FARM CALENDAR

TIMELY REMINDERS FROM PENNSYLVANIA STATE COLLEGE SCHOOL OF AGRICULTURE

Provide Vegetable Supply.
If the garden is carefully planned two vegetables a day will be provided for summer use and two vegetables a day can be canned or stored for winter use.

Plan Changes Now.
Now is the time to plan changes in flower borders or shrub plantings. These plans can be worked out on paper and the materials ordered for early spring planting.

Grow Good Legumes.
Clover and alfalfa improve the soil and produce valuable crops. Careful selection of seed, liming the soil where needed, choice of a good nurse crop, sowing at the right time, and applying manure or fertilizer in recommended practices in growing good crops.

Choose Right Vegetables.
Novelties, specialties, standards and humbugs are the names applied to vegetable varieties. The first should be planted only in a small way. The second and third kinds are safe to plant. Humbugs are not desirable and should be avoided.

Chick Weights Related.
Experiments at the Pennsylvania State College with Winter Leghorns and Barred Rocks show that the weights of chicks are different at different ages are definitely related. The heavier it is likely to be, later, consequently, selection of fowls for body weight at sexual maturity may be done accurately at an early age.

Use Purebred Sires.
Purebred dairy sires should have every dairy herd milked for profit. This will insure a high standard of production in the next generation. Joint ownership of bulls and cooperative bull associations are economical ways of accomplishing herd improvement.

Miller Motor Co. Sales.
The Miller Motor Company, Centre Hall, recently made the following sales of Chevrolets:

The Arrival of a New Member...

"THE REPORTER" is pleased to announce the arrival of a new member to its Linotype equipment. To the trade it is officially known as "10 Point Caslon No. 2 with Italics and SMALL CAPS," but to you it may be described as one of the most beautiful Type Faces ever designed,—rich in dignity and charm, a Type possessing character. You are looking at it as you read this announcement. Its true beauty, however, is only revealed in its proper setting—with high grade paper, good quality ink, and proper display.

We are as proud of it as a farmer is of the acquisition to his dairy herd of a Purebred prize-winning animal.

It will be principally used in our Job Printing Department. It will be found to be a beautiful type for printing Booklets, Programs, Circular Letters, and will add charm to most forms of Printing.

The Reporter solicits your Job Printing on merit alone. The "wood-shed" printer may underbid us in price, but you will have paid him more in the end through sacrifice of Quality. Remember, your printed matter is your Silent Representative—it speaks for you.

Send us your order, or phone 4R2.

YOUNG Tom McVey
tossed the last log into place. "That's the lot, Dad—fifteen cords, I'd guess."

His father's practiced eye appraised the woodpile. Nearer twelve, son, but it's all clean hardwood. Too good for the price we get!
Father and son surveyed their handiwork. There was that stubborn knotted oak—and there that iron-hearted hickory. Each log in the long neat pile was a battle fought and a victory won.
"With the right dealer, there'd be money in cord-wood," Mr. McVey observed. "The price is too low hereabouts."
"Sell it in town," Tom suggested. "By telephone!"
His father weighed the new idea. "Son, you've hit it," he finally declared. "And we'll haul it ourselves and double the profits!"
