BRUSH MOUNTAIN FOREST FIRE.

The greater part of both the North and the South slopes of Brush Mountain from Millheim Narrows to the Penn Hall road leading across the mountain was burned over on Saturday, Sunday and Monday. The flat escaped to some extent from the flames. A large number of men were engaged in an effort to control the progress of the fire, east and west, but during Monday the flames carried the column onward until it reached the roadways.

Some of the sections burned over were covered with good timber. The loss to young timber is great.

It required considerable effort to save some of the buildings along the foot of the mountain, notably among these were the Walker and Rufus Haugh buildings on the north side of the mountain.

FORD RELIABILITY

Long, hard use shows the value of good materials and simplicity of design

EVERYWHERE you go you hear reports of the good performance and reliability of the Ford.

One owner writes—"The Ford Tudor Sedan I am driving has covered 59,300 miles through all kinds of weather. It is still giving perfect satisfaction."

Another owner describes a trip of 3217 miles in 95 hours over bad roads and through heavy rain and sleet in the mountains. "Throughout the entire trip," he writes, "the Ford performed excellently and no mechanical trouble of any kind was experienced. The shatter-proof glass undoubtedly saved us from serious injury when a prairie chicken struck the windshield while we were traveling at 65 miles an hour."

See the nearest dealer and have him give you a demonstration ride in the Ford. Then, from your own personal experience, you will know that it brings you everything you want or need in a motor car at an unusually low price.

LOW FORD PRICES \$430 to \$630

(F. o. b. Detroit, plus freight and delivery. Bumpers and spare tire extra at low cost. You can buy a Ford for a small down payment, on economical monthly terms, through the Authorized Ford Finance Plans of the Universal Credit Company.)
