Pinchot Seeks More Power. The Fair Rate Board bill was amended to strike out all the elective features. This gives the governor power to appoint and dismiss. The division of the State into districts for the purpose of election is wiped out with the entire election plan. The 'governor's promises must not be taken too seriously-during or after a campaign.

# **Choose Chevrolet** six-cylinder trucks for low first-cost

and unsurpassed economy

The economy of using Chevrolet sixcylinder trucks is an actual dollars-and cents economy that shows up, month after month, on the balance sheet. It starts with a purchase price that is one of the lowest in the market for a complete unit. It continues throughout Chevrolet's long life with an operating cost that is unsurpassed!

of leading national organizations who use large fleets of Chevrolets. They prove

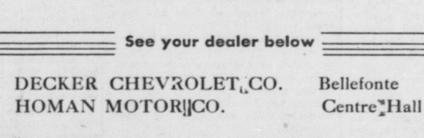

(1) That no other trucks of equal capacity give any better gasoline, oil or tire mileage than Chevrolet. (2) That the cost of keeping a Chevrolet in satisfactory running order is unusually low. (3) That Chevrolet trucks are exceptionally reliable and long-lived.

Today, Chevrolet's proved economy is available to buyers in every truck-using Consider, for example, the cost-records field. For Chevrolet offers a new line of quality bodies that includes a type for every hauling requirement.

It's so casy to do the housework with plenty of electric helpers at my beck and call! Even those old, monotonous duties ... the washing and ironing and everyday cleaning . . . cease to be drudgery. In fact, wash day simply flies; for the washing machine and electric iron do all the really hard work. And it's perfectly amazing the way my vacuum cleaner gets rid of dirt and grime.

But that's not all! Electricity at our house also means food kept fresh and wholesome by electric refrigeration . . . delicious little meals prepared right at the table with electric appliances . . .

Saves me

HOURS OF WORK

the joy of good light. And for only \$4.54 a typical month! -- Mrs. S. E. B. (an actual West Penn customer).

.

.

ENJOY ELECTRIC COOKING Besides all the other advantages of clee-

tricity, Mrs. S. E. B. could also enjoy that of electric cooking by using about 130 additional kilowatt hours of current a month . . . at an added cost of \$3.24. This total of 203 kilowatt hours, now costing \$7.78, would have cost her \$16.18 or more in 1923.

It is our policy not only to decrease the eest of current, step by step, with increased consumption, but also to reduce rates whenever possible.
