Teachers receive \$4.00 per day for attending the county institute. This means that they are expected to be present at all general sessions and all sectional meetings of which they properly form a part, to be in the front part of the assembly room, thus showing that they are interested in getting a full return for the time devoted to institute attendance.

When representing this district in the Senate Captain Ginery will continue to follow his convictions on issues of importance to his constituents and will not feel ashamed of any legislation which received his support.

Wieland—Cernog.

The marriage of Miss Phebe Cernog, daughter of Mrs. Phebe M. Cernog, of Brookside avenue, Ithan, and Donald M. Wieland, of State College, took place recently in Old St. David's church, in Radnor, a Main Line town near Philadelphia.

The bride was given in marriage by her brother, Edward Cernog, of Summit, N. J. Miss Margaret Cernog, a sister of the bride, was maid of honor, and Miss Phebe Cernog, a niece of the bride, was flower girl. Alex Wieland, brother of the groom, was best man, and the ushers were Allison Cernog, of Haverford, John Gauss, State College, and Bayard Skilling, of Rutledge.

A reception for the immediate families was held at the Wayne hotel. Upon their return from their wedding trip Mr. and Mrs. Wieland will live in State College, where the groom, a son of Mr. and Mrs. Alfred P. Wieland, is engaged in the insurance business.

Local people in attendance were Mr. and Mrs. F. E. Wieland and daughter Mildred, Linden Hall; Mrs. A. P. Wieland and daughter Winifred and son Alex, Mr. and Mrs. W. S. Wieland and daughters Isabelle and Blanche, and John Gauss, of State College.

It may be news for the hundreds of "two-cow" dairymen to learn that Senator Scott voted for the measure that resulted in a half-dozen State inspectors swooping around their premises during the past two or three months, and they will be keeping on doing so. The milk law that went into effect put many two-cow dairymen out of business unless they were able to go to considerable expense in building milk houses and doing business in every detail as prescribed in the milk law. Even a one-cow dairyman must now have a permit to sell milk to his neighbor, and furthermore, he cannot lawfully bottle the milk. His customer must bring a container every morning because of the law that Scott voted for.

Those who have been following the newspaper reports of his campaign speeches know he speaks to the point and calls things by their proper name. He is young and vigorous, and capable to and does not set at naught the vagaries of his opponent, Pinchot.

There is every indication that the candidates will be met at each of the three places by large numbers. Here is your chance to see and hear two outstanding Democrats, both of whom can be elected if given united Democratic support.

PINCHOT INSINCERE ABOUT COAL POLICE, SAYS HEMPHILL

Ex-Governor Making Promises He Cannot Keep, Says Democratic Rival—Issue Branded as False.

The Democratic-Liberal party candidate for Governor, John M. Hemphill, questioned the sincerity of the recent statement on the coal and iron police system used by Gifford Pinchot, his Republican opponent, in an address in Pittsburgh Friday night.

Speaking before a group of Democratic workers after a day spent in conference, Hemphill said that Pinchot "in his anxiety to avoid and evade the major issue of this campaign—national prohibition and the repeal of the Snyder-Armstrong act—is attempting to raise a number of false issues."

Hemphill said he felt it was his duty in the early stages of this campaign to expose the falsity of each and every one of Pinchot's promiscuous promises as he advances them.

"Here in Pittsburgh a week or two ago," Hemphill continued, "he declared he would make the coal and iron police State employes, but would require their salaries to be paid, not by the taxpayers, but by the companies."

"This was a part of his program of inflaming for his selfish benefit, class animosity. He wanted the taxpayers to think that the companies against whom he was inflaming a social hatred should pay the bill instead of the taxpayers."

"Anyone well informed and with good judgment must realize that is a promise impossible of redemption and therefore flagrantly insincere. Your State cannot force you or a company you run to pay the salary of a policeman that it puts upon your premises without your approval and against your wishes."

"As opposed to Mr. Pinchot's insincere promise of something which would require legislation patently unconstitutional, the Democratic party of Pennsylvania by its platform has declared for the abolition of the coal and iron police. We do not propose anything insincere or impossible of performance, even though it might gain popularity and votes."

"Further emphasizing the basic insincerity of Mr. Pinchot's proposition, and, by the way, it is the same insincerity that characterizes his entire campaign, we call to the attention of the people of Pennsylvania that on April 8, 1925, my opponent, then Governor, signed a bill providing for a increase in the number of special policemen in Pennsylvania."

"This act is found on page 214 of the Pamphlet laws of 1925, amending the old coal and police act of 1885 and adding measurably to the number of privately owned companies permitted by law to have State police vested with State authority but free to be used for the purpose of private companies."

GOLF CLUB TO MEET.

Monday morning the seventy-fifth individual signed up as a member of the golf club being formed here, the leading spirit in the movement being H. L. Ebricht, cashier of the First National Bank. Among the members signed up are men from all points in Penns and Brush Valleys, and others from the northern and western sections of the county. Lewistown is also represented as are also other towns in adjoining counties.

The Grange Encampment and Fair committee met last week and made an offer to lease the seventy-three acres owned by them for a period of five or ten years, subject to the pleasure of the Centre County Pomona Grange.

The seventy-five or more signatories of the proposed golf club will hold their first meeting in the High school building here this (Thursday) evening. One of the principal actions to be taken at that meeting is the selection of a committee to formulate an agreement with the Centre County Pomona Grange, provided that body accepts the proposal of Grange Encampment and Fair committee, which it is thought it will do without protest.

Local Odd Fellows Change Time of Weekly Meetings.

MILROY MEN HELD ON ROBBERY CHARGE

Facing charges of robbery and the impersonation of a Federal officer, three Milroy young men are being held in the Snyder county jail at Mt. Greoberg. Andrew White, deputy sheriff of Mifflin county, Wilson Rehmyer, State police officer, and Constable Werwick of Beaver Springs, made the arrests, taking into custody Clarence Aumuller, Guy F. Peters and Joseph F. Hoar, all of Milroy.

It is charged that they held up Moses Arnold, Beaver Springs farmer, at the point of a shotgun. Aumuller is also charged with visiting Arnold's farm several weeks ago when it is alleged that he impersonated a Federal officer and exacted a sum of money.

Kear, a few years ago, lived at 608 Port with his brother, Plummer Hoar.

WALKER TOWNSHIP SEEKS NEW HIGH SCHOOL BUILDING

Will Vote on \$34,000 Bond Issue at November Election—Would Close Five One-Room Schools.

Voters of Walker township will vote to increase the bonded indebtedness of the township from nothing to \$34,000 at the November election and thereby signify their desire to establish a consolidated school at Hubbersburg.

If the voters carry the bond issue at the coming election the Walker township school board will immediately prepare plans for the erection of a modern five- or six-room school building, which will likely be erected at the rear of the present High school building, where several acres of ground are available.

When such a school is established, five one-room schools will be abandoned in the township—the Crawford and Franklin schools in the lower section of the township, the Logan school at Hecla park, and the Zion and Forrest schools in the upper section of the township. Two grades at Hubbersburg would also move into the new building.

The Reporter was pleased to receive a call, last Thursday, from Norman Young, a former Boalsburg boy, now a resident of Freeport, Illinois, where he is a superintendent for the Freeport Petroleum Corporation.
