Bellefonte Trims Us.

Last Thursday's twilight game, at home, was taken over by Bellefonte, 7 to 4, principally through the effective pitching of Montgomery, who mixed his fast ball with an equally effective slow one, so that when the tocals were not missing the fast one, they were popping up the slow one. In the early stages of the game. Centre Hall had two runners "die" on the bags in each of several innings, but the nec essary punch was not forthcoming Lutz and Martz twirled for the locals son City, N. Crowth of Law Library

A law thrary which would have en complete with all of the volumes f American decisions and all of the olumes of American statutes, has reently been calculated to have conained one hundred years ago about 80 volumes of decisions and 60 volumes of statutes, says the Nation's Business magazine. Today, it is said, a library which would be complete in the same sense would contain 18,500 volumes of decisions and 5,500 volumes of statutes. One hundred years in the future, if the increase during the last century is maintained, such a library would have to contain 1,850,000 volumes of decisions and 550,000 volumes of statutes.
