GRAND JURY MAKES REPORT.

The grand jury made its report, which was as follows: That they have acted on 37 bills of indictment of which 30 were true bills and 7 were ignored. We beg leave to further report that we have visited and inspected the county buildings and find on the condition of the Centre county jail: The front part of the building which includes the sheriff's office and living quarters, we find in fair condition, but the wall paper in the halls and sheriff's office, we find in poor condition, and in need of repair. The jail proper, that is, the cell block, we find in a deplorable condition. The cells are poorly ventilated and lighted, the plumbing of ancient character, the walls, ceiling and floors an ideal place for breeding of germs. We therefore recommend to the county commissioners, for their serious consideration, the building of a complete new cell block, including well-ventilated cells, completely equipped modern plumbing, larger cell windows to admit sunshine and daylight, electric lights in each cell, and walls and ceilings plaster-board. We find it also possible to enlarge the present cell block, as the county owns the jail yard. We further recommend that no repairs be made on the old cell block, as it is only a waste of the taxpayer's money, when said money could be applied to the construction of a new, modern sanitary and completely equipped cell block. house to the jail also needs repairs in several places. We further recommend that a new heating plant be installed in the jail building, as it requires a pressure of 45 to 50 pounds of steam during the cold weather to the jail, where it would only require a pressure of 4 to 5 pounds to heat the jail, with a heating plant in the jail; also, the smoke stack on the court house should be built up 19 or 15 feet higher, so as to eliminate the soot nuisance to the residents of High street, of which numerous complaints have been received. We beg further to recommend that the janitor service in the court house be improved, and that all toilets be thoroughly cleaned more often. A new toilet is needed in the Attorneys' room; also a new bid on the flush tank in the men's toilet down stairs. We further recommend the sign on the old Grand Jury room down stairs be changed to read, "Desertion, Probation and Parole Officer, County Detective, Juvenile Court Officer. Accordingly he went to Germany in 1524, and after visiting Luther at Wittenberg, settled with his amanuensis in Cologne where the printing of his work was being undertaken. He was forced to leave there, however, and take refuge at Worms, where his book eventually saw the light.
