BOALSBURG ITEMS.

Mrs. F. M. Charles and daughter, Pauline, are visiting friends in Philadelphia.

Mrs. George Mothersbaugh and daughter Ruth were guests of Mr. and Mrs. Charles Mothersbaugh of State College, on a drive to Pittsburgh where they were entertained at the home of Mr. and Mrs. R. R. Stuart.

Misses Anna Mary Hess and Ruth Crain accompanied a friend from Altoona to New York on Friday morning, returning home to attend Teachers' Institute in Bellefonte.

Miss Melva Jacobs, in training for a nurse in a Children's hospital in New Jersey, spent Sunday night at the home of her parents, Mr. and Mrs. Edward Jacobs.

Mrs. Harry McGirk of Bellefonte, spent Saturday and Sunday with her sister, Miss Anna Dale.

Alfred Lee is having a new heating plant installed in his residence.

Mr. and Mrs. H. M. Hosterman enjoyed a week-end visit with their son Charles, at Greensburg.

Very interesting services were held in the Lutheran church on Sunday at 10:30, in honor of the pastor, Rev. W. J. Wagner. Rev. Wagner entered the ministry forty years ago and for the past ten years has been the very efficient pastor of the Boalsburg charge. The sermon for the occasion was preached by his son, Rev. John H. Wagner, of Hudson Heights, N. J., who also read a number of congratulatory messages, among them one from Dr. Kneubel, President of the United Lutheran Church of America. A large and attentive audience participated in the service, friends from other nearby towns being present. Another service was held at St. Mark's, Pleasant Gap, in the evening, Rev. J. P. Harkins of State College, bringing the message. The church and Sunday school room were filled with interested friends who extended congratulations and wish for Rev. and Mrs. Wagner many more years of continued success in their chosen work. At both services tokens of appreciation were presented to Rev. Wagner. The churches were decorated with flowers and ferns and altogether the occasion proved quite delightful.

SPRING MILLS

James Houser made public sale of his property last Saturday. He sold his home to his son, Clair, who intends to occupy the same within the near future.

Mrs. Carrie Ertel and daughter, Miss Ruth, intend moving to Lock Haven about November 1st.

Mr. and Mrs. Wachstetter, of Bethlehem, were visiting at the parental home of Mr. and Mrs. J. C. Lee.

J. Russell Condo, teacher of the Grammar school, deserves credit for the way he has his pupils trained and under control. Whenever they march from the school house to the Grange hall they have all the appearance of a military body.

Mr. and Mrs. Bruce McCormick of Sunbury, spent the week-end at the home of Mr. and Mrs. William Osman.

Mr. and Mrs. Burres of York, visited at the home of Mr. and Mrs. C. B. Stover.

Tom Kerstetter spent a few days visiting his father, Frank Kerstetter, at Coburn.

The Rising Springs Water Company installed new pipe on their water line from the home of Cashier H. F. Rindley to the extreme western end of town.

T. F. Auman Freed from County Jail.

A court order was filed placing Thomas Franklin Auman, of south Potter township, on probation for a period of twenty years and granting his release from the county jail on the payment of \$250 and the costs in the case. It will be recalled that Auman, who is past seventy years of age, was convicted at the September term of court of the crime of arson for having set fire to his own home in Potters Mills, which resulted in but small damage. He was sentenced to pay a fine of \$250, the costs in the case and one to twenty years in the western penitentiary. The sentence was later modified to make the imprisonment in the county jail and this was followed by the order of probation.

Innocent Yet Condemned.

In an automobile accident the innocent often pay—you may not be at fault but could you prove it? Relieve yourself of risk and worry with a low cost Farm Bureau policy. FARM CALENDAR

TIMELY REMINDERS FROM PENNSYLVANIA STATE COLLEGE SCHOOL OF AGRICULTURE

Store Bulbs Safely—

Bulbs, including dahlias, gladiolus, cannas, and others which have bloomed during the summer, should be taken up as soon as frost has blackened the tops. Place in a dry, shaded place until the tops are dead and the bulbs dry. Leave considerable stem when cutting the tops and store the bulbs in boxes in a place where potatoes keep well.

Protect Housed Pullets—

Prolapsus and cannibalism are common in pullet flocks soon after they are housed. Many poultrymen have found it practical to remove the tips of the upper beak on all birds. This practice will prevent losses for two weeks after which the birds may find other things to attract their attention.

Prepare Hothed for Spring—

Soil and manure should be cleaned out of hothed this fall so that it will be ready for use in the spring. This also makes a fine accessible place for storing celery, root crops, potatoes and cabbage.

Feed Hungry Bees—

Bees that do not have sufficient food of good quality for winter should be fed sugar syrup before cold weather.

Reduce Living Costs—

One way of helping to reduce farm costs is to produce as much of the family living as possible on the farm.

Drink Plenty of Milk—

Good health demands plenty of milk. It supplies the body with necessary materials in exceptionally healthful and economical forms.

Pick Apples Promptly—

A heavy dropping of apples indicates that the fruit should be picked without delay. Prompt action will prevent loss.

Leaders to Meet—

Cooperative leaders will meet at the Pennsylvania State College, November 5 and 6, for the sixth annual conference.

Work on the Port Matilda-Philipsburg highway is being rushed to completion. Although almost two months of working time still remains for the contractors the work will be completed this fall if the weather continues to be suitable for the work.

The cross roads leading from Spring Mills to Route No. 95, by way of Farmers Mills and Penns Cave, recently received a coat of oil and later is to have an application of heavier oil and limestone chips.

Nothing less than a six can give you built-in smoothness

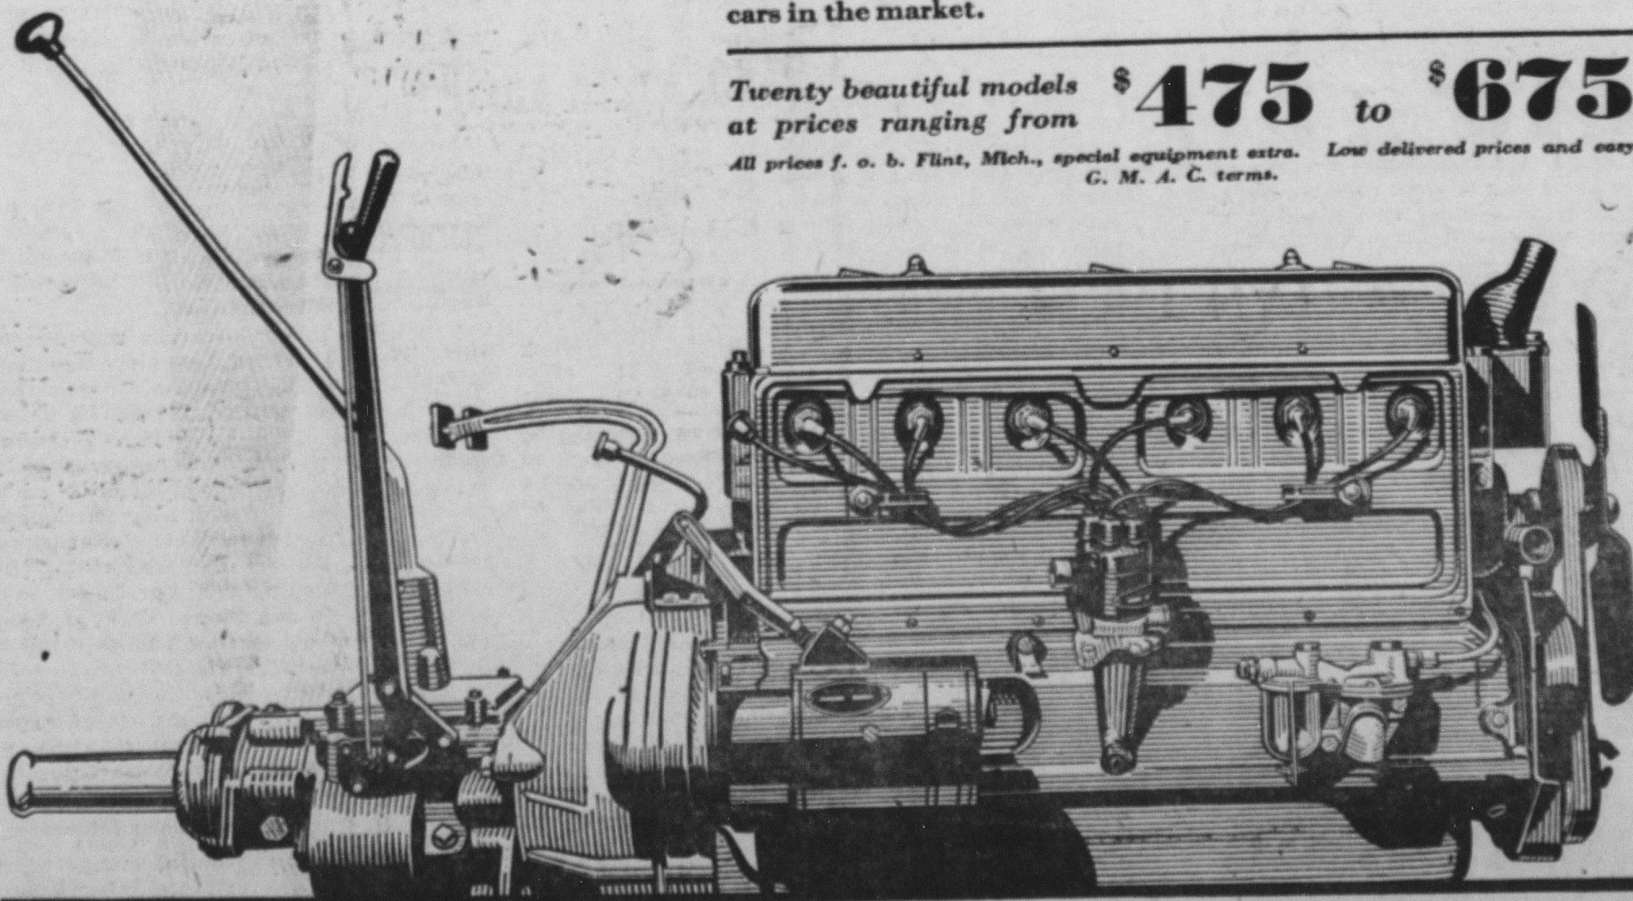

The whole question was settled long ago—as to how many cylinders it takes in a motor car engine to give satisfactory smoothness. Science definitely established the fact that at least six are necessary. And today, the public accepts the multi-cylinder engine in the same way that it accepts 4-wheel brakes, parallel-mounted springs and every other principle of proved and acknowledged superiority. Everybody knows that nothing less than a six can give you built-in smoothness.

This general acceptance of the multi-cylinder idea has had a great deal to do with the fact that the Chevrolet, month after month, during 1931, has been the largest selling automobile. For Chevrolet is a six.

Today, this six-cylinder smoothness and dependability are within reach of every new car buyer. For Chevrolet has produced a quality car, powered it with a firmly-mounted six-cylinder motor—engineered it to run at less expense for gas, oil and upkeep than any other car—and priced it right down among the very lowest-priced cars in the market.
