**COUNTY C. E. TO HOLD INSTITUTES.**

Under the leadership of Warren G. Hoopes, General Secretary of the State Christian Endeavor Union, the four branches of the Centre County Union will study new plans and methods for Christian Endeavor societies.

In order to reach the greatest number of Christian Endeavorers with the activities of the county union, four branch unions have been formed in the four sections of the county. North Branch is made up of those societies in Bellefonte, Bald Eagle and Nittany Valleys north of Bellefonte. South Branch is those societies in State College, Boalsburg, Pine Grove Mills, and the rural societies in this vicinity. West Branch has as its constituency the societies of Phillipsburg and vicinity as far down Bald Eagle Valley as

Port Matilda. Those societies in Penns Valley, Brush Valley, as far east as Union county comprise the East Branch. Two of these branches have selected a staff of officers in addition to the presidents who are by election at the county convention vice-presidents in county union. The North Branch has for its president, Miriam E. Beck, of Nittany; vice president, Fred Smith of the Bellefonte Presbyterian society; secretary, Ila Heckman of Hubersburg; and treasurer, Miss Yearick, of Howard. In the south Branch Harry W. Musser of Pine Hall is president; Richard Weaver of State College, vice president; Fred Markle, of Pine Hall, secretary, and Kathryn Gingrich of Boalsburg, treasurer.

April 24, 25, 26 and 27, the East, North, South and West Branches will hold respectively, institutes for all of the societies in their respective branches. Specific information is being sent to the president or secretary of each society. There is no registration, therefore, the county officers are anxious that every society be well represented. An award will be given to a society in each branch having the best attendance based on the number and percentage of membership present.

At all of these Institutes the Endeavorers will have an opportunity to turn in questions concerning their society work and to discuss in groups the following six questions: "In what way is the Prayer Meeting vital to the organization?" "Why have commitments?" "What constitutes a proper fellowship program?" "What part should activities have in the society program?" "Who should be the society officers?" "Why are the allied departments of C. E. useful in the individual's development?" Mr. Hoopes will outline the Christian Endeavor program of leadership and discuss the foregoing questions after the various groups have considered them.

**FARM CALENDAR**

**TIMELY REMINDERS FROM PENNSYLVANIA STATE COLLEGE SCHOOL OF AGRICULTURE**

**Give Pasture a Chance—**  
Do not turn cows on pasture until the grass gets a good start. Penn State dairy specialists warn. The pasture will be better all summer if the grass is permitted to get a good start in the spring.

**Use Clean Litter—**  
Clean cut straw, hay, and shavings provide satisfactory litter for the brooder house.

**Saucer Better than Mound—**  
In completing the planting of ornamental trees and shrubs it is better to create a wide "saucer" in the soil about each plant than to form a mound against the trunk.

**Plant Seeds Right Depth—**  
As a general rule, small seeds like lettuce, onion, carrot, radish and spinach are planted one-half to three-quarters of an inch deep. Large seeds like beans and corn are planted one to three inches deep.

**Pasture Saves Feed—**  
Two acres of Dwarf Essex rape saved \$97.50 in feed costs when used as hog pasture in an experiment at State College last summer. Pastured hogs gained more rapidly, ate less concentrates daily, used less grain for each 100 pounds of pork produced, and made cheaper gains than did similarly fed hogs in the dry lot.

**Cut Lawn Early—**  
Start cutting the lawn before the grass gets too long. The clipping should be often during the heavy growing period. Short clippings do not have to be raked up.

**Spray Information Available—**  
Spraying information is available to apple growers in 52 counties through the agricultural service. Following careful study of conditions in each of these counties, information on materials and time of spraying is supplied to the growers.

**Grow Good Chicks—**  
Lower prices make it important that only chicks from well-bred stock be started this year.

W. M. Lindsay, now general secretary of the Scottdale Y. M. C. A., was elected to fill the position in the Lewistown "Y" made vacant by the resignation of James H. Sourbier, to take effect beginning of May.
