over the field of battle, Centre Hall pulled an apparently lost game from the fire for their tenth straight win. Score, 6 to 5. Bedlam reigned in that seventh stanza when the locals, who were trailing by 5 to 3, did the unlooked for and put three runs over the plate while two men were being retired. Harold Durst hit a Ruthian sock to deep left center field that brought home two of his buddies on base, and local fans went home happy, while Pleasant Gap rooters and players sent up the antiquated cry of "Reber," meaning the game had been taken from them by the umpire. Too bad the Whitetoe team doesn't know that the umpire is no longer regarded as a legitimate alibi for a defeat. Umpires are only human, likely to err at times, but mean to be fair.

Montgomery, for the "Gap," was giving our boys plenty of trouble from the start. He struck out six batters in the first four innings and allowed but two hits. In the 5th the locals scored one run, due in the main to errors. The 6th gave us two more on a combination of hits and errors. The 7th, and last, inning, was a wow! Emery opened with a nice hit to left. Stover walked. Crawford was out on an attempted bunt on 3rd strike. Goodhart's smash to short was fumbled and Emery scored. With two on, Gross raised a fly to short for a put-out. Harold Durst had a long stay at the plate taking several balls and strikes, and finally connected for a whale of a hit that went nearly to the fence in left center. It was a two-bagger and both runners scored easily, ending the game right there and throwing the crowd into a frenzy of joy. Durst was shouldered and carried off the field a hero.

Doc Crawford, who twirled for the locals, failed to receive good support in the infield. In fact, it was a pitcher's battle all the way through, and each pitcher had hard luck, and since Montgomery lost, we must declare his luck was the toughest.

The box score:

Table with columns: CENTRE HALL, R, H, O, A, E. Rows: Martz, Emery, Stover, Crawford, P. Martz, Gross, Durst, Timmey, Reber, Totals.

*Gettig out, hit by batted ball

*Crawford out on attempted 3rd strike. Two out when winning run scored.

Hagerty Baking, 4; Centre Hall, 2.

Centre Hall's winning streak was broken on Saturday when the Hagerty Baking team from Phillipsburg triumphed in a hard fought game by the score of 4 to 2. The visitors presented a strong line-up in all departments. Middleton pitched cleverly and the team's fielding was superb. Centre Hall's golden opportunity to win the game came in the 7th inning, but went for naught by a display of poor judgment. The bases were loaded and none out, when the runner on first base apparently figured to "rattle" the opposition by taking a big lead off the base and drawing a throw which would finally result in a general mix-up all 'round, with the result that one or two runners might score. The thing happens sometimes. This time it failed to work, and the Phillipsburg boys calmly and deliberately proceeded to get the runner off first and also the one off third. The game was lost then and there.

"Jack" Bradford's playing at third base was a feature of the game. Gross fanned eleven batters.

The box score:

Table with columns: CENTRE HALL, R, H, O, A, E. Rows: R Martz, Emery, Rimmer, Gross, P, Durst, Goodhart, Bradford, Keller, Stover, Reber, Totals.

HAGERTY BAK., R, H, O, A, E. Rows: Lamb, Barnett, Brown, J. Fenton, Sleigh, Crawshaw, Fitzgibbon, E. Fenton, Middleton, Totals.

ADVERTISE IN YOUR HOME TOWN PAPER

The Oswego, Oregon, Review runs the following interesting quotation from the American Banker's magazine, using it as an advertisement:

"No business in any town should allow a newspaper published in his town to go without his name and business being mentioned somewhere in its columns."

"This applies to all kinds of business and professional men. It does not mean that you should have a whole, half or even quarter page ad. in each issue of the paper, but your name should be mentioned, if you do not use more than a two-line space."

"A stranger picking up a newspaper should be able to tell what business is represented in the town by looking at a paper. This is the best possible town advertiser."

"The man who does not advertise his business does an injustice to himself and the town. The life of a town depends upon the live, wide-awake and liberal advertising business man."

Thirty-three private parties in Pennsylvania planted 149,523 forest trees the past spring. Throughout the State the planting summed up to 8,265,941 trees.

There are rumors that the State Highway Department and Forestry Department jointly will build a road from the Havice Valley road, in Mifflin county, to Paddy Mountain.
