

FARM CALENDAR

TIMELY REMINDERS FROM PENNSYLVANIA STATE COLLEGE SCHOOL OF AGRICULTURE

Grow Good Fence Posts—

There are very few kinds of native trees which produce wood that will last a long time when used as fence posts. To use other than durable wood is a waste of time and material; it is a much better investment to buy and set steel or concrete posts for the farm fences. The best species are locust, red cedar, sassafras, heart cherry, and heart white oak. Farmers might well grow locust on idle land.

Exhibit at Fairs—

Fair time is coming. Alert farmers will advertise their business by exhibiting their best produce at the fairs.

Pack Fruit Well—

Fruit that is packed well will go through market in better condition and will sell quicker for a higher price, say Penn State horticulturists.

Kill Quack Grass—

If cultivation is to be effective against quack grass, it must be thorough, frequent, persistent and properly timed.

Hold Club Week—

Nearly 1000 boys and girls are meeting at Penn State, August 12 to 15, for the annual Club Week of the Pennsylvania State College. Recreation, instruction, and judging contests are the principal activities.

Improve Every Year—

Every community has some farmers who profit by the mistakes of the past because they attempt to make each year better than the past. They use experience as a building stone.

Spray Potatoes—

Potatoes should be sprayed with bordeaux mixture to protect them from late blight. The longer the vines are green, the more the tubers will grow and the better will be the crop.

The Harbison Walker Refractories plant at Monument has received an order for 250,000 fire brick which will put the plant on a running basis of five days a week for the next six weeks, possibly six days a week.

ward Cave, recently. The Aaronburg band played several selections, and Mrs. Randall Meyer extended greetings to those present. Herbert E. Stover, of Lewisburg, gave an address on "The Spirit of the Pioneer." The Stover ancestors were among the early settlers in Penna Valley. Following this address a dinner was served. The band again played several selections and the remainder of the afternoon was spent in playing games.

A prize was given to the person who came the greatest distance, this being awarded to Mrs. Clymer Stover, of Akron, O. About 300 descendants of the two families were present. The officers for the ensuing year were elected as follows: Herbert Stover, of Coburn; president; Irvin A. Meyer, of Coburn; secretary; A. S. Stover, Aaronburg; treasurer; Mary Meyer Abbott, Robersburg; and Rev. J. J. Weaver, of Penbrook, historians.

Plenty,
Mr. Smith,
Plenty

A large Eastern manufacturing company was seeking a location for a branch plant.

The industrial engineers of your power company learned of the requirements needed, made a survey, and found a likely location. "Just the thing," said the manufacturer's representatives. "Rail facilities, labor and raw materials—all here—now how about electric power supply? We need a lot."

"Plenty and some to spare, Mr. Smith," answered the engineer. "Through our interconnected system of generating stations we guarantee an abundant supply of dependable power."

The plant was built—new families and a new payroll came to the community.

The progress of your community is the business of your utilities.

THE GREATEST VALUE EVER BUILT INTO A FORD CAR

The Beautiful Ford Tudor Sedan

\$490

(F. O. B. Detroit, plus freight and delivery. Bumpers and spare tire extra at low cost.)

WHEN you buy a Ford car today, you buy what is unquestionably the greatest value in the history of the Ford Motor Company. Never before has so much beauty, comfort, safety and performance been offered at such a low price.

The low price of the Ford is something to think about because it means an immediate saving of many dollars — always an important consideration. But far more significant than price alone is what you get for that price. When high quality is combined with low price, you may justly take pride in having found a most satisfactory purchase.

See the Ford — ride in it — learn something about the value that is built into every part. The more you know about it, the more certain you will be that it is the car for you. It is literally true that when you "get the facts you will get a Ford."
