

CORRESPONDENTS' DEPARTMENT

REBERSBURG. Miss Anna Zeigler, who had been employed at State College, has returned to her home. Mr. and Mrs. Edwin Weaver and daughter Adalade, of Lewistown, were in town over the week end. William Turbert, from Pittsburgh, joined his family who had been among relatives in town for two weeks, on Friday, and on Sunday they returned to their home. Ruth Zeigler, who is staying in Woodward for the summer, was home over the week end. Mr. and Mrs. Fred Wolfe and infant daughter, from Akron, Ohio, were here for the funeral of Charles Miller, who was a relative of Mr. Wolfe. Jessie Moyer is at her home for a week's vacation from her work in the Viscoe offices in Lewistown. Mrs. David Solly, from Passaic, N. J., is at the home of her aged mother, Mrs. Jared Kremerer for a visit. Mrs. Charles Weaver from California, is visiting at the home of her nephew, Calvin Weaver, Jr. Mrs. Schecteler, who was operated on in the Geisinger hospital last Wednesday for removal of a goiter, is getting along nicely. Mrs. Eliza Meyer and her niece, Mrs. Flora Limbert, from Tyrone, are visitors at the John Moyer home, being aunt and sister of Mr. Moyer. Mrs. Emma Stephen from Rochester, N. Y., spent several days during the past week with her sister, Mrs. Chas. Smull. Phyllis Page, who is employed in a restaurant in State College, was home for the week end. Mr. and Mrs. Charles Heller, from Canton, Ohio, are at the home of Mr. Heller's parents for their annual vacation. Sara Jane Reish spent several days at the home of her grandparents, Roland Zettles, in Penn Hall.

COLYER.

Beulah Fohringer is spending a few weeks with her aunt, Miss Orpha Fleisher. Miss Blanche Lingle spent Tuesday at the home of Rev. Halsey. Frank Lingle has been seriously ill. His condition at present is somewhat improved. Mr. and Mrs. C. E. Fye and family spent Sunday at Coburn with Mrs. Fye's uncle Cooney Decker. Colyer baseball team played with the Lytle Addition team, on Thursday evening. The score was 6-3 in favor of Colyer. The local club also played a game with Boalsburg and a game with Potters Millist last week. Mrs. Savilla Cummings is planning a trip to Atlantic City next week.

BOALSBURG ITEMS.

Mr. and Mrs. A. J. Hazel and daughter Jane, and Tom Faxon, left Friday morning for Slingerlands, N. Y., to visit Mr. and Mrs. Charles Maxwell and family. Charles Kuhn, who has been ill for several months, was admitted to the State Hospital at Danville for treatment last Thursday. J. D. Patterson, E. M. Kuhn and Charles Ross, accompanied Mr. Kuhn. Miss Anna Sweeney is spending some time at Buffalo Run. A number of the Dornise and Dunkleberger families spent Sunday at Shingletown Park. Rumor has it that there are prospects of finding oil on the John Klingner farm, east of town. Mrs. Agnes Rupp and daughter, Miss Ruth, and son James, Mr. and Mrs. James Waddle and daughter, of State College, were callers in town on Wednesday evening. Mrs. Effie Rishel Shindler and Mr. Shindler, of California, are visiting at the home of the former's brother, Ralph Rishel. Thursday the Rishel family, accompanied by their guests, drove to Wilkes Barre to visit relatives. Frank Hosterman, of Cleveland, O., is spending his vacation at the home of his parents, Mr. and Mrs. H. M. Hosterman. Mrs. Wm. Rokey is entertaining her sister, Mrs. Rishel, of Pittsburgh. Gerald Rishel and Miss Mary Hazel drove to Lewisburg Wednesday, where they were united in marriage. Charles Faxon left Tuesday for Steubenville, Ohio, where he has accepted a position. Rev. and Mrs. H. L. Wink and daughter are visiting friends in Gettysburg. Miss Rachel Hunter accompanied the Gardeners of State College on a drive to New Haven, Conn. Miss Anna Dale spent several days at the home of her uncle, P. S. Dale, at State College.

15 Secure Auto Drivers' License.

Fifteen persons passed the learner's examination to operate a motor vehicle at the last test given in Bellefonte. Eighteen applicants appeared for the tests but three failed. Those who received their permits are—Carl J. Gettig, Bellefonte; Mildred L. Rupp, State College; Merrill Alexander, Julian; Blair Richard, Julian; Mrs. Anna Levi, Bellefonte; Paul Knoflinger, Pleasant Gap; Melvin Waite, Bellefonte; Oscar Miles Carter, Bellefonte; Joseph Droege, State College; Mabel G. Hagen, Coate Hall; Edith Talbot, Bellefonte; Kenneth E. Emenhiser, Bellefonte; T. R. Bowers, State College; Joseph Lucas, Bellefonte; J. W. Nicholson, Spring Mills.

Haines Township Teachers.

The Haines township school board elected the following public school teachers: Aaronburg, grammar, Ray E. Bright; intermediate, Maybelle Winkleblich; primary, Mrs. P. F. Bartges; Pina Creek, C. E. Kremerer; Lono, W. J. Winkleblich; Woodyard, Harry Burd.

The Borough of State College has asked the Public Service Commission to approve the acquisition of State College Water Company under municipal ownership.

FARM CALENDAR

TIMELY REMINDERS FROM PENNSYLVANIA STATE COLLEGE SCHOOL OF AGRICULTURE

Harvest Vegetables—Snap beans, lima beans, peas and sweet corn deteriorate in quality if not harvested soon after reaching edible maturity. Green onions, radishes, turnips, carrots, beets, asparagus, rhubarb, kohlrabi, parsley, leaf lettuce, spinach, kale, mustard, Swiss chard, and New Zealand spinach may be harvested as soon as edible portions reach a fair size.

Protect Potato Crop—Thorough and frequent spraying is recommended by plant pathologists of the Pennsylvania State College as protection against tip burn, leaf scorch, and late blight. Under the most adverse conditions, the sprays should be applied at not longer than 5- to 7-day intervals.

Save Young Trees—Visit the plantation of young pines this month. Discourage initial attacks of insects by cutting out and burning weevil-infected tops of white pine and spruce and crushing caterpillars on red and pitch pine. Prevent choking of the trees by tramping weeds aside from the trees they are overtopping.

Help Calves to Grow—Spring calves, for best results in growth and development, should be kept in the barn during the summer and provided with an abundance of good feed, fresh water, and comfortable quarters.

Promote Cleanliness—Wiring the dropping boards in the hen house not only helps to control worm infestation but keeps eggs cleaner.

Potato Growers—Plan now to attend the big Potato Exposition at the Pennsylvania State College, August 24 25 and 26.

An honest sale; all reductions granted from the original price tags at W. R. Brachbill's Ninetieth Anniversary Sale. adv

Good Insulation Vital Factor in Refrigeration.

HIDDEN MATERIAL KEEPS OUT HEAT THAT ENDANGERS PERISHABLE FOOD STUFFS, DECLARES LOCAL DEALER.

To their own regret too many purchasers of electric refrigerators fail to realize or take into consideration the vital part insulation plays in the operation of a modern refrigerator, declares W. A. Homan, local Majestic dealer. Because the insulation is completely hidden within the walls of the refrigerator, he says, many people do not even know it exists or understand that without it no refrigerator can function successfully. "If people realized," he points out, "that 80 per cent of the heat that leaks into a refrigerator seeps in through the walls and not through the opening and closing of doors or the introduction of warm foods, they would appreciate more the importance of this insulation they cannot see. "Everybody knows that every electric refrigerator has a unit that creates cold by absorbing the heat within the box, but few stop to think that this cold can be maintained economically only by preventing heat from continuing to flow in. Insulation is the thing that keeps this outside heat from rushing in to harm delicate perishable foods. The better this insulation is, the colder the interior of the refrigerator can be kept and the less it costs to operate the refrigerating unit. "There are all kinds of heat insulators. Wood, for example, is a fifty times better insulator than steel. Other materials are far better than wool. Tests by national authorities such as the United States Bureau of Standards show that Dry-Zero is the most efficient commercial insulant. Commercial cork and fibre insulating boards are placed from 20 to 30 per cent below Dry-Zero in effectiveness. "The use of high efficiency material in an electric refrigerator means a number of things including permanent refrigerator efficiency, less running time of the freezing unit, economical operation, reduced wear and tear on the unit and absolute sanitation. Because it is invisible to the prospective purchaser, he should be positive that the insulant in the refrigerator he buys is the best obtainable."

WHO PAYS? Who pays when you have an automobile accident? A law suit may determine—but why not relieve yourself of the care, anxiety and expense of legal procedure? Let a Farm Bureau Insurance policy protect you. A farm policy for farmers—a rural policy for town and small city folks. Free information from C. N. KRYDER, Agent CENTRE HALL

Mary Brown Gets A Permanent Mary is a charming girl from a farm that is not yet electrified. But does that keep her from looking her best? Not in this day and age. Mary is getting a permanent. And dozens of times today electricity will be of service to her . . . drying her hair, running the fans, heating the irons. This invaluable service, available in all progressive communities at all times is just one of the many ways electricity comes to you cheaply, certainly, because dozens of electric generators in many stations are interconnected. You can depend upon an interconnected system and the experienced men behind it. WEST PENN POWER CO.
