Pomona Grange Meeting.

The regular quarterly meeting of the Centre County Pomona Grange will be held on Grange Park, Cettre Hall, June 6. The usual two sessions, forenoon and afternoon, will be held.

Pinchot might have mentioned in his Saturday night's speech in Bellefonte, but he didn't, that New Jersey oilers and crews oiled one of the State Highways through that town a few days previous, as they did also the State road over Seven Mountains.

FARM BOARD REJECTS

FARMERS' PROPOSAL

Organized Farmers Had Hoped for Flfrom Body to Obtain Control of Surplus Wheat Crops of 1931 to '33,

The Federal Farm Board turned thumbs down on a proposal that a nation-wide campaign be made by or ganized farmers, with financial and moral support from the board, to obtain control of the surplus wheat crops

The plan also proposed to limit the surplus from the crop of 1932 and surplus control association with a three year membership contract binding each signatory to a definite program

The board's views on the proposal were published in a letter from Chair man J. C. Stone to F. J. Wilmer, of the North Pacific Grain Growers Coopera live Assoc., of Rosailoa, Wash.

The proposal in effect, was that each tion without advance payment such proportion of his wheat crop as the board of directors might determine on a percentage basis for the crop as a whole; grain so delivered to be sold through the Farmers' National Grain Association so as not to affect the domestic market for milling wheat; the airplus ever cost of handling and transportation to be returned to the

Each grower was to limit his acreage sown for the crop of 1932 and 1933 in such percentage as the board of directors should designate. The theory underlying this proposal "evidently is that if such a campaign were success ter returns for their wheat of the 1931 and subsequent crops."

"The board's conclusion is that the plan does not afford a practical way of dealing with our great surplus prob-

lem," Stone's letter said. "We believe it would be impossible even with intensive efforts, to get enough farmers to cooperate under the proposed contracts to give the plan a fair chance of success. A uniform nation-wide contract for surplus control of acreage reduction would not be appropriate under the widely diverse conditions. Whatever benefits the plan might yield would go most heavily to those farmers who did not share in its obligations."

EXECUTOR'S NOTICE.

YOU SAVE ON EACH KWH* BY USING MORE ELECTRICITY

Many customers pay only \$3 to \$5 a month to run all these appliances and for good lighting. Of course, lighting desires vary with individual families. But today's ideal is more and better illumination, the basis of which is shaded light. And the more current used, the less, step by step, each KWH* costs you.

*KWH-Kilowatt hour-the unit used to measure electrical energy.

REBERSBURG, PA.

Prominent among the thousands of concerns using large fleets of Chevrolets are many of the leaders of American industry. In fact, 73 outstanding

business firms have purchased a total

The reason for this preference lies in the unexcelled economy of Chevrolet cars and trucks, as proved by official cost records. These records show that 20 miles to the gallon is a common occurrence among Chevrolet cars. That oil cars and trucks require only a minimum of service attention. That they give satisfactory low-cost service over exceptionally long periods of time.
