Ton for ton . . . mile for mile Chevrolet six-cylinder trucks cost less to operate

It is a matter of record, among more and more large fleet operators, that Chevrolet six-cylinder trucks give a lower transportation cost than any other truck of equal capacity in the market. These firms are finding, through experience, that Chevrolet sedan deliveries are capable of 20 miles or better, to the gallon of gasoline; that Chevrolet 1 1/2-ton trucks are making fuel records which are relatively just as high. That it costs very little to keep Chevrolet trucks in first-class working order. That Chevrolet service charges on both parts and labor are exceptionally low. That the active life of Chevrolet trucks extends well past the 50,000 mileage mark. To place your hauling on a minimum-cost basis—and keep it there—put Chevrolet six-cylinder trucks to work. A wide variety of Chevrolet-built bodies is now available. And delivered prices of Chevrolet trucks, complete and ready for work, are based on low chassis-cost and low body-cost, plus only reasonable charges for handling and financing.

Chevrolet 1 1/2-ton chassis with 131" wheelbase \$520 (Dual wheels optional, \$25 extra) 1 1/2-ton chassis with 157" wheelbase, \$590 Commercial chassis, \$355 (Dual wheels standard)
