

CORRESPONDENTS' DEPARTMENT

BOALSBURG ITEMS.

Mr. and Mrs. Lester Brouse are receiving congratulations on the birth of a son, Wednesday. Miss Dorothy Lombarger, of Athens, is spending her Christmas vacation at her home in town. Mr. and Mrs. Edwin Dale and Mrs. Leiland Walker spent Saturday in Altoona. Mrs. William Rockey has been ill for a week. Miss Mary Eleanor McDonald, of State College, was a week-end visitor at the E. R. Tussey home. Mr. and Mrs. Atherton and sons visited friends in Harrisburg and vicinity from Friday until Sunday. Mrs. Norman Callahan was discharged from the Centre County Hospital Friday after an operation for appendicitis and is rapidly regaining her health. The Water company expects to shut off the water supply Friday morning in order to make some badly needed repairs on the main line. It will likely require several days and the town will be obliged to use "canned" water.

LOCAL AND PERSONAL

The Bairfoot farm west of town and several plots of ground near town will be sold on Saturday afternoon at 2:00 o'clock. The place of sale is designated on Church street, to the west.

Chester A. Spyster, of town, was one of members of the Past Grand Association of Centre County I. O. O. F., who were entertained by the Blanchard lodge recently.

Foster Frazier for the second year furnished the community Christmas tree at the Evangelical church, in town. The tree was secured from Mr. Frazier's farm along Sinking Creek, east of Centre Hill.

Harold Bradford, who under civil service regulations, was available as an extra clerk in the Centre Hall post office under Postmaster R. M. Smith, was called to duty Thursday of last week. He is a Penn State freshman, and consequently the call at this particular time—vacation time—closes 1930 with a bit of extra cheer.

A delightful birthday surprise party was given by Mrs. Della Reber, Friday evening, on the occasion of the birthday anniversary of her oldest daughter, Miss Mary Reiber, a senior in the local high school. The numerous young people present enjoyed a most pleasant evening, and refreshments were an important feature of the program.

The long truck employed by the Milflinburg Body Company in delivering its products to various sections became stranded here on Monday evening. Repairs were made by the Homan Motor company. The truck was loaded with twenty Austin commercial bodies and one compete car, and was on its way to Butler, the main factory of the Austin cars.

The Senior Service class in the Lutheran Sunday school held its last regular meeting at the home of Mrs. H. E. Fye. Gifts were exchanged by members of the class, and to the pastor a handsome fountain pen was presented, and to the teacher, Mrs. S. W. Smith, a handsome Bible, with her name embossed on the cover. The hostess served very elegant refreshments at the close of the class program.

Does gloom take the zest from your holiday entertaining?

Perhaps additional portable lamps are needed to make your hospitality seem gayer and brighter.

Milhelm school children are being given only two days Christmas vacation—Christmas day and the day following—which leads the Editor of the Journal to lambast, and justly so, whoever is responsible for such an apparent arbitrary ruling.

ANNUAL ELECTION.

The annual election of the Farmers Mutual Fire Insurance Company of Centre County will be held in the Grand Jury Room, Court House, Bellefonte, on Monday, January 12th, 1931, between the hours of 10 A. M. and 12 M. for the election of twelve directors for the ensuing year. GEORGE MITCHELL, Pres. FRANK M. FISHER.

ANNUAL BANK MEETING.

The annual meeting of stockholders of The First National Bank of Centre Hall, Pa., will be held in the banking rooms the second Tuesday of January, 1931, same being the 13th day of the month, between the hours of 10 and 12 o'clock, for the election of directors and the transaction of any other business that may come before the meeting. H. LEIGH EBRIGHT, Cashier.

FARM CALENDAR

TIMELY REMINDERS FROM PENNSYLVANIA STATE COLLEGE SCHOOL OF AGRICULTURE

Order Garden Seeds Early—Successful vegetable growers find that they get the best seeds for their gardens and commercial production when they order early. The supply of popular varieties and strains often becomes exhausted before planting time. Already the mails are delivering seed catalogs from which selections can be made.

Stop Peach Disease—Plant pathologists of the Pennsylvania State College emphasize the need of spraying for the control of peach leaf curl before the buds begin to swell in the spring. After the buds crack, spraying is ineffective because infection already has attacked the buds.

Show Farm Crops—Corn, potatoes, tobacco, and small grains will be exhibited by farmers, club members and vocational students at the Pennsylvania State Farm Products Show in Harrisburg, January 19 to 23, 1931. Liberal prizes are offered.

Prune Trees Properly—In pruning young trees have in mind a picture of what the mature tree will look like. Proper training of young trees, which includes light pruning, will result in a strong framework of wellspaced branches. Profitable production and early bearing are the objectives.

Take Farm Inventory—A farm inventory is the first step in keeping farm accounts. On the average farm it requires about one-half day to take it.

We can't locate each one of you. To wish you Christmas glory, So here's the way we advertise. The same old happy story: A Christmas bright with loyalty, A New Year gay and snappy, New friends, old loves, and all good things To keep the New Year happy.

Ford Shows Faith in Future by World Wide Construction Program

Top—The Ford plant at Edgewater, N. J., opposite New York City. Center—The new plant at Long Beach, Cal. Bottom—A model of the plant being built at Dagenham, England.

THE Ford Motor Company's faith in the future of business, and especially in the future of the automobile, is evidenced by the fact that it is spending more than \$60,000,000 for new plants and improvements in the United States and in foreign branches and associated companies. The company has nine new plants under way throughout the world, while plans are being formulated for several others not yet announced. Wherever possible the new plants are being erected on sites accessible to both rail and water transportation so that, with each form of transportation supplementing the other, substantial savings will be effected. Five of the new plants are in the United States, as follows: Long Beach, California—This plant, recently completed to serve Southern

California, has a capacity of 400 cars a day. Operating at capacity it employs 2,600 men. Edgewater, New Jersey—The Edgewater plant, one of the company's largest assembly branches, has just been completed to serve New York City and surrounding territory. It has a capacity of 600 cars a day and employs 6,000 men. Richmond, California—Work was started recently on a plant at Richmond, to be completed next year. It will have a capacity of 400 cars a day and will employ 2,400 men. It will supply cars to the San Francisco area. Buffalo, New York—This plant will have a capacity of 400 cars a day and will employ 2,500 men. Seattle, Washington—A site has been acquired and plans for a plant are being drawn.

A new manufacturing plant being erected at Dagenham, England, eighteen miles from London, to supplant the present works at Manchester, will be completed next year. It will be the largest automobile factory in the world outside the United States. Its capacity will be 200,000 cars a year. An assembly and manufacturing plant is being built at Cologne, an assembly plant at Antwerp, and a service plant at Stockholm. Two branches—one at Perth, Australia, and one at Port Elizabeth, South Africa—were completed. In addition the Ford Motor Company is spending several million dollars to increase the power capacity of the Rouge plant at Dearborn, Mich., and several million more in miscellaneous improvements.

THE FIRST NATIONAL BANK

CENTRE HALL, PA.

PRICES for hogs were high and a farmer with two hundred choice animals planned to market them. The evening before shipping, however, he was visiting a neighbor who suggested that he make sure of market conditions by telephone. This he did and learned that the market had broken badly. Two days later, he shipped the hogs and received 1/2 cent more per pound than he had originally expected.
