Too many Democrats believe that voting for a Republican candidate shows an independent spirit instead of by the breeder as a further means of permitting themselves to be m'sled by campaign promises the candidate never expects to fulfill and could not if he wished to do so. Government, such as trade mark names are now in regular is ours in this State, is by party. In the last analysis, the party of the cand date elected, rules. If you like the political rule in Pennsylvania, Phchot is the man who will prolong it; if you desire a change, vote for the Democratic candidate, who will give you Democratic rule.
