Because some foolish people argue
there is no Santa Claus, is no reason
why we should begin to think there is
no Uncle Sam either. They are both
real, but Uncle seems to be a bit
disposed just now.

At a special term of court held on
Saturday, Homer Detwiler, of Potters
Mills, was granted a parole upon con-
dition that he arrange to pay the fine
and costs to the parole officer. His of-
fense was a liquor law violation.

New Chevrolets Now Displayed
Aid Employment Throughout U. S.

Above: Special Sedan
Right: Head-on View

Chevrolet's new car for 1932, em-
bodying silent Synco-Mesh trans-
mission in combination with selective
free wheeling as standard equipment
at no extra cost, and practically every
proven automotive advance of recent
years, is now displayed at dealer show-
rooms throughout the country.

While remaining in the price class
in which it won world leadership this
year, the new 1932 models offer fea-
tures heretofore considered exclusive
to the high price field, as well as a new
front end mounting never before
shown on any car.

Called "The Great American Value
for 1932," the line offers in support of
this slogan a twenty per cent increase
in power, faster acceleration, top
speeds of 65 to 70 miles an hour, new
Fisher bodies with a modern stream-
line styling, down-draft carburetion,
counter-balanced crankshaft, finger-
touch front seat adjustment and
many other refinements over the 1931
models, which, from the standpoint of
public acceptance, were the most suc-
cessful in the history of the company.

Twenty standard and de luxe
models are in the new line, of which
the Special Sedan, pictured above, is
the aristocrat. The lower view shows
the new front end and the massive,
powerful appearing hood enclosing
the improved engine.

In addition to interest centering on
the cars themselves, the announce-
ment at this time has national sig-
nificance in that activity brought on
production of the new cars is
expected, at conservative estimates,
to add materially to the earnings
of 200,000 people throughout the
country just before the holiday season
and before the severe winter season
sets in.

The company's 21 domestic plants
all are busy producing cars as fast as
precision manufacturing limits will
permit so that deliveries may be made
with the least possible delay. More
than 30,000 of the new cars already
have been built for dealers' showrooms
displays, and more than that quantity

DEATHS.

JAMISON.—Mrs. Alice Jamison, wife
of Edward E. Jamison, died at her
home in Spring Mills, from Bright's
disease, close to midnight on Friday.
Funeral services were held on Tuesday,
and interment made in the Spring Mills
cemetery. Services were conducted by
her pastor, Rev. S. F. Greenhoe, of the
Lutheran church.

The deceased is survived by her husband
and two sons—Miller Jamison, of
Mill Hall, and Guy Jamison, at home.
Mrs. Jamison was the youngest
daughter of Emanuel and Julia (Meyer)
Fye and was born at Boalsburg. She
was aged 48 years, 5 months and 25
days. There also survive her three sis-
ters and a brother—Mrs. William Ho-
man and Harry E. Fye, of Centre Hall;
Mrs. Charles Stover, Millheim; Mrs.
Leonard Stover, Coburn.

The deceased had been ill for several
months. She was taken to the Geis-
inger hospital, Danville with the hope
that relief could be had, but that hope
was shattered when the hospital phy-
sicians made their final report. She
was domestic in character, active in
church work; also a devoted wife and
mother.

BECK.—Margaret Frances Beck, wid-
ow of James Beck, was the fifth adult
death in the Beck family in two years.
Mrs. Beck died in the Centre County
hospital, Friday evening, from gang-
ren on one of her feet. The body was
brought to the Goodhart mortuary,
where it was prepared for burial and
later taken to the Beck home in the
Penna Cave district. Funeral services
were held Monday afternoon, conducted
by Rev. J. R. Schectery, pastor of the
Evangelical church, with burial in the
Yearick cemetery.

Mrs. Beck was the daughter of Sam-
uel and Mary (Diehl) Orndorf, and
was born at Woodward. She was aged
63 years, 11 months and 1 day.

The surviving children are Charles
Beck, New York City; Mrs. Dora Shafer,
Flemington; Harry, Eugene and
Irene, at home. Two brothers and a
sister also survive, her, namely: Sam-
uel Orndorf, Madisonburg; Mrs. Lin-
coln Confer, Loganton; Mrs. Harry
Hoover, Woodward.

The five deaths which occurred in
the family within two years were a
daughter, Mrs. Martin Bartley, of Lock
Haven; Samuel Beck, a son, in Brush
Valley; Mary Beck, a daughter, at the
home; the father, James Beck, on July
12th, and now the mother.

SASSERMAN.—Catherine Sasser-
man, daughter of Frank and Emma Schref-
ler Sasserma, of Bellefonte, aged 21
years, died in the Centre County hos-
pital Monday morning, from pleura-
pneumonia. She is survived by her
parents, five sisters and one brother.

Funeral services were held Wednes-
day afternoon.

\$9,253 for Centre's Unemployed.

Of the \$10,000,000 the House at Har-
risburg voted for direct poor relief,
Centre county will receive \$9,253.55 to
aid its 991 unemployed. The measure
is expected to pass the Senate, and be-
come a law either by the governor's
signature or pass over his veto.

STICK-UP MEN GET
\$100 IN PHILIPSBURG

Swift work on the part of the Penn-
sylvania State Police cooperating with
Chief of Police N. R. Lamoreaux, of
Philipsburg, Tuesday night, led to the
apprehension and arrest of J. W. Wom-
mer, 31, of 1 Chestnut Street, Oil City;
T. M. Anderson, 33, 1143 Liberty street,
Franklin, and W. G. Williams, 34, R.
D. 5, Franklin, who entered the offices
of the Citizens' Building and Loan, at
Philipsburg, bound nearly one hundred
dollars from the cash register. The
men were transported to Bellefonte
after having plead guilty before Squire
E. R. Hancock, and will be held with-
out bail for the February term of
court.

Sunday evening, George W. Wik,
a Philadelphia policeman, passed
through town with the skin and head
of a 320-pound bear killed in the Phil-
ipsburg region. The policeman is a
member of the Moshannon Hunting
and Fishing club, and was gunning with
other members of the club when the
big game was found. Mr. Bruin had
apparently retired to his winter quar-
ters. He was nestled in a small opening
in the earth or perhaps one he had dug
out for himself. The nest was one
such as may have been responsible for
the saying, "and pulled the hole in
after him."

No marriage licenses were issued by
Register Kossman during the past
week.

FARM CALENDAR

TIMELY REMINDERS FROM
PENNSYLVANIA STATE COLLEGE
SCHOOL OF AGRICULTURE

Store Orchard Equipment—

Fruit growers should carefully store
all equipment now. Picking bags will
be safe from injury by mice if hung
over a suspended wire. Liberal use of
paint on ladders will prolong their use-
fulness. Broken equipment can be re-
paired later.

Find Good Varieties—

Spinach varieties that taste good and
are slow to shoot to seed were grown
in 61 demonstration gardens supervised
by vegetable extension specialists of the
Pennsylvania State College. Leading
varieties were King of Denmark, New
Zealand, Long Standing Bloomsdale,
and Virginia Savoy.

Make Cows Pay—

Good dairy cows, well fed and cared
for, will make money even under some-
what adverse market conditions. Test
your cows this winter and get informa-
tion on the working ability of each
one. Then weed out the losers.

Cut Posts for Fence—

Posts for rebuilding fences can be
made now, piled on end, and allowed to
season until spring. Select the wood
that will last longest in the ground.
Black locust, catalpa, black walnut,
lignitum, white oak, sassafras, and
hart cherry are all good trees for this
purpose. Sound dead chestnut is also
desirable.

Feed for Rapid Gains—

Fall pigs need full feeding to insure
rapid gains so they will be ready for
market in early spring and out of the

way of the spring-harowed pigs. A
self feeder is a labor-saving device
which will help to keep pigs on full
feed.

Why Popcorn Pops—

The popping of popcorn is caused by
the sudden liberation of pressure pro-
duced within the kernel. The best
popping is obtained when the grain con-
tains 12 to 15 per cent moisture. When
stored in heated rooms, the moisture
content often becomes too low for good
popping.
