

CORRESPONDENTS' DEPARTMENT

BOALSBURG ITEMS.

Mr. and Mrs. Ira Hess and Mrs. J. P. Wagner, of Altoona, were visitors in town on Sunday.

Mr. and Mrs. Charles Hosterman, of Greensburg, and Frank Hosterman, of Cleveland, are spending some time at the home of Mr. and Mrs. H. M. Hosterman.

Misses Melva and Charlotte Jacobs enjoyed a few days' visit among friends in Philipsburg last week.

S. E. Weber and sister, Miss Annie Weber, were guests of their nephew Edward Weber, of Huntingdon, on a motor trip and visit with friends in Lebanon county.

Mr. and Mrs. Millard McGirk and family, of Altoona, spent Sunday afternoon in town.

Miss Anna Mary Hess spent Saturday with Miss Margaret Dale, at Oak Hall.

The Reformed Sunday school will hold Children's Day services on Sunday evening, June 29th.

Mr. and Mrs. Harry Dewey and family, of Bellefonte, were guests of Mr. and Mrs. George Homan on Sunday.

Mrs. Ella Gingrich, daughter Marie, and son Harry, spent several days last week in charge of the Lee Smeltzer farm near Pleasant Gap while Mr. and Mrs. Smeltzer and Miss Katharine Gingrich were enjoying a motor trip.

Rev. and Mrs. W. J. Wanger returned Friday after a three weeks' vacation spent with friends in Adams county and Hudson Heights N. J.

Mrs. Annie Barr Young, wife of Roland C. Young, died in the Centre County Hospital on Wednesday of last week after a long illness. For the past four months she was a patient in the hospital. Mrs. Young was the daughter of Mr. and Mrs. Cyrus Barr (deceased), of Gatesburg, and is survived by her husband and two sons, Carl and Harold; also one brother, Alfred Barr of Pittsburgh. Mrs. Young was a member of the Lutheran church and the W. M. S., and her pastor, Rev. Wagner, assisted by Rev. Harkins conducted the funeral services in the home on Saturday morning; interment in the local cemetery. A number of friends former home at Gatesburg attended the funeral.

FARM CALENDAR

TIMELY REMINDERS FROM PENNSYLVANIA STATE COLLEGE SCHOOL OF AGRICULTURE

Rapid Pork Gains Best—

Smaller amounts of feed are required for a pound of grain when pigs grow rapidly than when development is slower. Putting pigs on full feed early is a profitable practice.

Kill Bean Beetle—

Magnesium arsenate is considered the best control spray for the Mexican bean beetle. If it cannot be obtained calcium arsenate may be used successfully.

Water New Plantings—

Trees and shrubs that have been planted since the first of the year must be given plenty of water to encourage the formation of new roots and development of the tops.

Eradicate Burdocks—

Any time is a good time to kill burdocks. Cut them below the crown with a sharp spade. This will prevent future sprouts coming from the same root.

Control Potato Diseases—

Spraying of potato vines is an absolutely essential process in successful potato culture. Bordeaux mixture is the greatest of all sprays for potato diseases in the field.

Cull Out Poor Cows—

Weed out the unprofitable dairy cows. It is more profitable to milk three good cows than a half-dozen poor ones.

Keep Range Clean—

Every precaution should be taken to prevent stagnant pools from forming on the poultry range. These areas are often contaminated and become breeding places for flies and mosquitoes.

Fertilize Asparagus—

Asparagus should be treated with commercial fertilizer at the end of the cutting season. If manure has been applied use 1000 pounds of 4-8-4 per acre. Without manure, from 1200 to 1500 pounds of a 5-8-8 fertilizer is recommended by vegetable specialists of the Penna. State College.

LEGAL ADVERTISEMENTS

EXECUTRICES' NOTICE.

In the Estate of JAMES H. MCCOOL, late of Potter Township, Centre county, Pa., deceased.

Letters testamentary on the above estate having been duly granted the undersigned, all persons knowing themselves indebted to the estate are requested to make immediate payment, and those having claims against the same to present them duly authenticated for settlement.

LETTIE B. BRUNGART,
MATTIE E. SMITH,
Executrices,
Centre Hall, Pa.

NOTICE TO BOND HOLDERS.

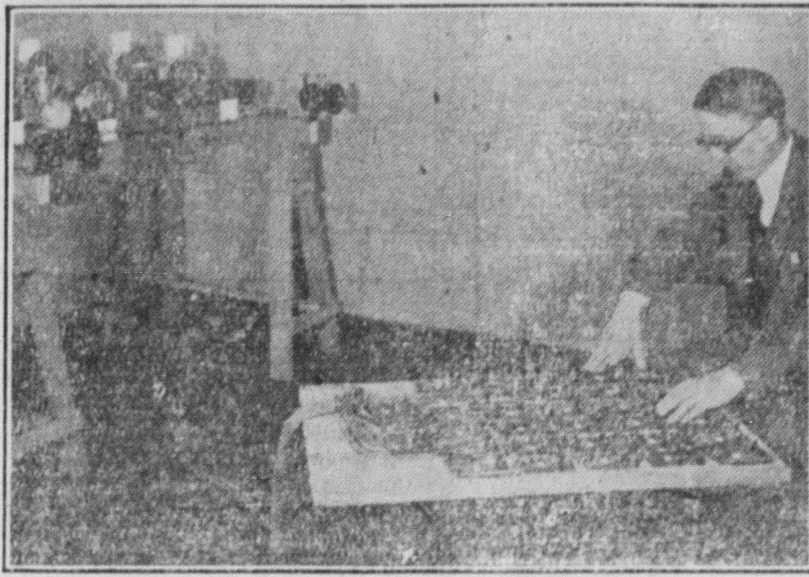

Notice is hereby given to the bondholders of Gregg Township School District that bonds of the second issue, Numbers 1, 2, 20, 21, 22, 23, 27, 30, 31, 32, 35, 40, 41, 42, 43, 44, 45, 48, 50 and 55 will be redeemed on July 1, 1930, at The First National Bank of Spring Mills, Pennsylvania.

Interest will cease on above mentioned bonds after above date.

By order of the Board.
C. H. EUNGARD,
Secretary.

The Centre Reporter, \$1.50 a year.

Scientist Testing Auto Horns

In an effort to determine which one of the 57 or more varieties of automobile horns has the "most pleasing" tone, Dr. Harvey Fletcher (above), Director of Acoustical Research, Bell Telephone Laboratories, had them installed in a sound-proof room where he measured the noise. The experiments were done in connection with studies made by the New York Noise Abatement Commission. In the Bell Laboratories thousands of scientists are engaged in research and inventive work to improve the art of communication.

Nurses See Telephone Men Demonstrate First Aid Work

Nurses of the graduating class of the Pittsburgh Presbyterian Hospital displayed keen interest recently in a special first aid demonstration by the Bell Telephone Company of Pennsylvania. Members of the company's construction department are skilled in first aid methods, and frequently have occasion to render some form of public service in emergencies.

Dynamite Blast Debris Covers Highway

When workmen engaged in a construction project along the Reading-Pottsville Pike set off an unusually heavy charge of dynamite recently, the roadway was buried beneath 150 tons of earth and rock. The Reading-Wilkes-Barre cable of the Bell Telephone Company was torn from the poles and covered by the debris. While emergency crews were rushing repairs, telephone calls were being routed over other lines.

Health's a Habit with Her

Realizing that it is easier to keep well than to get well, thousands of young women employees of the Bell Telephone Company of Pennsylvania are making health a habit by participating in the company's general health course. This attractive young woman was a prominent member of a cast of health course students who appeared recently in graduating exercises in Philadelphia.

A Good Working Team

Is YOU and Your BANK ACCOUNT

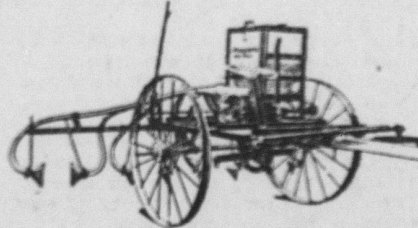

PULLING away from opposite forces, making every day, month and year count for something is the kind of TEAM-WORK that draws the load over the roughest kind of roads.

YOU ARE THE LEAD HORSE—
YOUR MATE IS YOUR BANK ACCOUNT.

THE FIRST NATIONAL BANK
CENTRE HALL, PA.

farm efficiency IS YOURS' UP TO STANDARD?

FARMING is just like any other business—must be kept up to standard efficiency if any money's to be made. Progressive growers no longer trust to chance that some plague won't hit their field crops. You've got to take scientific steps to protect your income.

the improved
Niagara
Dri-Fog Dusters

Years of dusting experience have gone into the construction of this Dri-Fog Crop Duster. It is adapted to its job in every respect—designed to operate efficiently. FAST, THOROUGH coverage is accomplished with a big saving of time and material.

The Dri-Fog Duster is sturdily built, yet it is light enough not to be another "horsekiller". The construction is simple—easily adjusted and repaired. The improved dusting mechanism is designed to break up the dust into a uniform cloud of the desired intensity, equally divided among the nozzles. Every row, in this way, receives the same, correct amount of dust.

Niagara truck-crop dusters, having copper as a fungicidal base and calcium arsenate as a poison for external chewing pests, give quick and effective results with the Dri-Fog.
