THE TRAFFIC IN BREAD AND BUTTER

In its issue of last week the Millheim Journal exposes the methods employed by local Republican leaders in that section that are entirely reprehensible, and since road construction will become more general under the 20,000-mile road program as fall approaches, the contemptible "traffic in bread and butter," in vogue there is liable to be adopted elsewhere. The tactics, one must believe, are sanctioned by high Republican leaders in the county and in the State too. The Journal's view, under the above caption, is reprinted in full, as follows:

For the past several weeks activity has been directed toward the matter of getting more Democrats to join the Republican ranks in the borough. While this practice has been in vogue for the past six or more months, the real drive has just begun and coercion is being used freely—coercion of the sort that decency and respectability have had no contact with.

We refer specifically to the activities of W. R. Grazer, proprietor of the National Hotel, and of S. J. McMullin, so-called chairman of the Republican forces of the borough.

In the matter of the jobs that were given out on the State highway work in the Fourteen Mile Narrows, some few men who gave no satisfaction in the matter of changing their politics were "given the air" at the direction of this slick pair who, apparently, have precedence over the caretakers of the road. Several men who were just taken on the forepart of the week, were put off following the arrival of two "lists" of ineligible, one of which came from Millheim and the other from Spring Mills according to reports which reach us first hand from the men who are left out.

We know that the work at that point is about finished, but it will take several weeks until that is done and meanwhile men with families are thrown out of work while men with no dependents are kept on—all through political pull. We do not hesitate in naming Grazer and McMullin as being the instigators of the whole mess that has brought to a boiling point a situation that has been in the public eye for more than a year. We are informed of one man in Miles township, whose wife is ill, who was thrown out of employment, while another, who has a store at Wolfs Store, and carries the mail between Rebersburg and L'Ansonia, is kept on. The difference is nothing more or less than politics. Another man, from this borough, was put off, he also having a family and being disciplined for his refusal to change his politics. The slick pair sat on this man's porch not long ago and endeavored to "make him see the light." He could not see it and was warned at the time of the outcome. Even when he was laid off, Grazer advised him not to make a fuss about it.

These two have a number of companions in their political activities hereabouts, and as a matter of fact they are all tarred with the same stick. We sometimes wonder if this gang of political outlaws thinks that anybody is afraid of them. They act that way. If they think they can deliberately trade bread and butter on votes and are operating on that basis, it is high time that the citizens of this section put a coat of tar and feathers on them and ride them out of town on a rail. Any individual who places party loyalty ahead of common decency and humanitarianism, is certainly not entitled to consideration as a citizen.

It is talked about that McMullin gets two cents an hour on every man he sends over on that road job. We cannot verify that, nor is it probable that anybody else can, for that would mean that the State funds were being used to further the political interests of the Republican party, a piece of paternalism that is illegal. So it will be hard to prove—but there a large number of voters who believe it to be true.

Since the Republican party in Pennsylvania has been proven guilty of greater graft procedure than this, it seems there is reason to believe that Pinchot the Promiser would not stop at such a small figure of two cents an hour to pay his henchmen.

While we are facing the worst unemployment crisis this section has ever known, it is a reprehensible act of the foulest sort to find that some of our citizens are using the crisis—apparently deliberately—to take bread and butter from the needy as a part of a program of political aggrandizement. Of course, the alternative of opening one's politics is the course left open to the man out of work.

We have with us as raw a system of imperialism as the one we went overseas to knock out of Germany some few years ago, when McMullin found it necessary to take an affidavit that he was needed by his father. He had worked for a considerable period prior to that in Ohio, and when he saw that it was inevitable that he must go out in uniform, he made the affidavit. He was "hornswoggled" out of that idea and made an enlistment in a non-combat unit. A fine fellow to lead the political forces of any party.

Too many of us are inclined to think of flies in terms of physical discomfort and inconvenience, yet there are probably no other carriers of disease that spread so much sickness as flies. They are known to carry the germs of at least thirty different diseases. Since flies breed on filth, even a single fly is a source of danger, and this should move us to clean up about this should be harmless to man and animals but fatal to insect pests, and lastly, use the swatter.

FUTURE FARMERS WEEK AT PENN STATE, AUG. 17-20

The second annual Future Farmers Week will be held at the Penn State College beginning on the afternoon of Monday, August 17, and concluding on the morning of Thursday, August 20. The Future Farmers' National Organization is composed of boys enrolled in Vocational Agriculture.

In preparation for this, a livestock judging contest was held at State College recently for the purpose of selecting judging teams to represent the Harris and Gregg Township Vocational schools and the various schools under supervision of the county superintendent.

This contest was held in conjunction with the county agent who at that time also selected his 4H Club judging teams to represent Centre county in the annual 4H judging contest at State College the week of August 12th.

Each teacher from his school brought a group of boys who competed for a place on the respective teams. Three individuals were selected in each class. The Centre County Vocational teams are:

Gregg Township—(A. Poultry): 1. John Zubler; 2. Cameron Musser; 3. Kenneth Eungard. (B. Dairy): 1. Stover Musser, 2. Kenneth Johnson; 3. Stellard Beightol.

Harris Township—(A. Poultry): 1. Thomas Ross; 2. Cyrus Wert; 3. Hugh McClintic. (B. Dairy): 1. Wert Bohn; 2. Fred Dale; 3. Lynn Mothersbaugh. (C. Livestock): 1. Harry Adleman; 2. Dan Mothersbaugh; 3. William Ross.

County Supervisor Teams—(A. Poultry): 1. Mildred Hinds; 2. Jean Krape; 3. Emma Krape. (B. Dairy): 1. Gerald Zimmerman; 2. Elmer Confer; 3. Clair Hinds.

Arrangements have been made at the College to give the boys and girls some special instruction in judging on Monday evening, the 17th, at 7:30 o'clock. This instruction has met with so much approval that it is repeated again this year under more favorable conditions.

The State-wide judging contests will begin on Tuesday morning, August 18. Each Vocational school department, and county supervisor may enter a team of from one to three boys in each contest. The ten boys ranking highest in the dairy and livestock contests will compete in final contests on Wednesday morning August 19. The three boys ranking highest in each of the final contests will represent Pennsylvania at the National Dairy Show and the American Royal Livestock Show, respectively. Arrangements will be made for extra boys, not members of teams, to judge in separate groups.

The contests will include:

(a) Dairy Cattle: 4 classes, heifers and cows.

(b) General Livestock: 1 ring each of horses, beef cattle and sheep, and 2 rings of swine.

(c) Poultry: 4 classes—standard production basis; pens selected from White Leghorns, Barred Rocks, or Rhode Island Reds.

(d) Farm Shop: 1. the use of carpenter's tools, 1 1/2 hrs.; 2. rope work, 45 min.; 3. farm mechanics tools and materials, 45 min.

The boys in the various communities are doing jobs of various kinds in order to earn money enough to go to State College. The Future Farmer Chapter of Harris Township held a festival last Thursday evening to earn some needed funds for the school. The Gregg Township Chapter expects to hold one August 8th for the same purpose.

It is talked about that McMullin gets two cents an hour on every man he sends over on that road job. We cannot verify that, nor is it probable that anybody else can, for that would mean that the State funds were being used to further the political interests of the Republican party, a piece of paternalism that is illegal. So it will be hard to prove—but there a large number of voters who believe it to be true.

Since the Republican party in Pennsylvania has been proven guilty of greater graft procedure than this, it seems there is reason to believe that Pinchot the Promiser would not stop at such a small figure of two cents an hour to pay his henchmen.

BRUCE ZETTLE HELD ON TWO CHARGES

Bruce Zettle, of near Spring Mills, was committed to jail in default of \$1000 bail on two charges—stealing chickens and violation of liquor laws. On the first charge Justice E. T. Jamison, before whom the hearing was held, fixed the bail at \$200 and on the second, \$1000. The liquor violation was discovered following a search warrant for the fowls.

It will be recalled that a few weeks ago an item appeared in these columns relating that Roland Zettle, of near Penn Hall, discovered a car parked at the road leading to the John Hosterman home and waited to see the claimants, when the party in question—Bruce Zettle—another young man came along with a bag with more than air in it. The watchman demanded to know the contents, when eight fat hens were shown.

GRANGE FAIR COMMITTEE SEE SUCCESSFUL 1931 FAIR

Buildings on Park Undergo Improvements—Addition to Headquarters Building—\$40.00 Prize for 1st Place in Grange Plays.

The Grange Fair committee met on Grange Park last Thursday evening, and since every member was present there was a general discussion of plans and prospects for the coming fair. It was the united opinion appearances were favorable for a successful season. Each superintendent reported his department well in hand in the matter of preparations. Buildings were undergoing general improvements and repairs. Headquarters has had an addition built to it; one which will very much increase its usefulness in handling the complicated business of the fair and camp. Those who work there are only too familiar with the difficulties often encountered on a busy day in efforts to make things run smoothly. The horticultural building, weather-boarded and painted in accordance with the color scheme in force, will add materially to general appearances. The buildings surrounded by shrubbery are in ideal settings which in time will grow more beautiful.

The superintendent of grounds has authority to purchase crushed stone for road improvement, and, if we remember, it is a far cry from the mud of the early years on Grange Park to the present condition of walks and drives. However, the committee is ambitious for further improvement.

Four granges are preparing plays for evening entertainments in view of the fact that Centre county brought home a prize from the Farm Show at Harrisburg, proving the splendid talent engaged in the dramatic groups in the subordinate granges of Centre county. We may expect something worthwhile. In this connection it may be of interest to know that Centre county was one of the first to take up this work and carry it through successfully. (Note: This year each prize has been increased \$10.00 and will be paid as follows: \$40.00, \$30.00, \$25.00 and \$20.00.)

The premium book is in the hands of the printer and it is hoped to have it ready for distribution by August 1st. It is a compact little booklet of 68 pages to which much thought and effort have been given and it is hoped it will be received with satisfaction by the people. The information desired by the prospective exhibitor is given in detail and the classes and prizes listed which should induce a larger number to exhibit. The great amount paid in cash prizes is evidence of the financial gain to the exhibitor. To the camper and to the public at large there is information in this premium book. The business advertisements and personal announcements make it of value and interest to all.

The business advertisements and personal announcements make it of value and interest to all.

The premium book is in the hands of the printer and it is hoped to have it ready for distribution by August 1st. It is a compact little booklet of 68 pages to which much thought and effort have been given and it is hoped it will be received with satisfaction by the people. The information desired by the prospective exhibitor is given in detail and the classes and prizes listed which should induce a larger number to exhibit. The great amount paid in cash prizes is evidence of the financial gain to the exhibitor. To the camper and to the public at large there is information in this premium book. The business advertisements and personal announcements make it of value and interest to all.
