

## GRANGE FAIR IN READINESS FOR OPENING

Today Hundreds Will Move Into Tents for Week's Pleasure.—Tent List Up to Former Years.

Preparations for the great Grange Fair are completed and this (Thursday) morning the gates will open to the tenters. All tents owned by the association will be floored and furnished with tables, bench and bunk. All tents not owned by the association will be furnished in like manner as long as the supply of these articles lasts.

All tents will be wired for electric light at no additional expense. Special wiring has been necessary to supply electricity for cooking, and current can be depended on at a cost of \$1.50 for the week for this convenience. The lines for lighting alone will be cut off in the morning and again connected in the evening.

Tenters depending on oil stoves for cooking will find oil may be purchased at stated hours on the ground. Straw for filling ticks may also be purchased. Ticks and steel cots may be rented. Incoming tenters are advised to report to headquarters in order to be directed to the correct location and avoid confusion.

Garbage cans are placed at suitable points for the convenience of the tenters and by removing garbage daily it is expected the grounds will be kept in a good sanitary condition all week.

By Saturday afternoon the tenters are comfortably settled and entertainment begins with a ball game, continuing in the evening with a grange play.

Sunday afternoon the usual Harvest Home services will be held in the auditorium and in the evening the Presbyterian church of Centre Hall will hold their Christian Endeavor meeting in the auditorium, and have planned some interesting and unusual features.

Monday morning all is in readiness to receive exhibits, and by evening it is hoped to have every department complete, exhibits in place, making it possible to open Tuesday morning to the public with a good show. Live-stock, poultry, pet stock, including rabbits, horticultural, needlework, machinery, automobiles, and all special exhibits such as schools, granges, clubs, will be full as usual and found interesting and educational in value; something Centre county may view with pride as its own products are on exhibition.

Three days follow filled with entertainment, education and pleasure. No effort has been spared to make of this an Encampment and Grange Fair equal to those of past years. The management feels sure at its close on Thursday night every one will be satisfied and go home with the expressed opinion it was a good year.

## OLD LANDMARK OF COLLEGE TOWN TO DISAPPEAR

New Structure of State College to Be of Native Mountain Stone With White Cast Iron Trim.

A new Reformed church is to be erected at the corner of East College avenue and Miles street, State College, and the old church building now occupying that site will pass into history. This church was erected when State College was still a small village and was used for many years by the Presbyterian congregation. Since 1913 it has served as a place of worship for the Faith Reformed congregation.

Construction of the new church will begin immediately and it is expected that the new building will be ready for occupancy in March. Until that time the congregation will conduct its Fellowship and school services in the Odd Fellows hall.

The plans call for a church of English gothic architecture, with a connecting church school building. The structure will have walls of local mountain sandstone with a trim of white cast iron.

The church will have a seating capacity of 325. The interior has been designed to reflect, in a simple but dignified manner, the early English gothic style of church architecture. The adjoining school building will accommodate a church school attendance of about 350. In addition to the department and class rooms of the first and second floors, this building will have a small chapel, seating about 80 persons, on the second floor. The basement of the school building will provide facilities for the social and recreational activities of the congregation.

The general contract has been awarded to the Wilson Construction Co., Johnstown.

## From the Manse.

Mrs. S. C. Smith, Mrs. Marie Kirkpatrick, Miss D. L. Kirkpatrick, Mrs. J. Andrew Smith, Prof. and Mrs. J. Andrew Smith, while there they visited at Auburn and spent a day along the shores of Lake Ontario. The Kirkpatricks returned to Centre Hall on Thursday but Mrs. Smith is going to spend a month with her son at Union Springs.

Miss Grace White is spending a few days with her friend, Hazel Christ, in Altoona this week. She went by motor with Mr. and Mrs. Benfer, of Beaver Springs.

Miss D. L. Kirkpatrick and John Kirkpatrick are visiting Miss Kirkpatrick's sister, Mrs. Frank White, at Three Springs and several aunts at Spring Run, Franklin county, this week.

Mrs. J. M. Kirkpatrick started Tuesday morning with her brother, Thomas Haugh, of State College, and his wife and daughter Betty to visit Charles and Harry Roland, in Chicago. The Rolands are uncles of Mrs. Kirkpatrick and Mr. Haugh.

Miss D. L. Kirkpatrick, of Girard College, Philadelphia, spent two weeks in the Bermuda Islands before she came to Centre Hall. She reports having a fine trip. Miss Mildred Wieland, of Linden Hall, sailed on the same ship to Bermuda as did Miss Kirkpatrick.

Presbyterians please note: There will be no regular preaching services in the church on Sabbath. The preaching hour will be taken for the C. E. society which will be held on the picnic ground at 7:30 P. M.

Well, one important matter has finally been decided, namely, who is the winner of the first-half of the county baseball league race. Now we'll settle down for another important session, and prepare to eliminate a peck or so of office seekers.

There's a fly in the ointment of Grange picnic for the boy and girl. They know that when the week of fun is over, it's back to school for a long grind.

## Birthday Party for S. S. Teacher.

A class of young girls in the Lutheran Sunday school organized under the name of "Junior Workers" gave a birthday party to their teacher, Mrs. Harold Durst, on Friday evening. It was a genuine surprise in every sense of the word. The young people prepared refreshments and congratulated a convenient party, reaching the John Durst home where Mr. and Mrs. Harold Durst are staying until their new home is completed. In a body, the evening was most pleasantly spent, a playlet having been a number on the program.

In addition to the class named, members of the Missionary Society were also invited, a large number of whom were present.

Mrs. Durst was presented with handsome gifts and cash.

The following comprise the members of the "Junior Workers" class: Laura Breon, Evelyn Colyer, Betty Ebricht, Mary Garver, Gladys Keller, Lorraine Gentzell, Helen Weaver, Helen Rines, Miriam Mitterling, Thelma Clark, Winifred Fetterolf, Madeline Emerick, Miriam Emerick, Edith Potter, Sara Burris, Dorothy Emerick, Dorothy McClellan, Margaret McClellan.

## INNOCENT, SAYS CROW. ONE OF FOUR EXECUTED

Four men were electrocuted at Lockview Penitentiary Monday morning. They were: Carl Crow, Frank Cantilla, Frank Powell, and Joseph Paris, all of Cambria county, who were convicted of killing Louis Hoffman, near Johnstown, during a quarrel over the whereabouts of a cache of liquor.

Just 23 minutes were required to put the four men to death. Paris was the first to go, followed by Powell, Cantilla and Crow.

Only Crow had anything to say. After receiving permission from the prison chaplain, Father Frank McCreech, Crow said: "I am innocent; I am as innocent as a little baby. God bless my little boy."

Cantilla had to be supported as he entered the death chamber. Paris and Powell went to the chair reciting the litany after the chaplain without visible emotion.

## Future Farmers Make Tour.

The Future Farmers organization of the Gregg Township Vocational school sponsored a four-day tour of Northern Pennsylvania and New York State. Twenty-one of the boys made the trip in a large truck. Material was taken along by each boy and they camped at tourists' camps or other points of interest. The group left Tuesday morning, August 11, and going north from Williamsport, visiting various places of interest, stopping at Watkins Glen, N. Y., visiting the Finger Lakes in New York, then north through the fruit section to Lake Ontario. The route then selected led along the shores of Lake Ontario through the fruit and vegetable section to Old Fort Niagara. From this point they followed the Niagara River to the Falls, visiting as many points as possible in the great gorge. One night was spent in Niagara Falls, N. Y., so as to see the great falls when illuminated at night.

The group then passed through Buffalo, where they visited the docks and saw automobiles, iron ore and grain being shipped in from various points in the U. S. On the trip home they passed through the fruit country along Lake Erie, visited the vocational school at North East, then took the Lakes-to-Sea highway, arriving home Friday.

The trip covered a distance of 729 miles. All the boys enjoyed the outing and agreed that it was a trip worth while. The money necessary for the defraying of traveling expenses was obtained by holding a festival and conducting a class project in growing early plants.

## Dynamited Fish.

A trio from Millinburg county got themselves into a mess, one day last week, when they drove to near the George Kline place, along Penns Creek, near Penn Hall, and set off a charge of dynamite at a point where fish are usually plentiful. They were discovered by Mr. Kline, who took the license number of the car used by them, and reported the matter to the proper authorities. The result was that W. A. White, Charles Scott and Carl Beaver, all from about Lewistown, were placed under arrest and when brought before "Squire" R. D. Musser, in Gregg township, were each fined \$100 and costs.

## Return from Trip to Pacific Coast.

Miss Anna Grove and sister, Mrs. R. F. Williams, of Centre Hall, and Miss Minnie Sensor, Mrs. Hall and Mrs. Lizzie Hogan, of Unionville, returned home Saturday after a six weeks' auto tour which took the ladies to the Pacific Coast.

They traveled seven States and covered a total distance of 8,000 miles. They reached Portland, Oregon, and then motored the entire distance down the coast to Los Angeles, California.

## UNEMPLOYMENT BASIS FOR ROAD JOBS IS PINCHOT ORDER

Governor Pinchot has ordered employment of laborers on road construction work by the State Highway Department on the basis of unemployment relief and not on the consideration of political party affiliation.

He has requested Secretary of the Highways Samuel S. Lewis to issue a special order to State Highway superintendents in each county directing them to employ laborers on highway construction without reference to whether they are Republican or Democrat, but primarily with reference to their need of work, as well as their ability to do the work.

## Laurelton Village Officials Capture Runaway Girls.

Three girls who escaped from the Laurelton State Village during the recreation period Saturday evening were captured near Hairy John's Park in Centre county, six hours later by attendants at the home.

The girls, Florence Keene, 18, Margaret Hess, 22, and Loretta Gorman, 22, were seen walking along the highway by a Bellefonte man. They immediately ran into the woods and the man then suspected them as having escaped from the home. He got in touch with officials at the village, and Miss Catherine Lomson, Charles M. Shwalter and Miss Annie S. Catherman, employes there, were sent to Hairy John's. The girls were identified and were taken back to the home.

## BANKERS IN CONFERENCE

AUGUST 25th to 28th

Bankers of this and neighboring States will hold their fourth annual conference at the Pennsylvania State College, August 25, 26 and 27. The visitors, members of the agricultural committee of the Pennsylvania Bankers' Association and county key bankers, will spend the three days discussing relations between the banker and the farmer, particularly problems affecting Pennsylvania agriculture. The conference will overlap one full day with the potato exposition sponsored by the Pennsylvania Potato Growers' Association.

Among the topics listed for discussion, and one of the principal ones, is the rural bankers' responsibility in the present agricultural depression. Other discussion sessions will cover every phase of bankers' relations with farmers.

## STATE COLLEGE HOST TO FUTURE FARMERS

The second annual meeting of the Future Farmers of America is in session at the Pennsylvania State College this week. About 800 boys, pupils in vocational schools, are attending the conference which includes several judging contests and a public speaking contest. The winner of the speaking contest will represent Pennsylvania in the regional contest for North Atlantic States in Springfield, Mass., in September. Judging contests have been arranged in the following divisions: dairy cattle, general livestock, poultry, and farm shop.

How's this for throwing things into reverse: A few years ago a farmer was hailed as a real benefactor of mankind who could make two blades of grass grow where but one grew before. Now the Government wants southern farmers to destroy one-third of their cotton plantings so that the crop will not be so large.

Grange Park viewed from the top of Old Nittany, again presents the appearance of a tented city. Many of the tents are new, and the "army" that will be encamped within them for a week is an army of the most peaceful citizenry in the good old U. S. A.

An Auburn sedan, stolen in Lebanon, Tuesday night, was found on Sand Mountain above McKinneys, partially wrecked and lying on its side. The occupants escaped without being seen. There were three sets of license plates with the car.
